VISITORS: None

**AGENDA TOPICS:**

**Mayor Jed Maxwell, Sewer Ponds-Probiotics:** Mayor Jed Maxwell stated that we need to talk about the sewer ponds and what's been going on with them. Salina City has had a lot of complaints about the smell. The state representative thinks someone is dumping meth labs in our sewer system. If we don't take care of it as soon as possible it could cost up to a million dollars to. It has been happening to a lot of little towns recently the State Representative stated to Jed Maxwell that 1 pint of meth can kill our whole sewer pond. Salina City borrowed some probiotic from Gunnison until Salina City can get some product on hand. **Brad Allen** stated that we should receive the product tomorrow with a pump, which will cost around \$4000 to try and save Salina City Sewer pond. **Mayor Maxwell** stated we need to order whatever it takes and keep some on hand in case this problem happens again because \$4,000 is a lot better than a million dollars to fix it. Mayor Maxwell would like the Salina City Police Department to keep an eye out and make sure no one is dumping stuff down Salina City manholes.
