**IN THE MATTER OF A REQUEST FOR A SPECIAL EXCEPTION UNDER 19.88.140
MUNICIPAL SERVICE DISTRICT PLANNING COMMISSION**

DAN KNOPP

KNOPP'S INITIAL BRIEF

Dan Knopp ("Knopp"), through counsel, hereby submits the following initial brief.

1. In or about 1947 the Silver Fork Lodge & Restaurant ("Silver Fork") was built in the Silver Fork area of Big Cottonwood Canyon ("Silver Fork Area") and since 1947 has continuously conducted various business operations including, but not limited, to a restaurant, event/reception center, lodging facility, and a bar.
2. In or about 1993 Knopp purchased Silver Fork and currently owns and operates the Silver Fork and in 2019 the Silver Fork Area was incorporated as part of the Town of Brighton.
3. Silver Fork operates a restaurant and a reception/event business that includes indoor and outdoor wedding venues, indoor and outdoor events, and indoor and outdoor receptions.
4. Silver Fork's operations are conducted on parcel in two different zones. Most of Silver Fork's operations are conducted on parcels located in the C-V Commercial Zone ("C-V Zone") and a minor portion of Silver Fork's operations are conducted on a parcel located in the FR-0.5 Zone.

5. MSD (defined below) staff asserts that neither the C-V Zone nor the FR-0.5 Zone permits Silver Fork to operate a reception/event business that includes indoor and outdoor wedding venues, indoor and outdoor events, and indoor and outdoor receptions.
6. Specifically, Knopp uses the area zoned C-V Zone for indoor wedding venues, indoor events, and indoor receptions and the area zoned FR-0.5 for outdoor wedding venues, outdoor events, and outdoor receptions during the summer months (winter condition do not allow outdoor receptions/events given it location in the Town of Brighton in Big Cottonwood Canyon).
7. Knopp is requesting two Special Exceptions- one for the indoor/outdoor events conducted in the C-V Zone and the second for the outdoor events conducted in the FR-0.5 Zone.
8. Zoning and land use in the Town of Brighton is administrated by the Municipal Service District ("MSD") and Knopp is requesting the two Special Exceptions under applicable ordinances.
9. The applicable ordinance is Salt Lake County Ordnances Section 19.88.140 ("Section 19.88.140"). Section 19.88.140 provides in part as follows:
 - A. Whenever land or a structure is used in violation of this title, the owner may file an application with the planning commission to have the use declared legal through special exception. The planning commission may approve such an application only when the evidence establishes all of the following:
 1. The use exists on the property at the time of the application and has been in continuous violation of the zoning ordinance for a period exceeding ten years;
 2. No complaint has been made to the development services division concerning the violation for a period exceeding ten consecutive years during which the violation existed;
 3. Continuation of the use will not have a detrimental effect on the health, safety or welfare of persons or property in the vicinity.
10. Knopp satisfies the requirements of Section 19.88.140 A. 1. This provision requires that the use exists on the property at the time of the application and has been in continuous violation of the zoning ordinance for a period exceeding ten years. The requirement that

the use exists on the property at the time of the application is established by (i) evidence that the letter from the MSD ("MSD Letter") outlining the problem states that "MDS staff has received multiple complaints regarding the **current business operating** at the Silver Fork Lodge & Restaurant" (emphasis added), (ii) Knopp's testimony by means of an affidavit attached hereto as exhibit "1" that indoor and outdoor wedding venues, indoor and outdoor events, and indoor and outdoor receptions occurred regularly since 2002 and as recently as last week, and (iii) eleven (11) affiants ("Affiants") copies of which are attached hereto as exhibits "2" that live in the Silver Fork Area testifying that Knopp has operated and conducted indoor and outdoor wedding venues, indoor and outdoor events, and indoor and outdoor receptions beginning as early as 1999 or beginning as late as 2004. Any implication that the use did not "exist on the property at the time of the application" is contrary to the reason for this application and contrary to the specific assertions made in the MSD Letter. As a result, Knopp satisfies the "use exist on the property at the time of the application" requirement. The requirement that the use has been in continuous violation of the zoning ordinance for a period exceeding ten years is established by (i) Knopp's testimony that he has operated and conducted indoor and outdoor wedding venues, indoor and outdoor events, and indoor and outdoor receptions regularly beginning as early as 1993 and 2002 for outdoor events in the area known as the lower grass area (area zoned FR-0.5), (ii) Affiants testifying that Knopp has operated and conducted indoor and outdoor wedding venues, indoor and outdoor events, and indoor and outdoor wedding in the lower grass area beginning as early as 1999, and (iii) a sampling of contemporaneous business records made and maintained by Silver Fork at the time of the various events entitled Silver Fork Lodge Function Sheet ("Function Sheets") from 2005 to 2019. The Function Sheets are attached as an exhibit to Knopp affidavit and identify, among other things, functions dates, menus, number of people planning to attend an event since 2005 and a portion of the Function Sheets identify among other things functions dates, menus, number of people planning to attend outdoor receptions/events and outdoor weddings occurring as early as 2004 (highlighted for easy identification). The Function Sheets establish a consistent event use since 2005. In addition the later Function Sheets specify the locate of the outdoor wedding or receptions as the "lower lawn", "grass (lower)", "lower grass," or "lower grass (west end)". References to lower lawn, grass (lower), lower grass, or lower grass (west end) are to the area zoned FR-0.5. Finally, 2004 to 2020 exceeds the ten years requirement of Section 19.88.140. Based on the evidence set forth above Knopp clearly satisfies the requirements of Section 19.88.140 A. 1.

11. Knopp satisfies the requirements of Section 19.88.140 A. 2. This provision requires that no complaint has been made to the development services division concerning the violation for a period exceeding ten consecutive years during which the violation existed. During the relevant time period Salt Lake County and the MSD were the "development services division." Salt Lake County and the MSD has examined their records/files and investigated this requirement and has informed Knopp that no complaint has been made to the development services division concerning the violation for a period exceeding ten

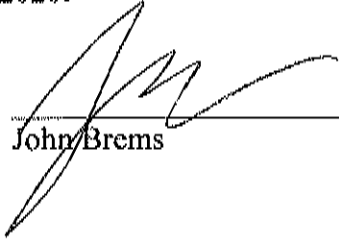

consecutive years during which the violation existed. Based on the evidence set forth above Knopp clearly satisfies the requirements of Section 19.88.140 A. 2.

12. Knopp satisfies the requirements of Section 19.88.140 A. 3. This provision requires that continuation of the use will not have a detrimental effect on the health, safety or welfare of persons or property in the vicinity. This requirement is satisfied by evidence of the Affiants testifying that the Silver Fork operation do not have a detrimental effect on the health, safety, or welfare of the affiant and as such does not have any negative impact on the peace and quiet, affiant enjoys. Furthermore, we understand that the principal complainant complains about operations of a food truck and complaints about indoor and outdoor wedding venues, indoor and outdoor events, and indoor and outdoor receptions is just an attempt to control/limit food truck operations.

13. The effect of allowing the Silver Fork use to continue and the detrimental effect on the health, safety or welfare of persons or property in the vicinity must also be examined and analyzed through the lens of allowed uses in the C-V Zone. Examining these allowed uses will help determine the meaning and scope of “detrimental effect” as used in Section 19.88.140 A.3. The CV-Zone allows various uses some of which are much more intensive and intrusive than Silver Fork operatins. The C-V Zone allows as a conditional use an “[a]utomobile service station, campground and travel trailer park.” Even though it is not defined in Salt Lake County Ordinances automobile services station would include matters such as above ground or underground storage tanks, canopies, lights, gas pumps, islands, and fuel trucks deliveries. It would also include the risk of accidental spills and potential contaminate of soil and water such as Big Cottonwood Creek (an important source of our drinking water) and toxic fumes from gasoline. The C-V Zone also allow as a conditional use a “[r]estaurant; drive-in refreshment stand.” Salt Lake County Ordinances 19.04.175 defines restaurant; drive-in refreshment stand as “a place of business where food and drink are sold primarily for consumption on the premises outside the structure.” This would include operations similar to a “Sonic” or “Hires” and the associated traffic, noise, auto lights, and pollution. Finally the C-V Zone allows as a condition use a “[b]ed and breakfast inn, **which may include a restaurant and conference meeting rooms** (emphasis added).” A conference meeting room contemplates a meeting of which two or more people come together for a purpose. The purpose could be a business meeting, wedding, or a birthday. Allowing Silver Fork use to continue its current use and operations is consistent with conference meeting room use, is much less intensive and instructive than an automobile services station or a restaurant; drive-in refreshment stand, and has less of a detrimental effect on the health, safety or welfare of persons or property in the vicinity than those allowed uses. Based on the evidence set forth above Knopp clearly satisfies the requirements of Section 19.88.140 A. 3.

14. Even though not a requirement of a Special Exception it is not equitably to limit Knopp's operations that have occurred beginning in 1947 by Knoop's predecessors and by him since 1993.
15. Knopp clearly satisfies the requirements of Section 19.88.140 and for the reason set forth above Knopp respectfully requests that both Special Exceptions be granted.

DATED this 25th day of November, 2020.
