## Area Cleanup

The dates for Magna's Area Cleanup are June 28<sup>th</sup> through July 13<sup>th</sup>. During this time residents can have a reserved container placed in their driveway.

This follows last year's process, and is necessary due to continued staffing challenges to operate the program.

Postcards will still be delivered to each resident with more direction and the specific dates each area is allotted. Residents are asked to share a container with neighbors since there are not enough containers for every household to reserve one for themselves.

---

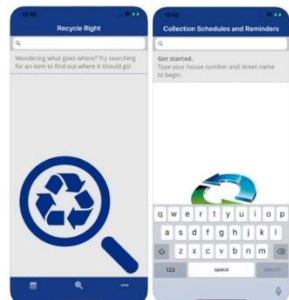

## No Green Waste in Blue Recycle Can

Please remember that grass clippings and other organic and yard waste NEVER go in the blue recycle can. If these materials get collected, it will contaminate the entire recycle load in the collection truck. If you have a lot of yard waste, consider a Green Waste can or a home composting program. More information about our Green Waste Program can be found at <https://wasatchfrontwaste.org/green-waste-collection>.

## Mobile Application for WFWRD Customers

WFWRD has launched a free mobile app for its residents. It can be found by searching for "Wasatch Front Waste" on the Apple or Android app stores, and it is available in both English and Spanish. The app includes a "Recycle Right" lookup tool to find out if a material can be reused, recycled, composted, or landfilled. It also provides a scheduling tool for residents to confirm their collection day, and it provides an option for customized reminders for pick-up days.
