

"Improve Student Achievement"
Ensuring High Levels of Learning for EVERY Student.

Washington County School Board:

Focus Area 1: Student Learning

Our PEERS goal for the 2021-2022 school year will focus on having 75% of students at Coral Cliffs Elementary will make typical or above typical progress in reading. With the additional carryover funds from the previous school year, we would request an adjustment for our current plan to include teachers' stipends (\$3500) for extra duties. We also ask for an adjustment to purchase additional technology devices and books (\$3414.50) to supplement classroom instruction. Thank you for your time and consideration!

Sincerely,

Steve Eves

Principal - Coral Cliffs Professional Development School
