The proposed land exchanges are under continual review and modification by the Forest Service and ski areas and do not reflect final land exchange proposals.

Lands represent areas that could be exchanged, are under detailed analysis, and not acreage or value-for-value determinations that would be followed in a final exchange proposal. Other areas could be added or subtracted from the exchange proposal. After Alta Ski Lifts withdrew its land exchange proposal, other options have been considered, but no proposed land exchange has reached consensus; no land exchanges are displayed between Alta Ski Lifts and the Forest Service.
