Eric asked the council if they would like to put out for bid the CDBG project for this year. He stated that it was getting kind of late in the year but they could do either now or in the spring. If they do it in the spring, we could still work on getting the plans in place so we are ready to put it out for bids first thing in the spring.

The council discussed the pros and cons and decided to wait until the spring to bid out the project. The project will go out to bid in February 2020.

Fire Department

Keith Thompson stated we have had complaints of the fire department leaving town in the middle of town with lights and sirens blaring. This is probably not a necessity if there are no cars or people out and about.

The pay between Scott O'Hare and Jeremy Wilcock will be split equally between the two of them. It will be \$90 each. Scott will do the paper work and Jeremy will do all the truck maintenance and recruit the members.

The policy for the town owned fire trucks was reviewed and each council member took a copy of it for reference. Jeremy and Scott both have a copy of the contract from the county also.

The firefighters fighting the wildland fires have been given permission to stay at the park if needed.

EMS

The EMS have received donations from individuals in lieu of flowers for a couple of individuals who have passed away. We will have thank-you letters to sign at the next town council meeting.

Park

The park has also received a donation from someone that stops by annually at the park and stated that the park looked really good and had been taken care of well. The donation was for \$200. A thank you note will go out to that individual as well.
