IN REPLY REFER TO:
206R-CW

The Honorable Ty Ellis
Mayor, City of Elk Ridge
80 East Park Drive
Elk Ridge, Utah 84651

Community: City of Elk Ridge,
Utah County,
Utah
Community No.: 490259
Map Panels Affected: See FIRM Index

Dear Mayor Ellis:

This is to formally notify you of the final flood hazard determination for your community, effective as of June 19, 2020, in accordance with Part 67, Chapter I, Title 44 of the Code of Federal Regulations. As a result of the countywide study for Utah County and Incorporated Areas, the Federal Emergency Management Agency (FEMA) has determined that no Special Flood Hazard Areas (SFHAs) exist at this time within the corporate limits of your community. This does not preclude future determinations of SFHAs that could be necessitated by changed conditions affecting the community or the availability of new scientific or technical data about flood hazards.

While FEMA has determined that your community does not contain SFHAs (areas inundated by a flood having a 1% chance of being equaled or exceeded in any given year, i.e., the base flood), it should be recognized that floods larger than the 1% annual chance flood do occur. Therefore, your community should exercise care in evaluating new development that could aggravate or create flood problems in your community or in adjacent communities.

By continuing its participation in the National Flood Insurance Program (NFIP), your community makes flood insurance coverage available to your citizens on a voluntary basis. While no new floodplain management measures are required as a result of the new maps for Utah County, Utah and Incorporated Areas, your community is encouraged to implement regulatory measures to protect development from known, local hazards. If your community is located on printed FEMA map panels you will receive copies of those panels and the Flood Insurance Study (FIS) report for information purposes before the June 19, 2020 effective date.

If you should require any additional information, please do not hesitate to contact the Director, Federal Insurance and Mitigation Division of FEMA Region VIII in Denver, Colorado, at (303) 235-4830. Additional information and resources your community may find helpful regarding the NFIP and floodplain management, such as *The National Flood Insurance Program Code of Federal Regulations*, *Answers to Questions About the National Flood Insurance Program*, *Use of Flood Insurance Study (FIS) Data as Available Data*, *Frequently Asked Questions Regarding*

the Effect that Revised Flood Hazards have on Existing Structures, and National Flood Insurance Program Elevation Certificate and Instructions, can be found on our website at <http://www.floodmaps.fema.gov/lfld>. Paper copies of these documents may also be obtained by calling our FEMA Map Information eXchange (FMIX), toll free, at 1-877-FEMA MAP (1-877-336-2627).

Sincerely,

A handwritten signature in black ink, appearing to read 'Luis Rodriguez', with a stylized flourish at the end.

Luis Rodriguez, P.E., Director
Engineering and Modeling Division
Federal Insurance and Mitigation Administration
