Section I: Request

The UVU Department of Behavioral Science requests a program modification and a retitling of the current Certificate of Proficiency in Licensed Substance Counseling. The title will be Certificate of Proficiency in Advanced Substance Use Disorder Counseling. This involves the addition of one new course, slight modifications to two other existing courses, and the addition of a second certificate. Students can exit the program after two semesters to fulfill educational requirements for a Certificate of Proficiency in Substance Use Disorder Counseling. If they complete all three semesters they will fulfill the educational requirements for a Certificate of Proficiency in Advanced Substance Use Disorder Counseling. UVU requests this change be effective Fall 2014.

Section II: Need

This request is in response to new Utah statutes governing licensure in Substance Use Disorder Counseling. This request also allows UVU's program to be consistent with the program at the University of Utah.

Section III: Institutional Impact

This modification should have no effect on instructional programs of affiliated departments or programs. UVU is running the current LSAC program with a cohort of 30 students per year, and we plan to maintain that cap. There will be no changes in administrative structure. The only change in faculty will be the need to staff one additional course per academic year. No new physical facilities or modification to existing facilities will be required.

Section IV: Finances

The costs anticipated from this change are those associated with teaching an additional course each academic year. UVU is in the process of moving the program to an off-budget status and will be able to support the additional cost with tuition and fees from the program.

Section V: Program Curriculum

Students pursuing the (Advanced) SUDC license will complete the following courses:
