1 primarily housekeeping changes, regarding training, allowing the chair to be a full-time voting

3 that will be corrected.

23 **Mark McGrath**

24  
25  7:30 PM Community Development Director Mark McGrath described proposed text  
26 amendments to city code development standards relative to window signs. He illustrated photos  
27 of various buildings of well-designed commercial buildings with desired window design  
28 standards. He cited extensive windows oriented toward the street and a desire to provide a better  
29 face to the street, rather than drive-up windows. He said a concerted effort is being made to get  
30 more windows on fronts of buildings, but now tenants are being seen around the county that are  
31 using windows for types of signage. The city is trying to avoid this look and desires a more  
32 pleasing frontage view. He explained that the intent is not to limit the ability to advertise, but to  
33 allow windows to still serve as windows. Mr. McGrath illustrated examples of better window  
34 designs that would be permitted under the proposed new code. He cited specific amendments  
35 that would prohibit black-out windows and stipulate that window signs cannot be any more than  
36 25% of a window or groups of windows.
