

Do you believe that water is a critical issue in our area?

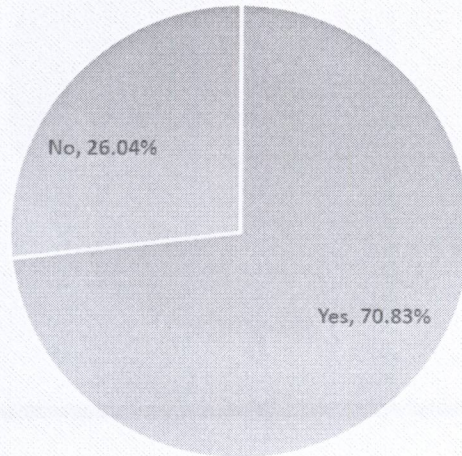

Which, if any, issues would you like to see addressed by Town Officials?

property Road town business commercial housing
Allowing buildings zones parking vacation rentals

Would you support residential water conservation methods? (E.g. Water rates that increase with increased block usage.)

If you currently water outdoors with culinary water, are you willing to stop, or change to ditch water (if you own a share in a local irrigation company)
