

PARKS, TRAILS, AND RECREATION COMMITTEE MINUTES

Wednesday, October 7, 2020 at 7:00 PM, at 1020 East Pioneer Road, Draper, Utah 84020 in the City Council Room.

1. **Reading of Electronic Meeting Notice by Chair**
2. **Public Comments** – Dave Hoffman suggested more yielding signage and voiced concerns with trail damage caused by horses.
3. **Approval of 2-5-2020 Minutes** - Motion by Doug Ovard, seconded by Nate Crowther to approve the minutes. Motion passed unanimously.
4. **Sequoias Subdivision Concept Plan** – Brad Jensen reviewed proposed trail head concept in development. Committee voiced concerns with the vicinity of the trail head to the townhomes and want to ensure that the townhomes have sufficient parking so the trail head doesn't become the parking lot for the townhomes. It was suggested that the trailhead be moved away from the townhomes to better address this concern. Brad mentioned that the only real option of doing this would be placing the trailhead down below in the hollow, which had some issues due to the debris flow constraints, per their engineer.
5. **Trail User Conflict Discussion** – Greg Hilbig went through a presentation then open up discussion for committee input, which included:
 1. Users finding trails - Use of trail apps. Consider extending foot trails to trailheads, including one starting at Highland Dr. tunnel.
 2. Encourage use of bells on bikes. City handing some out to public. Consider doing a bell box at trailhead that bikers could borrow.
 3. Novice users - Do campaign with banners, use of social media, pamphlets on windshields, one on one social interaction with novices.
 4. Blind corners- do some minimal pruning but not too much that would increase speed; use of bells; pipe in tree; hiking/up trail bypass; choke points; campaign to encourage earbuds in just one ear.
 5. One way trails – Consider no downhill bikes on Canyon Hollow and consider separating users on Ghost Falls Trail.
 6. Alternate Days – has several issues and should only be used as last resort.
 7. Widening of trails- would only increase speed and not help with safety.
 8. Speeding- needs education; use of heavy use area signs; signs directing high speed biking to downhill trails.

9. UTV/motorized vehicles on trails – especially a problem on paved trails.
Continue use of restriction gates, enforcement, and one on one social interaction.
10. Utilize news outlets to get our message out to the public.

6. **Committee/Staff reports** – No reports

7. **Adjournment** - Motion by John Maack, seconded by Nate Crowther to adjourn the meeting. Motion passed unanimously.

Date 10-7-20
