- a. Danni Scharf who is the representative from the production crew who are filming California King Started by explaining their schedule for Friday the July 30th. They will start at Lincoln beach campground and around 4pm they would like to move to Genola to film from 4-9 on the road near warm springs. They are wanting to have an electric ATV to use to film characters driving bird scooters. Where there are very few people and only five homes on the road. Because of the limited amount of people affected they would like to have a full closure of the road. She went around yesterday and spoke to some of the neighbors and found that currently there are only three of the five homes occupied. They don't feel like this should impact to many other residents. This closure would not affect the residents ability to come in or out of their homes. She confirmed that there will be personnel at each barricade to allow any residents that need to use the road through, if they don't live on the road they will want them to use the detour. Mayor Larson stated that he spoke with Chief Hurst and he felt like because the closure was within 150 feet of Utah Department of Transportation (UDOT) intersection and that UDOT owned portions of this road that they would need to have UDOT's approval as well. He asked if they had UDOT's permission? She responded that they had not made contact with UDOT yet.
