Block Captain Information Packet introduction by Martin Palmer - Sheet

1: Block Captain Introduction
Sheet 2: Important for me to do (4 steps)

Ether Hollow Fire - September 7th 2020 lessons learned from Kyle Crandall - 2nd Counselor; Hobble Creek Stake; Sector 4:

Troy Fitzgerald got ahold of President Bird and the canyon was evacuated; Our stake hosted the Red Cross Evacuation Center, not as a shelter but a center for organizing; We had a good connection with the city; majority of people were prepared for this; google document went out asking who could host a family, if needed; 141 homes replied that they could provide shelter; Ham radios don't work in the canyon but the traditional phone lines remained intact; Everbridge notification went out but not everyone in the city received it, only those in a specific geographic radius were notified; All members encouraged to sign up on Everbridge; google "Springville-Mapleton alert" to sign up; The google drive spreadsheet will be used as a template to emergency managers; Will make available on a stake level; update the google sheet to include where people have left to; add pets;

- Kyle Crandall is creating an excel template containing the columns shared on the google doc and will email it to JoAnna and/or Rhiannon.

Winter Preparedness - Bryan Stinson of *Be Ready Utah*; dem.utah.gov;

Make a Plan; Get a kit; Be informed; Get involved; Go to Bereadyutah.gov/family preparedness series

Disaster Supply Kit Checklist
