

**SALT LAKE CITY CORPORATION
SALT LAKE CITY COUNCIL
NOTICE OF HEARING**

NOTICE IS HEREBY GIVEN THAT ON Tuesday, June 9, 2020 at 7:00 p.m. a virtual public hearing will be held by the Salt Lake City Council to accept public comment and consider adopting an ordinance amending Chapters 17.78, 17.84, 17.87 of the Salt Lake City Code pertaining to non-storm water discharges to storm sewer systems and watercourses to regulate and monitor the City's storm sewer system. The storm sewer carries rainwater and melted snow through gutters and drains to an underground system that flows to nearby rivers, canals, or creeks. Sometimes pollutants in runoff may enter the storm sewer system and may impact downstream rivers and lakes. While the City has adopted ordinances to protect water quality, the proposed amendments more effectively meet changing federal and State regulations to ensure stormwater quality standards. The amendments also deal with the City's enforcement of the standards. This will be an electronic meeting pursuant to Salt Lake City Emergency Proclamation. If you are interested in participating in the Public Hearing, please visit our website at <https://www.slc.gov/council/> to learn how you can share your comments during the meeting. Comments may also be provided by calling the 24-Hour comment line at (801)535-7654 or sending an email to council.comments@slcgov.com. All comments received through any source are shared with the Council and added to the public record. (020-7)
