COMMUNITY COMMENTS

Jana Nelson has two 14 year old sons that are hearing impaired and have breathing conditions that make it impossible to wear masks. She does not agree with forcing students to wear masks against their will in school. She has unenrolled her boys from their local school because she feels there were no options for them to attend school and be able to learn. Hearing impaired students need to be able to read lips. It is an important communication tool. Jana asked what is the long term plan for the school district and discontinuing the mask mandate. Jana said she will never accept the mask requirement and that the board of education should not either. Her sons will attend high school next fall and wants them to be able have a normal education.

Shannon Quan asked if elementary specialty teachers currently employed at Alpine School District are in danger of losing their jobs under the new guidelines. Some of the specialty teachers who do not have degrees receive effective teachers ratings and are evaluated yearly on the same criteria as regular classroom teachers. Why penalize and lose teachers that are invested in their schools and classrooms? Is there a way to provide a "grandfather" clause for currently employed teachers that do not have degrees and allow time for them to earn a degree so they do not lose their job? A potential addition to the guidelines could read - *1.1.5 Teachers currently employed and teaching on an LEA specific license will have until "a specific date" (December 2024?) to qualify under the eligibility criteria.* And, for specialty teachers without degrees who have to do student teaching in order to qualify, do they have to quit their jobs in order to do this? I would have to quit my job teaching computers (that I love) in order to do my student teaching starting in August 2021. Wouldn't it make more sense to encourage teachers already hired to KEEP their jobs, but take a leave of absence of some kind, without pay, to complete their student teaching and then go BACK to their jobs? It wouldn't cost schools more money - in fact it would cost schools less money to allow specialty teachers who need to do their 12 weeks of student teaching the ability to do so. Specialty teachers make more than long-term subs and student teachers aren't allowed to get paid. It would be a win-win for schools who want to keep their specialty teachers and for teachers who want a job to go back to when they are done student teaching.

Courtney Perrin said it is the school board that is responsible for blocking the opening of the walkway on Wild Hyacinth to Harvest Elementary. By doing so, students are being placed at an additional risk because they have to cross main streets such as Harvest Moon Drive twice, in addition to the roundabout, because there are no walkways on the neighborhood side of the street. There is no crossing guard present at either intersection and it is common that vehicles exceed 45 miles per hour going up and down the hill. It is only a matter of time, as the neighborhood population increases, that a child could be seriously injured or killed while crossing these streets. The most efficient way to reduce this risk would be to allow for the opening of the walkway that has been placed by Richmond Homes in order to allow students a safe access to the school. This would decrease the amount of risk that the children face while traveling to and from school, but would also decrease the distance in which they have to travel. She requested that the walkway on Wild Hyacinth to Harvest Elementary be opened.

Wayne Roberts welcomed the new school board members and thanked them for being willing to give back. He thanked them for being willing to dedicate their time and energy to the community and to our children.

DISCUSSION/ACTION ITEM

1. Jr. High Boundary in the Vineyard Area

Assistant Superintendent Rhonda Bromley said the survey regarding elementary boundaries in the Vineyard area has brought to light the need to look at the Orem Jr. and Lakeridge boundaries too. The law requires a 120 day notice for any boundary change to allow for community input. Rhonda requested the board approve beginning the 120 days to study the jr. high boundaries and seek public input. **Ada Wilson made the motion to begin the process of studying and seeking public input regarding the boundary change. COVID-19

Assistant Superintendent Rhonda Bromley presented an update about COVID-19 and how it has impacted our schools. From August to December, there were 4,321 positive cases (60% secondary students, 19% elementary students, 21% employees.) There were 19,148 students quarantined, sometimes multiple times.

PPE Supplies Purchased

- 180,000 cloth/reusable masks
- 245,600 disposable masks
- 11,640 KN95 masks
- 6,108 gallons of sanitizer
- 5,518 tubs of 180 count hard surface wipes
- 750 gallons of isopropyl alcohol
- In addition, we have distributed gloves, gowns, face shields, soap, paper towels, microfiber towels, etc.

Positive COVID cases are tracked every day and the dashboard on the district website is updated. During the first semester, six high schools had to move to a hybrid model for two weeks due to their positive numbers. Alpine School District helped to lead the way in changing the formula used by the state and health departments to decide when a secondary school should be moved to the hybrid schedule. Originally, 15 positive cases required the change, but now the process does not begin until the schools have 1% of their students testing positive. In the secondary schools, testing was mandated by the state for all extracurricular activities. On December 9th, 2,924 students were tested and 22 were positive. On January 6th, 2,702 students were tested with 21 positive cases. Vaccination clinics have been held for Alpine School District employees. To date, 4,993 employees have received the Moderna vaccine. There will be two additional clinics on January 30th and February 2nd.

The Social, Emotional, Well-Being (SEW) team led by Melissa Bostwick and Kim Jones has collaborated with school nurses to provide support to employees, parents and students. Everyone has worked together to balance student learning, academic progress, and the social, emotional well-being of students and teachers.

In the elementary schools, 3,824 elementary students were declared online in term one and currently, that number has decreased to 2,460. In the secondary schools, 7,956 students were declared as online in term 1 and that number has decreased to 5,053. Currently, in the 2020-21 school year, East Shore High has awarded 2,632.74 credits to 4,313 students.

Sam Rencher, Director of Curriculum K-6, shared the data for the Acadience assessment scores at the elementary level. The beginning of year (BOY) scores were lower this year because of the school shut down last spring. The middle of year (MOY) scores were lower than previous years due to a combination of many things related to the decreased teaching time, use of time, online teaching, etc. All agreed that teachers are doing an amazing job at taking the time to meet the SEW of students and creating a safe learning environment. Academics will improve as the conditions improve.

Brian Jolley, Director of Curriculum, said the pass rates in the secondary schools are lower than they have been traditionally. In 2019-20, the pass rate for first term was 97.6% and second term was 96.10%. In 2020-21, the pass rate for first term was 94.3% and second term was 92.6%. Some of the challenges facing students and teachers include:

- Losing the Wednesday face to face time
- Teachers are handling both in-class and online students
- Intervention flexible time was lost when the day was shortened
- Many secondary students have been quarantined and struggle with the lack of face to face learning
- Some students who have opted for online learning do not have the necessary support at home and are not as successful as if they were face to face.

Rhonda Bromley thanked the administrators, counselors and teachers for helping students stay on track and helping with interventions to get caught up. The current plan is to continue with the online Wednesdays for secondary schools. Our students are doing well despite the COVID challenges and compared to other districts in the state, ASD is doing as well as possible. The board members expressed gratitude to the teachers and administrators for all their efforts.

Board Governance

Kimberly Bird, Assistant to the Superintendent, led a discussion regarding the updated Board Governance policy. The board members are reading the *Governance Core* by Michael Fullan. Successful work of the board takes working together, and cohesive collaboration with the superintendent and staff.

ADJOURNMENT

The meeting adjourned at 5:23 P.M.

Everyone is working hard to address the challenges of this school year and to help teachers and students feel safe at school.

COMMUNITY COMMENTS

Dara Salmond commented about the impact moving schools has on the academic success and emotional well-being of students. She has a masters degree in social work and is the mother of nine children, some of which attend Valley View Elementary. She requested that the board do more research on how we can provide a successful experience for students and to reconsider closing Valley View.

Cyd LeMone has had three children who attended Valley View and she serves on the city council in Pleasant Grove. She spoke about the trend of existing homes being purchased by families with younger children who will attend Valley View. Cyd reported that there are more developments being built in the next six months which will bring more students to Grovecrest, which is already at capacity. With the future growth, boundaries will need to be changed to relieve Grovecrest and will place more students at Valley View, increasing the current enrollment.

Jennifer Lyman spoke about the capacity at the neighboring schools to Valley View. Not one school could take all of the students if Valley View were closed. This would require the student body to be split between Grovecrest and Central. She would like the students to remain at Valley View.

Nicole Cragun has two children who attend Valley View and two more who will in the future. One of her children is a non-verbal down syndrome student who attends the life skills class. In most situations they spend their days isolated from the student population. This doesn't happen at Valley View because of the lower enrollment. The other children are great to talk to her son and it always puts a great smile on his face. Sending the life skills students to a bigger school will create more of a chance they will be isolated, disrupt their lives and cost months of progress. She requested that the board consider some of the other options rather than splitting up the student body.

Mark Hughes said his children attend Valley View and the school is a half a mile from their home. He appreciates them having a neighborhood school. If students are moved to Central Elementary, it would require a mile and a half walk and would create safety concerns. If Valley View closes, he may consider driving his students to a charter school. Currently, many students are being bussed to Grovecrest and if the boundaries were readdressed, some of those students could attend Valley View.

Kim Hughes shared that her oldest child went to a small school in Long Island, New York. When they moved to Pleasant Grove, transitioning to Valley View was difficult so they made the change to a charter school. When they heard the school was getting a new principal, they went back to Valley View and loved the great things Mr. Miller did for the school. Kim said if the school is consolidated, her family will need to go another direction.

Jen Bott drew attention to the school boundaries of Lindon and Grovecrest elementary schools. They share a boundary with Valley View. The Apple Grove neighborhood is being bussed to Lindon which is at capacity and will see growth because of future development. Grovecrest is already using trailers and is at capacity. Annexing those students would increase the enrollment at Valley View. She requested that the board study enrollment and the future developments of Pleasant Grove and Lindon.

Online Comments

Cheryl Ruth asked questions about the vaccine availability for students and whether will they be required for school or activities. She asked about kindergarten & preschool ratios and the guidelines for the new curriculum. She was concerned about the mask requirement for cheerleaders compared to basketball players. Cheryl asked why students are not putting clean masks on every time they take one off. She has a medical exemption and should not be asked to put on a mask everytime she goes to her children's basketball games. She asked about testing and what is done with the sample after it is collected. She is concerned that the school nurse is calling to ask about her son's activities outside of school time and questions if it is legal. School nurses should not disclose the test result of another student. She feels her son was singled out and targeted by other parents when he was questioned about his free time activities.

Kelsey Shumway is an elementary teacher in the district. She said that the decision to discontinue consultation days for elementary teachers was based on the feedback received after a survey sent to principals, teachers and parents. Kelsey would like access to that data and to know how many teachers were asked. The decision directly affects her as a teacher and she was not asked her opinion, nor was any concrete evidence of the survey shown before the change was made. She would love to be part of decisions affecting her job as a teacher in the future.

Rebekah Kaylor thanked the school board for continuing the current secondary school schedule. It has helped both of her students, increased family time, as well as time for her students to meet individually with their instructors for additional tutoring, test corrections, group assignments, etc. The Wednesday at home has been a tremendous help in their staying current in their course work as well as provided a needed respite from the stress and anxieties of the global uncertainties. It has been nice to have a day to schedule physical and mental health appointments that doesn't require them to miss classes. Rebekah hopes that this schedule can continue beyond the current COVID crisis.
