Subject: West Davis Corridor Resolution of Support

Dear Mr. Jefferies,

Congratulations on all the efforts made by UDOT in preparing the DRAFT Environmental Impact Statement (EIS) for the West Davis Corridor. Davis County Council of Governments appreciates your efforts and the Utah Department of Transportation's support for the work completed and the information gathered through the EIS Process and approved this Resolution of Support for you in your process.

The addition for the Legacy Parkway in the south part of the County has had a tremendous positive impact to the southern part of the County and this West Davis Corridor will have an equally positive impact to the northern part of the County. We encourage and share our support for regional growth and recognize an alternative north-south route to be vital and essential to accommodate future economic growth.

We encourage you work closely with all Cities and County as you program for additional access points along the corridor to help with emergency services and economic development opportunities.

We are supportive of your efforts in addressing the complex issues surrounding this corridor development.

Sincerely,

Erick Craythorne, Chair
Davis County Council of Governments, Inc.
