What is your motivation for service on the committee?

I have lived in Payson City for 50 years, was previously employed by Payson City Police Department and still work in Payson City. I truly beleive that the Forbay project is one of the greatest projects I have seen Payson Leadership stand behind and support, so I would love the opportunity to be on this committe.

How does your background, training, and experience lend itself to service on the committee?

I have been involved with the Forbay area for quite some time as I was the first to bring to the City well over twenty years ago the idea of a Mountain Bike race in the Forbay area. I completed the waiver that Mr. Tuckett who was the city attorney at the time approved and I ran the first Mountain Bike race in Forbay well before any of the current trails existed, after which Carey Pierce took the area on as a project and has created a "masterpiece" for future generations.

Please list any relevant areas of expertise, education, or training you possess that will be helpful for service.

I have seen and been involved with the forbay project from day one, helped on many trail building sessions, participated in the friends of Forbay meetings, been a regular area user along with my family and friends.
