

Determination to Hold Meeting Without an Anchor Location

Public Body:

Uniform Building Code Commission Plumbing/Health Advisory Committee

Chair Name:

Nathan Lunstad

Nathan Lunstad (Mar 4, 2021 17:59 MST)

Public Meeting date or date range:

March 4, 2021

The public meeting(s) scheduled for the date(s) above will be conducted electronically and without an anchor location. I have determined meeting with an anchor location presents a substantial risk to the health and safety of those who may be present at the anchor location.

This determination was based on the following facts/information:

The public monitoring and participation requirements in Utah Code Title 52, Ch. 4, Open and Public Meetings Act, would gather the participants and interested persons in this public meeting in a single, confined location, where the risks of further transmission of COVID-19 are far greater. At the time that this meeting is being scheduled, Salt Lake County is currently in the "High Level of Transmission" phase, according to the Utah COVID-19 Transmission Index. This designation requires masks be worn, recommends physical distancing and limiting gatherings to ten people or fewer. In addition, the Heber M Wells Building remains closed to the general public as a precaution to prevent the spread of COVID-19.

REVIEW OF CHAPTERS 1-5 OF 2021 IPC AND CURRENT AMENDMENTS

Those present started the review of the 2021 IPC along with the current amendments to the 2018 IPC. Each chapter and amendment was reviewed and recommendations made.

No recommendations or changes were made for Chapter 1. A motion was made by Don Simons to adopt Chapter 1 of the 2021 IPC. The motion was seconded by Linda Ebert and passed unanimously.

A motion was made by Nathan Lunstad to delete current amendment (1) for the definition of "Back-flow Backpressure, Low Head". The motion was seconded by Jeremy Haslam and passed unanimously.

A motion was made by Jeremy Haslam to modify current amendment (2) for the definition of "Certified Backflow Preventer Assembly Tester" by changing it to read "Utah Certified Backflow Assembly Tester" and to add the words "and Utah Administrative Code R309-305" at the end. The motion was seconded by Don Simons and passed unanimously.

A motion was made by Jeremy Haslam to delete current amendment (3) for the definition of "Contamination (High Hazard)". The motion was seconded by Don Simons and passed unanimously.

A motion was made by Linda Ebert to keep current amendment (4) for the definition of "Cross Connection". The motion was seconded by Jeremy Haslam and passed unanimously.

The recommendation was tabled for the current amendment (5) for the definition of "Deep Seal Trap". Jeremy Haslam will do some research and report at the March meeting.

A motion was made by Linda Ebert to modify current amendment (6) for the definition of "Essentially Nontoxic Transfer Fluid" by deleting the words "having a Gosselin rating of 1" and keeping the current amendment (7) "Essentially Toxic Transfer Fluid". The motion was seconded by Jeremy Haslam and passed unanimously.

A motion was made by Nathan Lunstad to delete the current amendment (8) for the definition of "High Hazard" and the current amendment (9) for the definition of "Low Hazard". The motion was seconded by Don Simons and passed unanimously.

A motion was made by Nathan Lunstad to keep the current amendment (10) for the definition of "Motor Vehicle Waste Disposal Well". The motion was seconded by Linda Ebert and passed unanimously.

conded by Linda Ebert and passed unanimously.

A motion was made by Nathan Lunstad to keep current amendment (12) for the definition for "Portable Water". The motion was seconded by Jeremy Haslam and passed unanimously.

A motion was made by Nelson Hooton to adopt Chapter 2 as modified by the Utah amendments with the exception of the current amendment for (5) "Deep Seal Trap". The motion was seconded by Don Simons and passed unanimously.

A motion was made by Linda Ebert to add a new amendment for Section 312.10.2 Testing. The new amendment would delete and replace the wording to read, "312.10.2 Testing. Reduced pressure principle, double check, pressure vacuum breaker, reduced pressure detector fire protection, double check detector fire protection, and spill-resistant vacuum breaker backflow preventer assemblies shall be tested at the time of installation, immediately after repairs or relocation and at least annually. The Utah Cross Connection Control Commission has adopted the field test procedures published by the Manual of Cross-Connection Control, Tenth Edition. This manual is published by the University of Southern California's Foundation for Cross-Connection Control and Hydraulic Research. Test gauges shall comply with ASSE 1064." The motion was seconded by Don Simons and passed unanimously.

A motion was made by Don Simons to keep the current amendment to Section 303.4. The motion was seconded by Jeremy Haslam and passed unanimously.

A motion was made by Jeremy Haslam to table the decision for the current amendment for Section 311.1 until the next meeting. The motion was seconded by Linda Ebert and passed unanimously. Don Simon and Nelson Hooton will report on this at the next meeting.

A motion was made by Linda Ebert to keep the current amendment to Section 312.3. The motion

was seconded by Don Simons and passed unanimously.

A motion was made by Don Simons to keep the current amendment to Section 312.5. The motion was seconded by Nelson Hooton and passed unanimously.
