

Dear Residents,

*Mayor Reed & will go home to
all residence*

The celebration is coming up and we have had to make a significant change to the event that we feel we should inform you about. The fire chief brought to our attention that with the trees at the city park having grown so tall and with the amount of people that view fireworks from the park each year we are not able to meet fire code for that event. So to better serve the community we will be moving that to a new location and will be launching fireworks from the field at Mona Elementary. The park will be open for viewing but residents will not be allowed to watch on the grass at the elementary school.

We are limited in options for locations in town but feel confident that this is a good change. Residents are encouraged to be mindful of their animals during any celebration that involves fireworks and I know you will be. If you have horses across from the school and are concerned they will not react well to the noise, you are welcome to contact me and I will try to find a location on the sides of town to place them for the night.

Sincerely,

Amy Stanley

Mona City Council
