

PETITION TO STOP CONSTRUCTION OF WATER FOUNTAIN

The following residence of Moroni City, petition the city council to stop all construction on the water fountain West of the city building. Since our town is in the second most arid state in the nation, along with continuing drought conditions year after year, we feel we cannot afford to use these resources on such a feature. Please consider public input to find a more reasonable use for the remaining funds and way to repurpose the unfinished concrete construction.

PETITION TO BAN LEAKY FAUCETS AND TO STOP THE CONSTRUCTION OF WATER TOWER

The following residents of Miami City petition the city council to stop all construction on water tower at park behind city building. Since our town is in the second most arid state in the nation, along with continuing drought conditions year over year, we cannot afford to waste these resources on such a **fastless** feature. Please find a more reasonable use for the remaining funds and way to repurpose the unfinished concrete construction.
