

## Appeal

I am writing this appeal, because I was informed that my business licenses was denied because my home is under construction and not completed at this current time. My goal is to have it finished by December 31, 2013. Adam McMurray Transport is a Hot Shot transportation business. The only tool I use is my truck and the trailer I use is leased out of West Valley City. I am a 1099 owner operator, having no employees and no accounts of my own. The only business aspect I do on the property is park my truck. I keep track of my mileage in my truck and turn it into my employer once a week and my taxes are taken to a tax professional. I need my business license to be able to obtain my Tax ID number and for my employer's yearly DOT audits and to be able to correctly register my truck. If you could please consider my situation of trying to build a business and put together a home for my family in the beautiful city of Payson by accepting my appeal and issuing me my business licenses. I am the only income for my family and I am a honest, hard working, American trying to live the American Dream.

Thank you for your time.
