Livestock Gates for the Cemetery

Matt Franks who could build gates for the cemetery at a cost of \$2,995 per gate. We can purchase a good heavy-duty gate at IFA for \$250 each and then paint them white. We will need four gates which would allow two for each opening so the total cost will be \$1,000 plus about

\$400 for white paint. Council Member Craig Clark will look at the posts on the East and West end to see if they also need to be replaced which could add an additional \$500 to the cost.

Council Member Courtney Syme motioned to approve the purchase of four livestock gates from IFA at a cost of \$250 each for the cemetery. **Motion was seconded by Council Member George Kenzy. All were in favor.**

Cattle Guard Purchase for the Cemetery

There are three bids for the cattle guard. The first one is the concrete one from Grantsville for \$2,500 for three sections and it is UDOT approved. We will need to do the installation but it does come with two footings so it shouldn't be too hard to install. We will need to add gravel costs for that installation. We also have a bid from Matt Franks for a steel heavy duty cattle guard, UDOT approved, at a cost of \$4,895 installed. The last bid was from Mountain Country for \$1,895 but it is not UDOT approved and not very heavy. **Council Member Anderson motioned** to approve the purchase of the cement cattleguard from the Grantsville company with enough segments to cross entrance. **Motion was seconded by Council Member George Kenzy. All were in favor. Craig Clark**

A motion was made by Council Member Craig Clark to adjourn the Council Meeting. **Council member Courtney Syme seconded the motion. All were in favor.**
