Lehi City Council
153 North 100 East
Lehi, Utah 84043
385-201-1000

Members of the Lehi City Council,

We are residents of the Eagle Ridge Subdivision located directly west of Skyridge High School. We are writing to ask you to support the placement of "No Student Parking" signs along the street of 3050 North and Eagle Way (30 West). Residents who live on these indicated streets are in support of signs being placed on the home boundary line to deter high school students from parking in the neighborhood and to park in the high school parking lot.

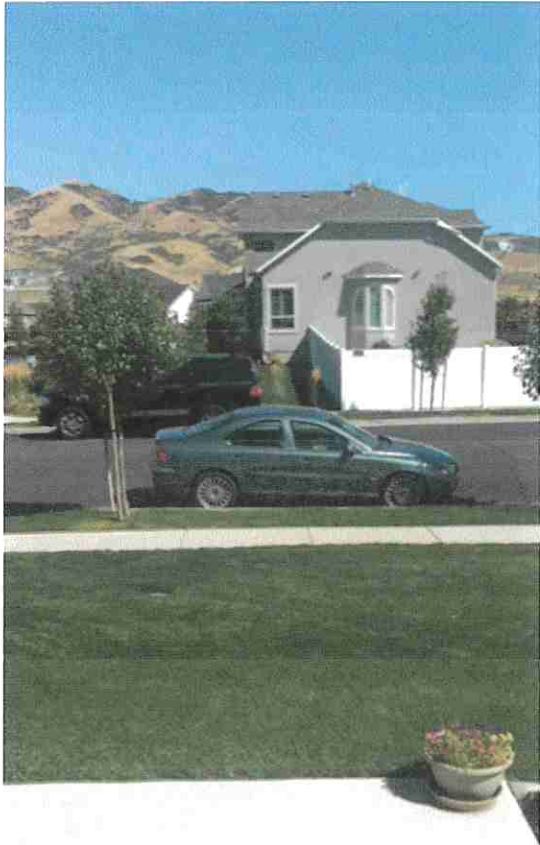

The Eagle Ridge Subdivision sits directly in front of Skyridge High School. We love our neighborhood and the proximity it is to the surrounding schools, including the high school. We have had many problems arise due to the high school students using our streets for parking that we would like to address before more dangers and concerns arise:

- As students park on the north and south side of 3050 North and Eagle Way, these main neighborhood streets become one lane streets. As cars turn west from Center Street onto 3050 North, drivers need to dodge parked cars and slow down or stop for oncoming cars. This problem is magnified as parents drop off their children in our neighborhood for the high school, and visibility of seeing students, due to parked cars, becomes an issue.
- A big concern is the safety of our elementary and junior high students. Young children are walking to Eaglecrest Elementary and junior high students are walking to their bus stops at the same time the students for Skyridge are arriving. The increased traffic on our street is a threat to their safety. One resident had to swerve out of the way while riding a bike as she was about to be hit by a student flipping a U-turn on our street to park their car.
- In addition, bags of trash have been collected by our residents as garbage has been left behind by the students. Just walk the parking lot of Skyridge to see the garbage concern.
- The school has parking for the students. The parking pass is only \$5 for the entire year. One day a resident counted 107 open parking spots at the high school. This year, Skyridge has limited parking passes to only Junior and Senior students. As more Sophomore students obtain their drivers licenses and want to drive to school, their only option is to park on the street. The problem we face now with students using our neighborhood as a parking lot will only become exacerbated as more students want to drive to school.
- Teenage drivers are not experienced in being aware of their surroundings. We also have witnessed students driving too fast through the neighborhood as the elementary students are walking home. One resident lives on a curve on Eagle Way. As cars have begun to park in front of their house, there is decreased visibility to see cars turn down their street from where they normally watch their kids in the driveway. This increases danger for them to play in the front yard.
