New Business: Shannon wondered about when the Council can decide on the Playground Equipment for the new park. She would like to make a goal to get some playground equipment in the near future. Mayor Little will reach out to the Engineer that drew up the original plans for the new park and see if he can get the original general plan and make changes where necessary.

The older tractor that was parked behind Public Work Director Lee Atwood's house is in need of repairs. Mayor Little had someone look at it and it would cost approximately \$1200.00 to \$1300.00 to repair. The Council would like to move forward with getting the tractor fixed so it can be used. Two sets of bleachers have been moved out to the new park. There will be concrete "platforms" built for the bleachers to sit on. The water needs to be turned on to the arena and the restrooms. A meter needs to be placed at the restrooms at the new park and then the water will be ready to go. Jason wants water in the lines at the 9600 S. Subdivision before building takes place.

Shannon is considering taking a secretary position with the Irrigation Company. She was concerned there may be a conflict of interest if she did that. The Council does not think there will be a conflict. The Council feels it may be helpful with Communication between the Irrigation Company and the Council.

Mayor Little put together a newsletter with some added pictures and graphics. He asked the Council for input on articles and ideas.
