RE: Consideration for change in funding allocation

To: Washington County School Board
From: Chris Barrett, Panorama Elementary, Principal

Dear Washington County School Board members,

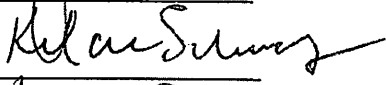

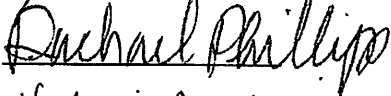

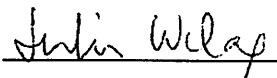

Our State Trust Lands fund has become underallocated due to one of our category priorities becoming unexecutable. Our Community Council had allotted \$9,885.80 to fund a SEE student. In coordination with Dixie State University, we were unable to secure the student. In an effort to utilize these funds to reach all of our students, I am proposing that these funds be utilized in our alternate category of Technology, specifically computer hardware and software.

Please consider this request as all of us at Panorama work to reach all students to help all achieve at high levels.

Thank you,

Chris Barrett, Principal
