

Fall 2019 Instructional Materials Review  
Publisher Report

The following is a listing of series that were evaluated in the Fall 2019 Instructional Materials Review. Many of the publishers participating in the review had difficulties entering data into the database, since RIMS is being converted to a new system being developed by MIDAS. To allow for the errors occurring in the bid submission process, there will be a follow up review during our Spring Review schedule that will allow publishers to see that the data is entered correctly and then reviews can be completed. Public display of the reviews is set to go public on January 1<sup>st</sup>, as MIDAS completes the public interface.

Total Series Reviewed = 89.

**Achieve 3000 -1**

Submitted Listings for Actively Learn Unlimited - Recommended Student Resource. A wealth of resources in ELA, science, and social studies, but course codes were not submitted for reviews in individual subject areas, so review rubrics were not generated.
