**CARES Funding-** Jason wondered about the CARES funding and if we were still moving forward with that. Other towns and cities have used the funds to help with EMS and generators and other things. Mayor Little reached out to the State and let them know via email that we will be using all the

funds. We will need to commit to a specific amount we will spend by November 30, 2020. Jason wondered about replacing the Fire Department computer used for training that has died. The computer the Fire Department is using for budgeting, etc. is getting old also and Jason wondered about replacing that as well. Mayor Little reported that the bids submitted last week also included increased internet for Fire Department and Town Hall use.
