OBSTRUCTIONS

No fences, foot markers, shepherd hooks, or other obstructions or installations, except a headstone or monument, will be permitted in the Cemeteries. Small fences, foot marker, and shepherd hooks may be installed within a six (6) inch concrete mow strip attached to the headstone or monument, with the approval of the Sexton.

DECORATIONS

FLOWERS ON NEW GRAVES

The cemetery crew will remove decorations or flowers on new graves after seven (7) days. Special flower mementos should be removed by the family at the conclusion of services. After the grave is closed, the casket spray will be placed on the grave. Other flower containers and wreaths are laid down in an orderly fashion around the casket spray with the containers extending outward. Flowers are laid down to prevent them from being blown around the Cemeteries by the wind.

FLOWER POLICY

Properly displayed flowers add to the beauty and character of the Cemeteries. Flowers are allowed throughout the year. However, Honeyville City and the Cemetery staff will not be responsible for flowers or other personal property left in the Cemeteries. Be aware that on occasion uncaring individuals have removed expensive flower arrangements and other decorations without patron or staff knowledge or consent.

All flowers, real or artificial, must be placed in a container or attached to the headstone or monument. Flowers in movable containers must be placed on the headstone or monument base to insure easy access for grass cutting. **No** glass containers are permitted. Any objects to be driven into the ground, such as wires, irons, sticks, or pegs, are **not** permitted. Any object or decoration not in compliance with these regulations will be removed immediately upon discovery. Flowers on monuments between designated rows are not permitted except on Memorial Day.

GENERAL SPRING CLEAN-UP

All flowers and decorations in permanent containers, that are wilted or damaged by the weather, will be removed during the last week of March and the first week of April or before the Easter weekend each year. All flowers and decorations removed by the Cemetery crews are disposed of. Patrons that bring in decorations intended for use during the entire year are encouraged to wait until the spring cleanup is completed. Throughout the summer, any unsightly or wilted flower decorations, as determined by the Sexton, will be removed to maintain the beauty of the Cemeteries.

**The DRAFT Minutes of
Honeyville City Council
October 14, 2020, Regular Meeting**

Mayor Boyd Bingham called the meeting to order at 7:00 p.m.

Present were Mayor Boyd Bingham, Councilmembers Bruce Nelson, Jeff Sanders, Sharon Lorimer and Trevor Gardner. Councilmember Dale Millsap arrived at 7:01.

Approximately 14 members of the public were present.

Sharon Lorimer offered the invocation and led the group in the pledge of allegiance.

Conflict of Interest: None noted.

Public Comment Period:

Allen Heniefer stated that he has been helping at the Camelot Inn and has had problems with someone piling dirt on top of his landscaped island that is located between the sidewalk and the gutter on the south side of the property. He also stated that the gutter has been extremely cluttered. **Mayor Bingham** stated that the city would look into this issue and see if they could find out who is piling dirt there.

PLANNING COMMISSION REPORT – ZONING ADMINISTRATOR, CODEY ILLUM:

- A. **Codey I** reported that the Planning Commission will be doing their final review of the A-5-A zoning and will present it to the council in November he suggested holding a Public Hearing at that time.
- B. He also asked if they have the councils support in creating a way to expedite the small subdivision process. This would allow a minor subdivision to be approved administratively once reviewed by the city engineer. **Bruce N** asked what the process is to get a subdivision approved at this time. **Codey I** clarified that it is a 2 month, 4 meeting process at minimum. They begin by paying the concept and prelim fees. From there the individuals are placed on the Planning Commission agenda where they can present their concept and prelim. Once it has been approved at the Planning Commission level, they are sent to the City Council where they must also approve or deny the concept and prelim plans. If it is approved the individuals must go back to the Planning Commission for approval of their final plans and then again gain approval from the City Council. **Mayor Bingham** clarified that it was suggested that the concept and prelim would be approved or denied administratively following the city engineers'

recommendations and would not have to appear before the council for this step. The individuals would then present the final plan to the City Council for approval. **Codey I** shared that they are currently talking about a few different options and that the commission didn't want to move forward if they did not have the support of the council. **Trevor G** shared concerns regarding stream lining this process. **Sharon L** asked about the extra set of eyes that would look at these plans. **Mayor Bingham** stated it would consist of the Planning Commission, City Engineer, Mayor and the City Attorney. **Codey I** will work with the Planning Commission to build some suggestions regarding expediting small subdivisions and present that to the council at a later date.

- C. **Codey I** stated that he had received a subdivision review for a 2 parcel subdivision from Doug Madsen down on Salt Creek road. The parcels meet the proper frontage and acreage, however there are some issues regarding a waterline. Blair Perry and Doug Madsen paid for the installation of the waterline from the highway all the way up, but they paid for the pipe and installation from the end of the asphalt all the way up the road about 15 years ago. He does not know how to proceed with the controversy on the waterline. **Mayor Bingham** shared that in the past minutes were vague and only stated that they had the surrounding neighbor's approval to proceed. He stated that the easement issues need to be addressed. He also shared that the past minutes shared that once the waterline was completed it would become city property, however if impact fees were charged those fees would be split between the city, Doug and Blair. **Dale M** shared that they are currently mapping out what the desired right of way would be and then they would begin to work with the property owners in that area to get a prescriptive right of way. **Mayor Bingham** also questioned how many hook-ups would be allowed on the 4-inch waterline. **Sharon L** felt that they need to proceed with proper criteria. They need to start making things right. She felt that they need to stick to our ordinance. **Bruce N** stated that this would require an 8-inch line from 6900 N. all the way up to Blair's house. **Mayor Bingham** shared that Doug had already paid to put a 4-inch line in per the previous councils' requirements. **Sharon L** stated that the council cannot keep allowing people to build homes without meeting the cities standards. **Jeff S** felt that the city would be responsible to run the 8-inch line. **Codey I** recommended turning this over to David Church for advice. **Blair P** stated that they tried to have an 8-inch line installed in the beginning however the city would not allow it. **Mayor Bingham** will contact David Church for legal advice.

CITY ADMINISTRATION – MAYOR BOYD BINGHAM

- A. **RICHARD SHAW:** **Richard Shaw** asked the council why his gates were removed. **Mayor Bingham** asked Troy M why the gates were removed and if he had received a written formal complaint that was signed and filed with the office regarding the gates. **Troy M** stated that there was a complaint but not a formal complaint made. He proceeding to

share that the gates were put up on a city road and shut with a chain. **Mayor Bingham** reminded him that they had spoken and that he had requested Troy make sure his facts were correct before proceeding with any action. It was clarified that the Mayor did not authorize the removal of the gates. **Dale M** stated that Troy had reached out to him regarding locked gates. **Richard S** clarified that they were chained not locked. **Dale M** was under the impression that they had been locked. **Richard S** wanted to know why they weren't contacted. **Dale M** stated that he had tried to reach out, but wasn't sure if he had the right contact information. **Kelli Shaw** showed the council where their property lies. She clarified that once they purchased their parcels that road was vacated to the city from the county. She continued on stating that it is a dead-end road and that when they first purchased the property, they had petitioned the county to do something with this road because of the issues they had with un-lawful things happening down there. Kelli shared that originally the county was going to vacate the road to the Shaw's but once they realized it was within Honeyville city limits they decided to vacate it to the city. Kelli is in the process of finding the minutes from those meetings with the county. **Richard S** shared that every land owner there was on board and in fact asked for the gates to be installed to help defer the growing traffic. **Kelli S** shared that the pipes and everything to install the gates were placed off of the city roads. She clarified that the gates have never been locked and that she had researched city policies and that there are several steps that should have taken place prior to the gates being removed. The Shaw's were frustrated that they weren't even contacted regarding this issue and stated that the city has their information on file. They also expressed frustration with the fact that the gates weren't simply removed, but were destroyed and bent in the process. **Mayor Bingham** asked Troy and Dale if they would like to address the Shaw's. **Dale M** owned his mistake and asked the council if they still had an interest in maintaining that road. **Jeff S** stated that they had discussed this issue and because there are different land owners on that road, they felt that the city needed to maintain it for all land owners. He then expressed it was illegal to gate a city road. **Mayor Bingham** clarified that he had spoken with an attorney, David Church, and it is not illegal to gate a city road as long as it is not locked. It was further clarified that the Shaw's own property on both sides of that road and the posts were in fact installed on their own personal property. The Shaw's had also contacted an attorney regarding this issue and received the same information. **Jeff S** felt that all of the property owners should have drafted a letter presenting the problem to the council and gain permission to gate the road. **Kelli S** clarified that this road is not a residential road it is agricultural. She asked if the city wants a road to a dead end? **Bruce N** wanted to know who complained and why. He wanted to know if there was some emergency the day the gates were removed. **Troy M** stated that an individual wanted access to the river. **Richard S** stated that he has never denied people the right to fish down there even though it is in fact private property. He simply asks that they clean up the garbage. **Kelli S** expressed gratitude to the Sheriff's Department for monitoring the area so closely. She also asked the council if they would

want these things happening in their front yard. She continued on asking that their gate be replaced. They were custom made and very expensive. She then asked the city if they really want that road or if they would be willing to vacate the road to the property owners. **Dale M** will take the lead on this and make sure the gates are put back up and will research the interest in the road or the possibility of vacating the road. **Kelli S** can't remember a time that she has ever seen someone from the city mow or maintain that road. They in fact have mowed and maintained the road to make sure their irrigation pipeline maintained. **Mayor Bingham** clarified that they would look into documentation with the county regarding when and who the road was vacated to and that in the meantime Dale would take the lead and make sure the gates are put back up.

B. OSHA:

Mayor Bingham shared that OSHA has stated the city needs to maintain a hazard communication program as well as a confined space entry policy. OSHA sent out a couple of forms and has requested the city approve these procedures. Once those are approved, they need to come up with a training program.

JEFF SANDERS motioned to adopt the Hazard Communication Program and Confined Space Entry Policy sent to us by the State OSHA Department. **SHARON LORIMER** seconded the motion. **MOTION CARRIED** with **Bruce Nelson** for, **Jeff Sanders** for, **Sharon Lorimer** for, **Trevor Gardner** for and **Dale Millsap** for.

C. ENTERPRISE ZONE RESOLUTION 2020-03:

Blair P shared that back in 2016 the State came out with a program for areas around the State that were economically challenged and met certain criteria. Municipalities created an application for those conducting business within their municipality that would allow those businesses to receive tax credits for economic development, capital improvement and other things of that nature. There is no obligation or commitment on the city's end other than to state that they want to take care of the businesses that are here and make sure they get to take full advantage of the tax credit. Davis and Bott strongly suggested they renew the resolution because it is a 4 year agreement.

JEFF SANDERS motioned to approve Resolution 2020-03 to renew the application for the Enterprise Zone. **BRUCE NELSON** seconded the motion. **MOTION CARRIED** with **Bruce Nelson** for, **Jeff Sanders** for, **Sharon Lorimer** for, **Trevor Gardner** for and **Dale Millsap** for.

D. EMPLOYEE PROTECTIVE CLOTHING:

Mayor Bingham shared that most places have reflective protective clothing for their employees. He wondered if the council would be interested in providing these items for the city employees. He also mentioned that employees need proper protective clothing when spraying. **Bruce N** felt that they need to be safe and that employees should be wearing protective clothing.

E. NOVEMBER CITY COUNCIL MEETING DATE (VETERANS DAY)

Mayor Bingham informed the council that the regular schedule City Council meeting will fall on Veterans Day. If the meeting is moved to a week later it will conflict with the Planning Commission because they moved their meeting up due to the Thanksgiving Holiday. He asked if it would be a problem to hold the meeting on Veterans Day. No one had an issue with this. The meeting will remain as posted.

F. CITY COUNCIL REGULAR MEETING MINUTES - 09/09/20:

Mayor Bingham reported that he had signed and renewed the contract with Blair Wardle per the discussion from last month's meeting. He also shared that he and Blair had spoken about the grant received for the drainage on 3600 W for engineering. They are requesting quarterly updates on how the money has been spent and where the city is at. They are anticipating this will be a yearlong process.

The **Mayor** also updated the council on the cost estimate for a Geotech study. The Bear River Health department will develop a septic system plan for \$450.00 and another company will come and do the Geotech study for \$4,400.00 which will save the city thousands of dollars.

Mayor Bingham continued informing the council that the Fire District contacted him and they are budgeting for a \$2,000.00 payment to pay the city monthly starting in January 2021.

Jeff S asked if the pump had been fixed on the North Well. **Troy** stated it was up and running and he was waiting on a bid from Glenns Electric for the surge protector.

DALE MILLSAP motioned to approve the City Council Regular Minutes of 09/09/20 as presented. **BRUCE NELSON** seconded the motion. **MOTION CARRIED** with Bruce

Nelson for, Jeff Sanders for, Sharon Lorimer for, Trevor Gardner for and Dale Millsap for.

G. CHECK & DEPOSIT DETAIL - 09/01/20 – 09/30/20

BRUCE NELSON motioned to approve the Check & Deposit Detail for 09/01/20-09/30/20 as presented. DALE MILLSAP seconded the motion. MOTION CARRIED with Bruce Nelson for, Jeff Sanders for, Sharon Lorimer for, Trevor Gardner for and Dale Millsap for.

GENERAL COMMUNITY EVENTS/BUILDINGS & EQUIPMENT – COUNCILMEMBER TREVOR GARDNER

- A. **Trevor G** reported that they are still scheduled to have the Halloween Celebration at the park October 27th. The Mayor suggested having a lot of hand sanitizer available.

PARKS & CEMETERIES / CITY COMMUNICATION – COUNCILMEMBER JEFF SANDERS

- A. **Jeff S** reported that the sprinkling system at the park is almost done. **Mayor Bingham** wanted to come up with a plan on how to move forward. He was waiting for an email from Kellen's contact on what would be the best grass to plant at the upper park. They felt it may be beneficial to plant in the fall and hopefully have grass up in the spring.

PUBLIC HEALTH & SAFETY / PLANNING COMMISSION / YOUTH CITY COUNCIL – COUNCILMEMBER SHARON LORIMER:

- A. **Sharon L** reported that she has been meeting with the youth city council again.
- B. **Sharon L** also reported that the Utah Legislature is getting money for sidewalks to be put in along highways. The city would have to do some things in order to get the money as well as come up with 25% of the expense and she would like to apply for these funds. **Bruce N** felt that they should apply for the grant. **Sharon L** suggested having a sidewalk that would meet up with the future park plans. She felt that BRAG could help with the documents they need. Sharon L will take the lead on this project and reach out to Dale with any questions.

WATER SYSTEMS & DRAINAGE – COUNCILMEMBER BRUCE NELSON:

- A. **Bruce N** reported that himself, the Mayor and Blair would be having a meeting to discuss a change order Newman Construction sent after they had difficulty getting through some rock as they worked on the waterline project. Dana S stated that this is a normal process when companies come across problems during a project. **Mayor**

Bingham felt that they knew where they would be digging when they bid the project out and adding in the amount, they are requesting would make the expense higher than some of the other bids presented. **Codey I** suggested they ask Dana about a change order policy which should protect the city.

Dale M reported that the swell through Jim Keller's place and through Spencer's is lower than it originally was and is about a 2-foot low spot on Zundel's and it pools there before it exits through the culvert. **Sharon L** wanted to know who is inspecting the culverts being installed. It was discussed that previously the city has not had anyone in place who inspected these issues. **Bruce N** felt that having Codey working for the city has really helped reduce these issues. **Dale M** shared their plan is to lower the culvert. **Mayor Bingham** would like them to present the plan and make sure that the road is repaired properly.

STREETS & ROADS / MOSQUITO ABATEMENT – COUNCILMEMBER DALE MILLSAP

- A. **Dale M** reported that the mosquito abatement had a meeting to discuss a preliminary budget, but nothing else to report at this time.

BRUCE NELSON motioned to adjourn. **JEFF SANDERS** seconded the motion. MOTIONED CARRIED with Bruce Nelson for, Jeff Sanders for, Sharon Lorimer for, Trevor Gardner for and Dale Millsap for.

Meeting adjourned at 8:41 p.m.

The foregoing minutes were taken by Jody Chambers and typed by Brittiny Chlarson.

I certify these minutes to be true and accurate to the best of my knowledge.

Honeyville Trail User Survey

#	RESPONSES	DATE
1	Look forward to it	9/15/2020 7:04 PM
2	If there are already existing trails they need to be posted on the city homepage.	9/4/2020 9:49 AM
3	None are needed	9/2/2020 7:30 AM
4	Thanks for doing this. Trails will make Honeyville feel more like a community.	8/27/2020 9:20 AM
5	Thank you for doing the survey	8/27/2020 7:54 AM
6	I'm really glad you're talking about this!	8/23/2020 7:27 AM
7	I would like to see the city work with The Back Country Horseman groups to establish new trails that everyone can use. Thier is a large number of horse back riders in this area and we are being limited to less and less trail systems in this state in favor of ATV and mountain bike trails.	8/21/2020 2:19 PM
8	Don't want mountain bikers riding around my property	8/21/2020 9:35 AM
9	Share the trails, horses, dogs, people	8/20/2020 3:59 PM
10	Goat head thorns are going to be hard to control and keep controlled on most trails. They are sure hell on bike tires	8/20/2020 1:16 PM
11	Nope	8/20/2020 12:39 PM
12	There needs to be lots more horse riding trails every where	8/20/2020 12:00 PM
13	Only that I love them and would adore seeing them expand and improve! You guys are awesome!	8/20/2020 11:42 AM
14	Thank you	8/20/2020 10:55 AM
15	Thanks for this survey! Please contact the two Back Country Horsemen of Utah Chapters : Wasatch Front and Bridgerland to help volunteer with trail work and planning. This is what they do all over Utah! bchu.com A Hyde member of the Wasatch Front Chapter.	8/20/2020 9:52 AM
16	Please be mindful of equestrians! We are being pushed out of all other areas by bikers. We can all share the trails systems. Honeyville is very rocky, but creating trails somehow that are not rocky would be very much appreciated. Dimple Dell Park has applied wood chips to their main trail making it multi-user friendly. Even though North Fork is creating a bunch of new bike trails, they are very nice wide trails and root systems and rocks are removed.	8/20/2020 9:19 AM
17	Horseback riders need to be included. There needs to be a safe path to the arena for riders to use from all areas of Honeyville.	8/20/2020 12:45 AM
18	Thank you, ... On the Honeyville FB page people are concerned whether eminent domain is intended. That would be good to address sooner rather than later!	8/19/2020 5:56 PM
19	Thanks for asking our opinion!	8/19/2020 8:04 AM
20	fix and beautify what we have first around each park. Parks look terrible	8/18/2020 4:23 PM
21	I think more people would get out and bicycle if it was safer.	8/18/2020 3:03 PM
22	:)	8/18/2020 11:09 AM
23	More trails would be great	8/18/2020 8:31 AM
24	Nope	8/17/2020 10:39 PM
25	Need more.	8/17/2020 9:03 PM
26	Trails are only good if maintained. If the sidewalks are an indication of this no thanks. Sidewalks with goatheads, dog poop, horse crap, weeds over growing, its a joke.	8/17/2020 7:42 PM
27	It would be great if the sidewalk on the north end of town went all the way to Crystal Hot Springs.	8/17/2020 7:18 PM
28	nope	8/17/2020 6:49 PM

Honeyville Trail User Survey

29	This is fantastic!! More trails would be great. Thank you	8/17/2020 6:47 PM
30	I teach MTB personally and host a three hour free ride MTB class, every 3 weeks on Saturdays. MTB is very healthy for people. Here are some of the benefits of MTB: https://www.travelbughealth.com/bugs-blog/10-health-benefits-of-mountain-biking Over the last few decades, mountain biking has remained a popular outdoor recreational activity. According to the Outdoor Industry Foundation, nearly 40 million people mountain bike every year in the U.S. As public health concerns including obesity, heart disease, and diabetes are on the rise, physical exercise, especially in the outdoors, is becoming more critical to our health as individuals and as a society. Mountain biking is a fun and exciting way to enjoy the many health benefits of regular fitness and cardiovascular exercise including: 1) Improved Heart Health Regular exercise is known to improve cardiovascular fitness. The British Medical Association studied 10,000 people and showed that riding a bicycle for at least 20 miles a week lessened the risk of coronary heart disease by almost 50%. Mountain biking uses large muscle groups that require a lot of oxygen. This makes the heart work steadily, increasing your heart's fitness by 3-7%. 2) Less Stress on the Joints Mountain biking is a low impact sport, meaning it puts less stress on your joints than other aerobic activities such as running. Cycling is also considered a non-load bearing sport, which means that the act of sitting takes pressure off of your joints and reduces the risk of injuring them. 3) Decreased Risk of Diseases Regular moderate exercise is known to strengthen your immune system and keep you healthy. Researchers at the University of North Carolina found that people who cycle for 30 minutes, 5 days a week take half as many sick days off work compared to their sedentary counterparts! Another study published in the European Journal of Epidemiology reported that women who exercised regularly, including cycling to work, reduced their incidence of breast cancer. 4) Reduced Stress and Improved Mood The vigorous demands of mountain biking stimulate your body to release natural endorphins, which are the body's way of feeling good and getting more energy. Exercise also boosts serotonin, an important neurotransmitter in the brain which helps to prevent depression and anxiety. The focus and attention needed to ride a challenging single-track can become a form of moving meditation; ultimately helping to relax and weather life's stressors by acting as a distraction from negative thoughts that may contribute to anxiety and depression. Gaining new skills and improving your mountain biking abilities also helps to build confidence and self-esteem. 5) Increased Brain Power Researchers at Illinois University found that a 5% improvement in cardio-respiratory fitness from cycling led to an improvement of up to 15% on mental tests. This is in part due to building brain cells in the hippocampus – the region of the brain responsible for memory. "It boosts blood flow and oxygen to the brain, which fires and regenerates receptors, explaining how exercise helps ward off Alzheimer's," Professor Arthur Kramer said. Creative professionals and executives often use their sharpened brain function during exercise time to come up with ideas and solve problems. 6) Improved balance and coordination Unlike plodding on a treadmill or stair stepper, mountain biking is a dynamic activity that requires the rider to constantly adjust to varying terrain, pitch, and elevation. Staying steady and secure on a mountain bike not only keeps you from crashing, but strengthens neural pathways and reinforces muscle memory. Balance and coordination requires the combined resources of the brain, senses, muscles and nervous system. Keeping these systems active as we get older staves off disability from aging and reduces the risk of injury from falls. 7) Whole Body Workout It's no doubt you'll recognize the defined calf muscles of an avid cyclist, but you may not realize that mountain biking uses the muscles of your whole body. Of course, cycling builds strong legs, thighs and calves and helps you get that nice tight butt. The balance required to stay upright strengthens your abdominal and core muscles. Climbing and maneuvering turns also strengthens your upper body. And as an added bonus, mountain biking doesn't require an expensive gym membership or a personal trainer to get a good workout. 8) Sleep Better You may immediately feel tired and worn out after a ride, but it will ultimately lead to improved regenerative sleep when you need it at night. The exercise of riding decreases cortisol, a hormone that keeps us awake. Being an outdoor activity, mountain biking exposes you to daylight which helps to maintain the body's natural circadian sleep/wake cycle, not to mention raising your body's production of vitamin D. Make sure you avoid vigorous rides too late in the day, which can have the opposite effect of releasing stimulating endorphins that can keep you awake. 9) Social Benefits The newer field of happiness psychology has shown that healthy relationships and social interactions are key to being happy and finding meaning in life. Mountain biking is often a social activity shared by clubs and groups who get out to ride together. It provides a perfect opportunity to build personal bonds and make new friends with people who enjoy the same activities that you do. 10) Enjoy Nature What better way to experience the great outdoors than to eat some dust and get intimate with thorny bushes on the trail? Seriously though, mountain biking, more than any other activity, allows you to quickly get off the beaten path and enjoy the solitude and majesty of nature. Japanese researchers have shown that being out in nature (what they refer to as	8/16/2020 8:39 PM

Honeyville Trail User Survey

"forest bathing") improves relaxation and reduces stress. A busy urban environment has exactly the opposite effects of stimulating the fear and anxiety centers in the brain. Spend more time on your bike and you may also become more likely to be more green and friendly to the environment. So instead of turning on the football game and reaching for a beer, (in the immortal words of Freddy Mercury) "Get on your bikes and ride." There's no better way I can think of to improve your overall physical, mental, and emotional health.

31	I love the fact that you are thinking about it! Thank you!	8/16/2020 3:45 PM
32	Honeyville has great opportunity for trails. Look to the bench for opportunity to develop atv/hiking/biking trails. A bike lane on the highway would be optimal, since there is a sidewalk planned from one end of Honeyville to the other end. A walking trail along the canal would be simple, but maybe something for the future.	8/16/2020 12:38 PM
33	Honeyville homes a large right-of-way near the railroad tracks it would be a perfect flat straight ride for anyone	8/14/2020 2:29 PM
34	Cool idea! I farm but getting out and enjoying the rest of the city on trails would be fun	8/13/2020 8:38 PM
35	It's great the way it is, everybody wants to change things and then say how great it was in the old days!!!!!!	8/13/2020 8:27 PM
36	Access	8/13/2020 4:28 PM
37	No.	8/13/2020 12:13 AM
38	The high school mountain bike coach lives in Honeyville. We should utilize him and the team help with the trails	8/12/2020 7:05 PM
39	Thank you for caring about our wishes	8/12/2020 5:09 PM
40	Would love to see additional trails. This is a great spot to recreate and people are also always walking along roads causing danger to drivers and themselves. Nowhere to road bike or mtn bike	8/12/2020 12:19 PM
41	We have a lot of busy highways and walking is just fine on sidewalks in neighborhoods, but going for long runs or biking in general for exercise requires long stretch of roads. A small bike ride you need 10 miles of road for it to be worth it and we only have busy highways in Honeyville.	8/12/2020 10:42 AM
42	Fix up what we have and let's create some beautiful places to walk on that is appealing daily	8/11/2020 9:38 AM
43	Awesome idea!!!!	8/11/2020 7:58 AM
44	What about a trail from Honeyville to Brigham? Mountain bike trails down and up Coldwater canyon	8/10/2020 5:05 PM
45	I would like to see that public access to the mountain (Which is public forest service land) does not get blocked by private property, and somewhat regularly spaced public access points along the length of the mountains.	8/9/2020 1:01 AM
46	I would like to be involved	8/8/2020 12:38 PM
47	This would be a great initiative. Weber County has some money called RAMP that they use to do this sort of thing. It would be nice if Box Elder County did the same thing.	8/8/2020 10:57 AM
48	Maintenance criteria & a plan with associated cost review needs to be addressed. The trails in the foothills are so rocky they're practically unusable. We also need more trees and shade for our current trails.	8/8/2020 10:29 AM
49	Honeyville needs to stay small town. People that want to develop and build Mavericks should move to a big city.	8/7/2020 10:19 PM
50	I suggest looking into permaculture designs...maybe the University of Utah department of permaculture can help with the designs	8/7/2020 9:17 PM
51	You could have a trail that is multi-use. It doesn't need to be a specific trail for specific use. If done right, it accommodate alot of different people from different activity types.	8/7/2020 2:23 PM
52	Mountain biking trails would definitely get used! And there is nowhere flat and paved for kids to ride other than the church parking lot	8/7/2020 2:06 PM

Honeyville Trail User Survey

53	Don't raise taxes to build these trails!!!	8/7/2020 1:03 PM
54	Please make some trails for horses!	8/6/2020 8:17 PM
55	Please do not raise taxes to put these in. I would rather not have them	8/6/2020 11:43 AM
56	We are older, so our preferences are probably different than most	8/5/2020 10:37 PM
57	no future trails. Spend the money to get our parks back to a respectable status, like fixing the baseball diamond. When I was a kid, Honeyville had a great ball diamond. Hire a new public works employee and get rid of Troy. We need someone in public works who cares and who have the energy and physical abilities to make our city nice again instead of driving around in a city truck back and forth to restaurants. NO TRAILS! LETS FIX UP WHAT WE ALREADY HAVE!	8/5/2020 9:19 PM
58	I hope if we get them that they are taken better care of than our local sidewalks. Honeyville city spent a lot of money on our beautiful, safe sidewalks it's just to bad that they are not taking care of them. To many puncher weeds and tall weeds, in some places you can't even walk on the sidewalk.	8/5/2020 8:26 PM
59	Again, I am cased by a dog EVERY time I'm out on a current Honeyville trail and this has really pushed me to leave Honeyville to go to different trails.	8/5/2020 7:04 PM
60	keep trails clean and maintained our existing sidewalk are full of puncher weeds and built to close to existing fence lines.	8/5/2020 6:41 PM
61	I think it would be awesome to have these trails so we could take a baby in a stroller, but also not make Honeyville restricted to not allowe a quad or dirt bike ride down them to get to blm land. Or to the pond to be able to fish. We love honeyville and love the farm/small town community feel it has out here. I'd rather hear a dirt bike snowmobile or quad ride by every day than hear all the cars that do 70mph racing past my house.	8/5/2020 4:53 PM
62	With all the new people/housing in Honeyville I'm sure will inevitably happen - but oh NO taxes will go up.	8/5/2020 2:40 PM
63	The more trailers the better! How does one get involved with helping get more trails? I am happy to help apply for grants for funding or anything else to progress trail development in Honeyville Contact me at karliekola@gmail.com	8/5/2020 2:05 PM
64	no	8/5/2020 1:00 PM
65	ASAP, kids grow so fast.	8/5/2020 12:35 PM
66	It's great that this is being talked about, I hope we get some new trails.	8/5/2020 11:09 AM
