DETAILED REASON AND EXPLANATION FOR REQUEST:

This is a mandatory document required by the EPA for the Water Department and it needs to be approved by the City Council to submit before the end of December 2021. It took quite awhile to get it put together and this is the second document that the EPA required and the first one was a Risk and Resiliency document that was submitted in June of 2021 and this continues on from it.

DUE DATE:

This agenda request and any supporting documentation is due to the city recorder by the Wednesday one week prior to the council meeting. This allows final preparation of the agenda and time for the city attorney to review.
