Herb was very happy with the results and felt like the sewer pond was turning over. **Stevens** let Herb know that he was dumping 5gallon buckets of Bio-Tech throughout the city in different manholes. Herb felt like if Stevens cut down to 2 ½ gallons one manhole per week that would be fine. **Stevens** got a hold of Chemford laboratories a week ago for the test results and the only thing they could see was high steroid and sulfate, Chemford Laboratories couldn't determine what chemical was being dumped into Salina City sewer pond. **Mayor Maxwell** is wondering if the chemical dumped in the manhole could have been anti-freeze. **Cade Hunter** asked if the chemical in the manhole is orange in color. **Stevens** stated yes in one of the manholes in town they did find an orange chemical in it. **Newell Hales** asked if Salina City can investigate getting a Muffin Monster to help grind up the trash and Debry before it hits the sewer pond. **Mayor Maxwell** suggested Salina City needs to get with get a hold of the engineer for pricing and location.
