EMS Board

Meeting Minutes

February, 16 2021

4:00 P.M.

In Attendance: Stoney Jensen, Mandy Bennett, Scott Ryan, Christine Manning, Clinton Olsen and Seth Gardner (phone), Commissioner Wilson

1) **Discuss/Approve/Deny January 2021 Meeting Minutes.**
   Mandy made a motion to approve the minutes as presented. Seth seconded the motion. Motion passed.

2) **Discussion – Dispatch/Sheriff's Office**
   No one in attendance from ECSO

3) **Discussion – Discuss/Approve/Deny - Employee Handbook**
   Tabled until next meeting

4) **Discussion – Green River**
   Employee drug testing. Sign paperwork with Mary. Move this down.

5) **Discussion – February/ March Training**
   Dr. Travis Engar to go over medications as a training - Jared e-mail him Striker will be here for February training. State training/ National training. Instructor licenses (teach classes) have to be an instructor, to be a trainer.

6) **Discussion – EMT Competency Testing (January Training)**
   Overall it went really well. Seth, got really good feedback from all his garage. Seth was planning on 20 people and they got 35 people. He has ideas on how to organize things better. Huntington garage, said it went really well. Impressed with level of participation,

and that most of them used the real arm, only a couple used the fake arm.

7) **Discuss/Approve/Deny – CPR Manikins**
   $800.00 per 4 manikins - the ones we have are junk, worthless. Needing 12 manikins to run it well, at a minimum. For training and classes. Maximum of 17 for our EMS class - CPR class in October. Can we promote if we buy the manikins, can we teach the classes? $6 - 12 dollars per person per class. If EMTs teach the class, we can charge $15 dollars per person. Who would collect the money? Instructor would collect the money. American Heart takes a portion of the money. How often, and when to start? Next month's agenda. Mandy Bennett, motioned the purchase of the Manikins, Chris Manning, seconded the motion. VOTE- Unanimous

8) **Discussion - Clinton's Items**
   Went over Clinton Olsen's spreadsheet status for response time, and on-call pay/wages. Green River - fill those shifts first. Training list, doing random drug tests. How to do random drug tests? Choose 5 and test those who do come, can't get everyone to come. Mick was asking about how to lift larger people. They all use different methods. Zoll Monitor Maintenance - is working, no more problems.

9) **Discussion – Budget**
   Billed for 100.000.00 good month. Nothing outstanding, looking good.

10) **Board member concerns**
    Mandy Bennett - everything is going good, no real concerns. They are meeting in person.
    Seth Gardner - People interested in the Green River, concerned with people who need to renew this year.
    Chris Manning - no concern
    Stoney Jensen reminder for your people, about COVID that they need to contact the ER Dr first before transport. Psychiatric patients are not to be transported to hospital unless ER Doc has been contacted about COVID and decided to be transported to hospital.
    Commissioner Wilson- encouraged us, that we can make this system work. Older EMT's want to return and work. He also went forward with Hs secretary, Jan Olsen. The goal is to help Clinton lift his load, do clerical stuff, delivery of medication and supplies.
    Talked with other commissioners, money to alicate 100k to go to EMS. Approved the minikins, 3,000.00. Grant to pay for things, 50k. Let's talk to Brenda about the use of SSD funds for the manikins. Invoice to pay that. Auditor sent us an invoice for a whole year out. My goal is to have EMS up and going by March 15th through GR City Council.

11) **Adjourn.**
