RULE REVIEW-UTAH ADMIN CODE R156-60B

Refer to audio for specifics. (Audio 1)(00:04:15 – 1:02:00)

The Board reviewed the draft Rules for Utah Admin. Code R156-60b, as provided.

Questions, comments, and concerns were discussed.

Dr. Munk stated for R156-60b-302a (2) (g), he wanted to know if an update needed to be made to indicate the following:

(g) a clinical practicum under supervision which includes at least 400 hours as follows:

(i) at least 100 hours of direct supervision; and

(ii) at least 300 direct contact hours of direct supervised clinical practice, that at least 150 hours shall be with couples or families.

Ms. Falkenrath stated that information can be updated.

Mr. Barlow stated the change from 500 to 300 direct contact hours of direct clinical practice was a surprise. Mr. Barlow asked if the universities were making the change to this requirement.

Dr. Fawcett stated the COAMFTE accredited programs are reducing the hours required for their standards and the changes will be officially published and go into effect in January of 2022.

Dr. Fawcett stated a majority of the states require at least 300 hours and there are very few states that still require 500 hours. Dr. Fawcett stated there isn't any research that shows programs that require 500 hours produce better clinicians than those that only require 300 hours.

Dr. Fawcett stated if Utah chooses to maintain the requirement of 500 hours, the COAMFTE programs would be required to meet that requirement. However, those states that only require 300 hours would still be able to license by endorsement having only completed 300 hours.

Mr. Barlow stated he understood and was okay with changes if it was the standard.

Dr. Alonzo stated he was in agreement with the change in the education requirements if Utah was aligning with the national standard and COAMFTE requirements.

Dr. Munk stated the change in language that indicates direct supervision and allows technology based supervision while removing the requirement for direct face to face is a positive change.

Mr. Barlow stated with regards to the supervised hour training requirements, he would like to keep the current requirement of 4,000 hours of supervised marriage and family therapy training, including 1,000 hours of supervised training in mental health therapy,

with at least 100 hours under direct supervision and at least 500 hours in couple or family therapy. Mr. Barlow stated he was not sure if there had been a discussion to adjust the 4000 hours to 3000 hours.

Ms. Falkenrath stated the hour requirement is identified in statute and would require a legislative change to make ammendments. Ms. Falkenrath stated she was not aware if the hours would be reduced or is being looked at for an area of research as part of the Executive Order.

Mr. Barlow stated he had received feedback from some of the MFT conferences he has attended that was an area they were interested in seeing adjusted.

Dr. Alonzo stated he would like to see the rules align the hours based on what individuals are actually doing versus the ambiguity with the area of “other hours”. Dr. Alonzo stated he would like to see “the hours” more defined if they are going to continue to count towards the requirement.

Mr. Barlow stated there are still a lot of therapists that are unaware that CE’s are now required for AMFT’s. Mr. Barlow stated this was additional feedback he has received from the conferences he has been attending.

Ms. Falkenrath stated Utah Code R156-60, does state any person licensed under this title is required to complete CE’s. This includes ACMHC’s, AMFT’s and CSW’s. Ms. Falkenrath stated the only difference is that ACMHC’s and AMFT’s do not renew their licenses and therefore do not attest that they are meeting CE requirements, but they are still required to complete CE’s.

The Board discussed the 10:1 ratio.

Mr. Barlow stated it is his understanding the MFT profession is the only one to have this specific ration requirement.

Ms. Falkenrath stated that is correct. The other mental health professions require a minimum of 100 direct supervision hours spread throughout the training.

Dr. Fawcett stated it’s her understanding this was a Utah state specific concept and the 10:1 ratio is not connected to accreditation or school standards. Dr. Fawcett stated in previous accreditation standards it was a 5:1 ratio at one time.

Ms. Falkenrath stated the ratio is identified in Rule and is area the Board could look at amending, changing, or removing.

Mr. Barlow stated he personally likes the requirement and has not has any issues with his supervisees, however, wants to make sure our standards are level with other states and not create a burden.

Additional questions, comments, and concerns were discussed with the proposed language changes.

Ms. Falkenrath stated she would review and make the changes as recommended by the Board and can provide for the Board to review in the afternoon session. Ms. Falkenrath discussed the process regarding making Rule changes.

(Audio) 2 1:40 – 2:13:00

The Board reviewed the updated changes proposed during the morning session.

Questions and comments were discussed.

**Mr. Barlow made a motion to accept the current proposed changes to the Rule

Mr. Christianson met with the Board to discuss concerns with the 10:1 ratio for direct Supervision as defined in Rule. Mr. Christianson asked for clarification of the requirement based on his understanding and also expressed his concerns with the requirement stating he found it problematic since other mental health professions do not have as stringent of a requirement for direct supervision.

Mr. Christianson stated due to he and his supervisors misunderstanding of the requirement he was concerned he received fewer hours than what should have been provided.

The Board provided clarification to the requirement stating for every 10 hours of client contact, one hour of supervision needs to be provided. The Board indicated countable hours need to be provided by a qualified supervisor.

The Board stated moving forward Mr. Christiansen will need to make sure he is accruing the hours appropriately and by a qualified supervisor in order to be considered practicing appropriately and ethically.
