Information needed from Newton regarding rezone/subdivision for Griffins

To newtontown@comcast.net

Hi Carla,

The parcel in question is 13-029-0002. The Griffins are proposing a 6 lot subdivision and a rezone to a higher density which may allow another 6 lots. As part of the County application process, if a property is contiguous to a municipality, we ask the applicant to provide a letter from the municipality. The exact language is as follows. We also like to know, in the case of rezones, if the municipality is supportive of the rezone especially if the property is located within their annexation area.

☒ *If the property is contiguous to a municipality, located within an unincorporated island or peninsula, or receiving or proposed to receive services from a municipality, provide a letter from the municipality(ies) in regards to annexation of property and also provide documentation of the results of any pre-application conference with municipality officials.*

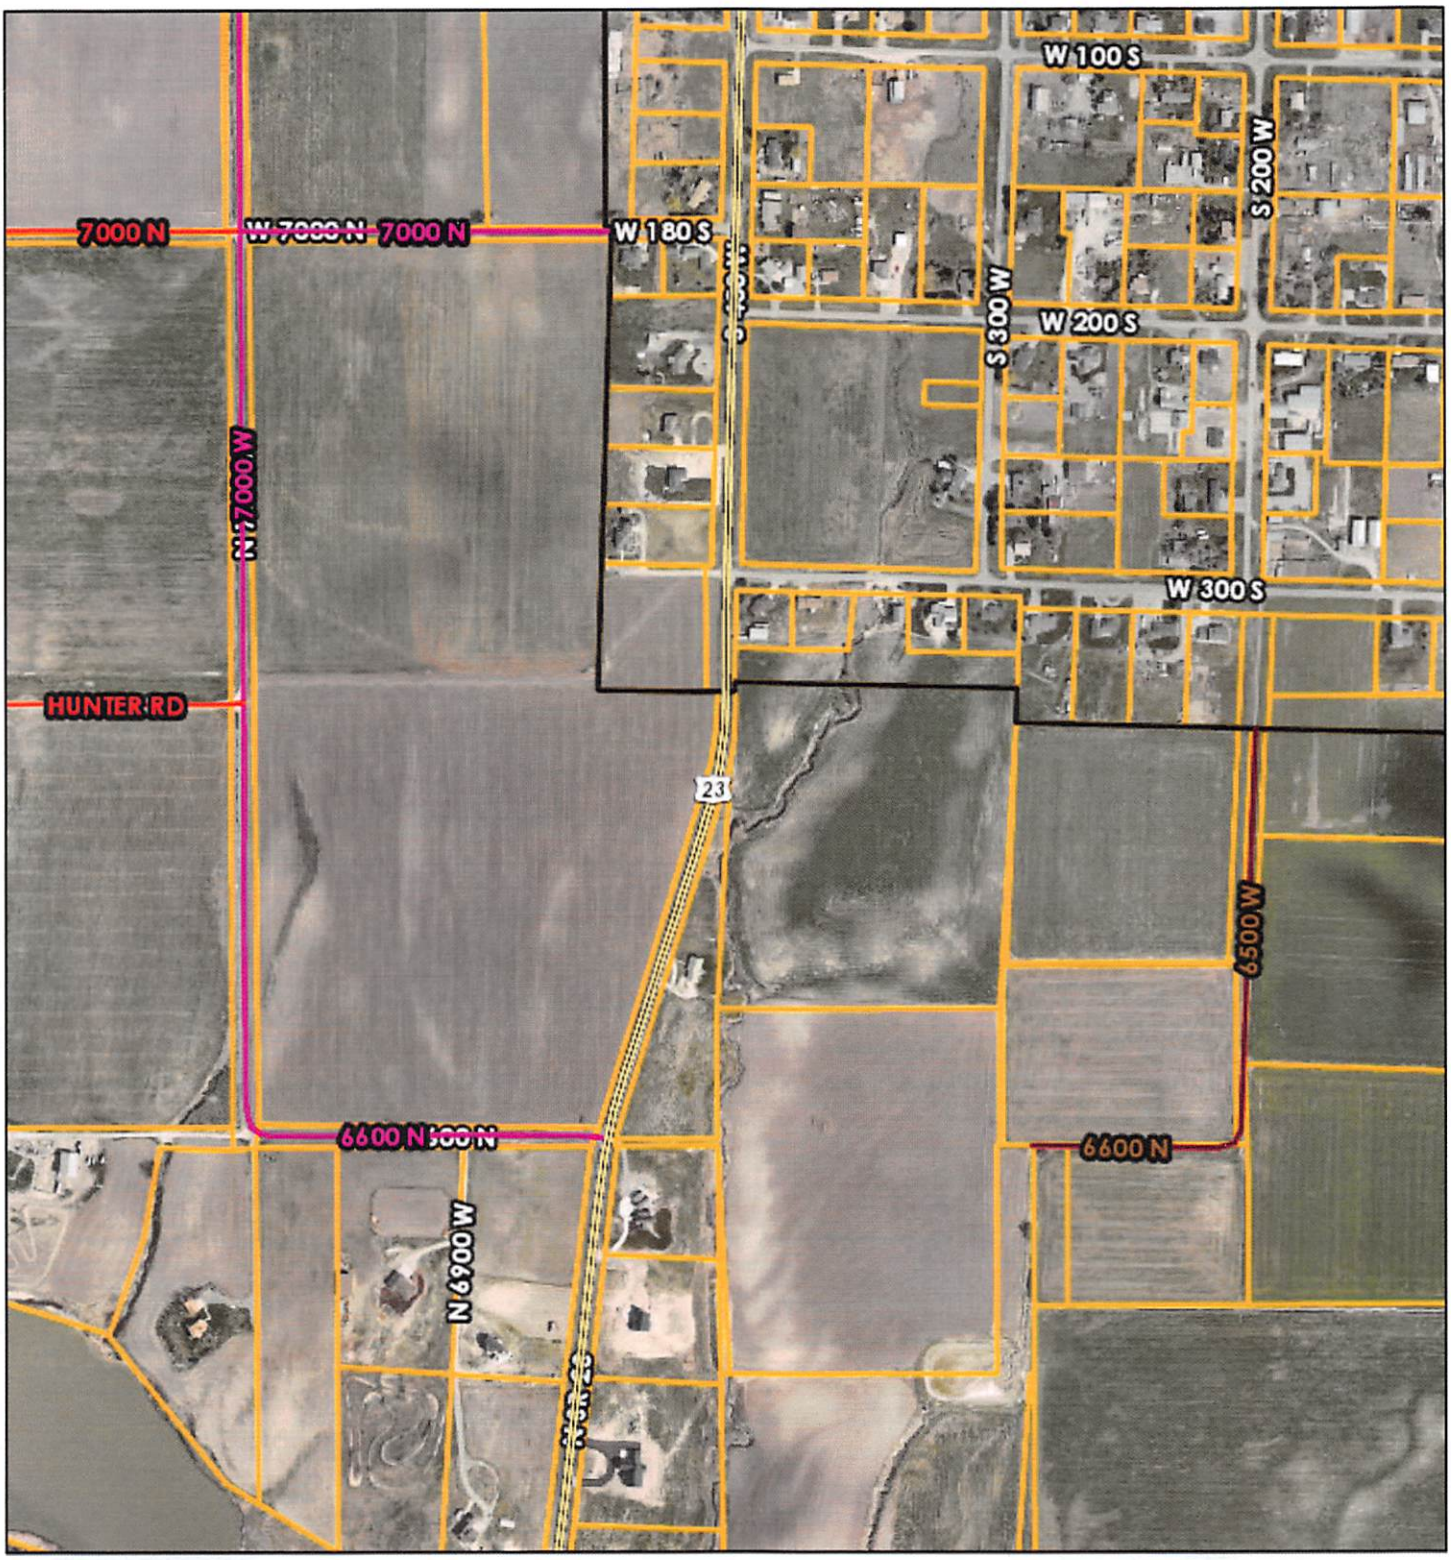

Hope that clarifies things. Let me know if you have any other questions.

Thank you,
