Mayor Bigelow discussed proposed Ordinance 19-47 that would repeal and reclassify certain ordinances, modify criminal punishments, and add mental states for criminal culpability

Written documentation previously provided to the City Council included information as follows:

This ordinance change adds a culpable mental state to our criminal ordinances, clarifies that if no culpable mental state is added then the culpable mental state is reckless, clarifies that the traffic code does not have a culpable mental state, changes and clarifies several levels of punishment for various criminal ordinances, repeals some outdated ordinances, and generally cleans up some issues with the Criminal Code.

RESOLUTION 19-151: APPROVE A SUBSCRIPTION TERM AGREEMENT WITH PAYLOCITY CORPORATION ENTERPRISE FOR THE CITY'S PAYROLL PROGRAM

Mayor Bigelow discussed proposed Resolution 19-151 that would approve a subscription term agreement with Paylocity Corporation Enterprise for the City's payroll program.

Written documentation previously provided to the City Council included information as follows:

Human Resources needs a new payroll software system. Paylocity is a Human Resource Information System (HRIS) which provides more than just payroll. It will provide services for payroll, time and attendance, applicant tracking, compensation and benefits management all in one system.

Human Resources is currently using Innoprise to run payroll. The time and attendance module has never worked, as promised, along with other functionalities. It takes several hours to run a payroll process. We have had to purchase additional software to accommodate what lacks in Innoprise. Other Departments were out looking for software to do the same. It is time to purchase a state of the art Human Resources Information System to meet the needs of all departments and employees.

Upon inquiry by Mayor Bigelow there were no further questions from members of the City Council, and he called for a motion.

Councilmember Fitisemanu moved to approve Resolution 19-151.

Councilmember Christensen seconded the motion.

A roll call vote was taken:

RESOLUTION 19-152: AUTHORIZE THE PURCHASE OF A TRACTOR FROM DEERE AND COMPANY FOR USE BY THE PARKS DEPARTMENT

Mayor Bigelow discussed proposed Resolution 19-152 that would authorize the purchase of a tractor from Deere and Company for use by the Parks Department.

MINUTES OF COUNCIL REGULAR MEETING – NOVEMBER 26, 2019

-5-

Written documentation previously provided to the City Council included information as follows:

The full size, front loading tractor utilized by Park Maintenance broke down, was not repairable and was surplused. A new tractor is needed to enable the Park Maintenance Division to perform numerous tasks that have not been able to be performed since the old tractor was eliminated.

Parks Maintenance had a 30-year old tractor it used regularly. It was utilized in numerous aspects of park maintenance including: aeration, seeding, digging holes, trenching, and loading bulk materials. This tractor broke down early in 2019 and was not able to be repaired. This has caused a delay in performing numerous park maintenance tasks and an increase in manhour usage throughout the year.

Also, as the Park Maintenance Division is moving to the new shop next year, the loader will be needed to move and load bulk materials into trucks such as top soil, bark, sand, etc.

A program modification was approved for this purchase. A new model replacement can be purchased from Deere and Company using Utah state purchasing contract number MA2184 for the cost of \$48,515.62.

Upon inquiry by Mayor Bigelow there were no further questions from members of the City Council, and he called for a motion.

Councilmember Huynh moved to approve Resolution 19-152.

Councilmember Nordfelt seconded the motion.

A roll call vote was taken:

Mr. Fitisemanu	Yes

Mayor Bigelow	Yes

Unanimous.

ISSUE:

A Proposal for the West Valley City Police Department to purchase a Leica accident and crime scene reconstruction laser scanner. The current technology in use by the Police Department is obsolete and outdated.

SYNOPSIS:

This resolution authorizes the purchase of equipment necessary to investigate and reconstruct crime scenes and vehicle accidents from a sole source provider.

BACKGROUND:

The equipment and software currently used by WVCPCD to investigate and reconstruct crime scenes and automobile accidents is outdated, and no longer meets the reliability test to be admitted as evidence in all courts.

The Leica Scanner System is a highly specialized piece of equipment that utilizes unique equipment and programming that is not available elsewhere and is the only scanner that has met the standard for admission as evidence by the federal courts at the time of this writing.

The benefits of the Leica are: current technology, cost effective to use, safer for officers, moveable, easily transported, does much more on scene of crash, weather is not a factor, local support, free training due to it being a local company, Utah Highway Patrol is transitioning to the Leica system as well.

A cost breakdown is attached.

RECOMMENDATIONS:

City Staff recommends the approval of the purchase of the Leica Scanner.
