Re: Northwest Avenue
Project #: MC190021
Surveyor Work Order: W022520131

Madeline,

Thank you for the invitation to provide an estimate for the Northwest Avenue improvement project. The following is our understanding of the project scope:

- Project is approximately 1350 linear feet
Project is along the southwesterly side of Northwest Avenue between 5415 South Street and approximately 5568 South Street
Delineate the existing right of way corridor, parcel/lot lines of record, municipal boundary lines, and adjoining land ownership
Final product to be an AutoCAD drawing - including survey control.
Deliverables to include digital copies of vesting deeds, utility easements, subdivision plats, and records of survey.

Right of Way Estimate:

Table with 3 columns: Task, Hours, and Cost. Rows include Research (20 hours @ \$40.00/hour = \$ 800.00), AutoCAD (24 hours @ \$45.00/hour = \$ 1,080.00), Administration (4 hours @ \$60.00/hour = \$ 240.00), and Estimated Right of Way Cost = \$ 2,120.00.

Schedule: Personnel are available to commence work upon a three-day advance notice.

Please let me know if you have questions or need additional information.

Respectfully,

Steve
