RE: Consideration for change in funding allocation

To: Washington County School Board

From: Chris Barrett, Panorama Elementary, Principal

Dear Washington County School Board members,

Our TSSA funding is underallocated \$4,575.41. In an effort to utilize these funds to reach all of our students, I am proposing that these funds be used in a new category to purchase Math and Science supplies for all grade levels. This may include leveled math manipulatives, science materials, intervention materials and activities.

Please consider this request as all of us at Panorama work to reach all students to help all achieve at high levels.

Thank you,

Chris Barrett, Principal
