- X. Other Discussion**
- XI. Closed Session: Board Member Participation Review**
- XII. Adjournment**

# 1300 East

2100 South to 3300 South

Connect to Your Community

## Project Overview

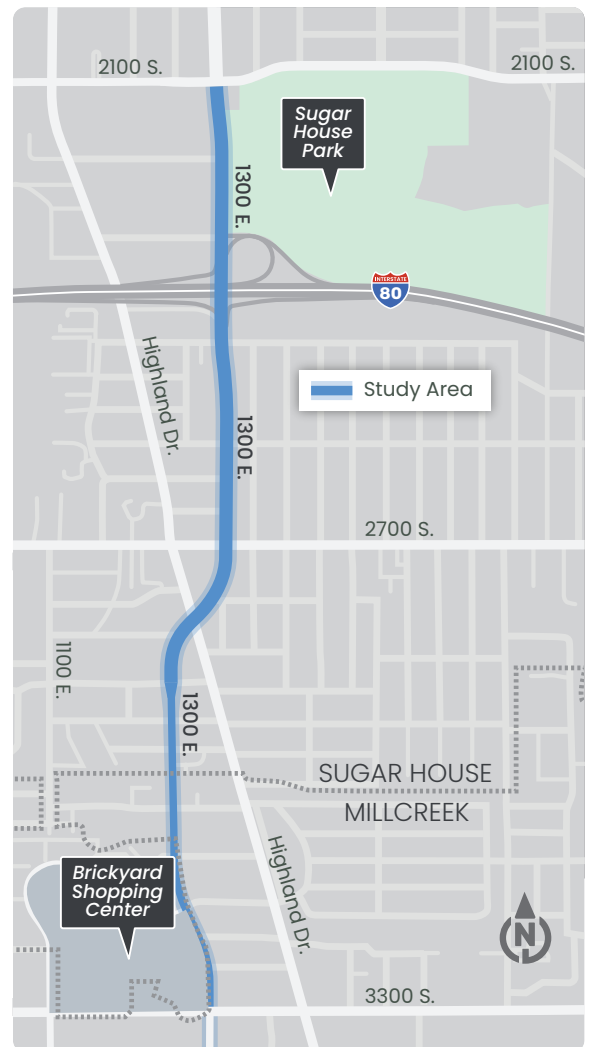

Salt Lake City is continuing its efforts to improve roads and multi-modal transportation in Sugar House and the surrounding area. As part of this effort, the city is launching an environmental and concept design study to evaluate options and select a new design for 1300 East between 2100 South and 3300 South. This study is building upon previous transportation efforts in the area, including Local Link (link to website), and will incorporate existing recommendations for the road into the final design.

This study will identify gaps in the existing transportation network and challenges faced by those traveling between Sugar House Business District and Millcreek and will identify improvements for vehicle, pedestrian and bike mobility and safety.

## We want to hear from YOU!

Visit [1300eastslc.com](https://1300eastslc.com) to take the transportation survey and tell us what improvements you want to see!
