Cruelty cases -- seized animals: When an animal is seized in a cruelty case, the animal comes to the LaVerkin shelter for safe keeping during the court procedure.

Bite quarantine/ rabies quarantine: Any animal on bite quarantine or rabies quarantine is held at the LaVerkin shelter during the quarantine period. This includes dogs and cats for bites, or any domestic animal that has been exposed to a potentially rabid wild animal.

Education for the public (spay/neuter, rabies, barking, training, etc): When an animal is reclaimed by their owner after being picked up RAL, the owner is educated to help them understand possible reasons for their dog being RAL. They are also educated on mandatory rabies vaccination laws, and required to have their dog current on rabies vaccination. We also offer microchipping for any dog that has been picked up RAL and reclaimed, to better ensure a faster reclaim should the dog be picked up RAL again.

Owner surrenders: The residents of Toquerville are able to easily owner surrender a dog to the LaVerkin shelter. We accept most adoptable dogs, with the exception of vicious dogs, or dogs with severe health concerns.

RAL (Running at Large): Dogs picked up RAL in the city of Toquerville are kept at the LaVerkin shelter for safe keeping. They are held for a 5 day stray hold, and every attempt is made at locating the owner. If the owner is not located within the stray hold period, the dog is spayed/neutered, vaccinated, and microchipped, then placed for adoption.

10-45: A deceased domestic animal found in city limits will be held at the LaVerkin shelter in cold storage while an attempt is made to locate the owner.
