**NOTES/COMMENTS:**

**RECOMMENDATION:**

The Energy Director recommends that the Council approve Change Order #1 for the steel high pressure gas line in the amount of \$8544.65.

**BACKGROUND**

The Gas Department is requesting that a tee, valve, and stub be installed in the steel high pressure natural gas pipeline that is currently being constructed. This stub will be located along Pony Express Parkway where the pipeline will cross under the road and head North. This will allow us to easily extend the pipeline East to SilverLake and Kiowa Valley if and when it becomes necessary.
