Cade Hunter

Ashlee Larsen, City Recorder
Kathy Maxwell, City Treasurer
Al Taylor, Chief of Police
Brad Allen Maintenance Supervisor

Mayor Jed Maxwell called the work meeting to order at 8:20 pm at the Salina City Hall.

VISITORS:

Sunrise Engineering-presentation:

Trent Brown and Jesse Ralphs are here to present Salina City with a new Master Plan. **Jesse Ralphs** stated when there is growth happening in your city it's important to update your City Master Plan it looks like Salina City's Master Plan was done in 2006. **Newell Hales** stated when he was on City Council twenty years ago, he thought Salina City replaced all the Sewer lines in town, but when Twin D came down to camera and clean out some of the sewer lines last month a lot of the lines were still the old clay pipes. **Mayor Maxwell** asked Brad Allen if he could get a map and highlight what sewer lines needs to be replaced. **Mayor Maxwell** asked Sunrise if Salina City should do a sewer plan or a Master Plan right now. **Jesse Ralphs** stated it's up to Salina City if they just want to focus on the sewer plan right now then he suggested focusing on that, then Salina City can work on the Master Plan when the sewer lines are finished. **Kathy Maxwell** asked when Salina City wants to redo the roadway plan do they have to replace the old plan, or can Salina City add to the existing plan. **Jesse Ralphs** said yes that's not a problem if the general plan is the same they can just add the new roads to it. **Mayor Maxwell** stated right not Salina City will just focus on the sewer plan, and then do an over view of everything else later. He suggested Sunrise get with Brad Allen and The Maintenance crew to put the scope of work together and get some figures for Salina City. **Mayor Maxwell** thanked Sunrise for coming.

Phil Rural Water Sewer Project Grant 30,000 Phil Harold stated Salina City qualifies for 30,000 up front grant to help redo their sewer lines, but then would have to apply for 70% loan and 30% grant. **Harold** stated Something Salina City might want to consider is the new pipe that Geneva Pipe put together called perfect resist pipe. Geneva will be in Santaquin next Wednesday for a training of the new pipe you can sign up on Rural Water website Geneva is guaranteeing this pipe should last up to fifty or hundred years and it resists H2S. Another thing Salina City will

want to look at is Division of Water Quality they came up with new technology to send sound waves through your sewer lines to see if they are plugged. That way you won't have to bring Twin D down every year to clean out your lines. **Harold** stated the training from Division of Water Quality is on March 18th in Gunnison. **Harold** stated that he's willing to do what he can to help Salina City out with their sewer lines. **Newell Hales** asked how much the cost would be for a grinder at the sewer pond. **Phil Harold** said the cost is usually around \$50,000 this could really help with Salina City and all the sewer pond problems. Harold mentioned how important it is to have a pretreatment in place and to stick with it for every business, especially when the new ordinance is in place. If we continue to have problems Jen Robinson would be more than happy to help Salina City out. **Harold** stated he's willing to help Salina City update the grease trap Ordinance.

Earl Taylor,

Jon Maxwell,

Daniel Viers,

Newell Hales,

Cade Hunter,

Earl Taylor motioned to adjourn the work meeting at 9:32 p.m. The motion was seconded by **Newell Hales**. Motion carried 5 to 0.

Date 2-12-20 Council Member Eune [Signature]
