Malone Molgard

Malone explained the importance of getting the town ordinances updated. He stated with the mine coming in, now is a good time to get these adopted. He suggested maybe the town adopt them the way they are and then make changes if needed. He stated he doesn't think we should wait. He suggested maybe doing a public hearing for two months to get public comments before adopting.

He explained that if we don't have ordinances in place, it is hard to tell someone they can't do something if there is no ordinance to back it up. And with the Mine going in, Snowville will have a lot of people wanting to live here.

Malone recommended having the council go over the ordinances through November & December and then have public hearings in January and February and get them all adopted in March. The council decided to meet each Wednesday at 6 pm to go over the ordinances.

Eric could not be here tonight but Mayor Heyder said they are still fixing a few spots. They also need to get us the invoices for the tree trimming and the contaminated soil that they removed.

Mike also presented the Mutual Aid Agreement with Oneida County for the ambulance. Mike said he has read through it and feels good about it. Mayor Heyder stated he wasn't sure that he likes the part where we have to leave the patient if there is a fatality or deceased patient. Mike will clarify that with Oneida county before we sign it.
