

TMAC – October 8, 2019 Meeting Notes – 12:30pm, 330 West 100 South

In Attendance:

- *TMAC Members:* David Arnold, Clancy Black, and Joy McMurray
- *Staff:* Robert Mills, Javin Weaver, David Graves, David Day, Shane Winters, Jared Penrod, Austin Taylor, Gary McGinn
- *Others:* David Harding (City Council), Paul Evans (Pleasant View Neighborhood Chair)

Item 1 – Review of Spin Scooter Survey:

- Austin Taylor led the discussion on the results of a recent survey to Spin Scooter riders. The data gathered showed that most scooter riders were having a positive experience.
- Scooter riders reported that using a scooter accounted for replacing about 30% of trips they would have used a vehicle for.
- Scooter riders on sidewalks remain a concern and further discussion was had on how to educate riders that they should not be on the sidewalk.

Item 2 –Citywide Survey on Transportation:

- Austin Taylor led a discussion on the desire to do a citywide survey of residents regarding transportation successes and concerns.
- It was determined that it would be best to work through the winter to develop a set of qualitative questions for a survey and then release a survey in the spring.
- Desired information to obtain would include: parking utilization, UVX ridership information, business owner perspectives, etc.
- There is a desire to include the area of Provo that a respondent lives in with the survey to understand how transportation is viewed geographically within Provo City.
- There was also discussion on the efforts to education the public regarding transportation related projects within the City. There is very little information available about the different projects going on and the purpose of those projects. It was determined that Public Works and the Public Information Specialist in the Mayor's Office should work together to develop ways to disseminate that information.

Item 3 – Transportation Master Plan Status Update:

- Public Works staff reported that they had just received the draft.
- Public Works will provide the draft to Robert to distribute to the TMAC members. The members can then read and provide comments on the draft.
- The intention is to schedule a review of the draft with the consultant at the November TMAC meeting.
- A PDF copy will be emailed to the members. If members would prefer a paper copy, they can request one from Robert.

Next Meeting: November 12th at 12:30pm to continue review draft Transportation Master Plan.
