To: Derek Michaelis <derek@recyclops.com>

CC: Interlaken Clerk <InterlakenClerk@gmail.com>, Interlaken Mayor <interlaken.mayor@gmail.com>

Thanks Derek. Will do. For now, everyone will need to continue doing curbside glass pick up.

On Sun, Jan 2, 2022 at 3:53 PM Derek Michaelis <derek@recyclops.com> wrote:

Please proceed with proposal to your council. We discussed and will proceed. Sorry for the last minute wrinkle I threw you. We believe many of our customers will continue to prefer the convenience of curbside. We'd also appreciate if the city would publish that our curbside service would remain available encourage residents to consider it.

On Sun, Jan 2, 2022 at 3:36 PM Justin Hibbard <justinrhubbard@gmail.com> wrote:

Sorry Derek, I was mistaken. We have 144 homes in Interlaken.

On Sun, Jan 2, 2022 at 11:50 AM Justin Hibbard <justinrhubbard@gmail.com> wrote:

Hi Derek,

This is a frustrating and disappointing. I brought this up to the Council for approval after you gave me pricing. I'm going to look like a fool tomorrow at our meeting reading your email. I'm a sales professional. I don't give pricing unless I can honor it. The other frustrating part is that we have about 85 homes in Interlaken (fyi - not Interlauken), and only 17 use your service. That means that the others are throwing their recyclables into the dumpsters. The reason we contacted you is because our dumpsters are getting filled with things that should go into a recycling bin. If everyone paid for their own recycling, this wouldn't be an issue. Some of our residents are sadly never going to recycle unless it's convenient for them. This is why the town wanted to do centralized recycling - I know we're a small town but it's such a sad sight to see plastics and cardboard go into the landfill. I hope you'll reconsider.

Justin,

I'll be frank that the sales team brought to my attention that we currently have 17 residential curbside customers in Interlauken and as you can imagine from a business perspective, doing a central drop off likely cannibalizes our own customers. So, we are just thinking through that.

Hi Derek,

We had our town council meeting (I've cc'd the Town Council), and we would like to try contracting with recyclops for a central recycling place at our town dumpster site. We want to just do the general recycling dumpster at this time and hold off on glass (we're afraid given our previous dumpster incidents that there might end up being a lot of broken glass in that area). Though, it may be something we phase in down the road.

A few followup questions...

1. When is the soonest we could get started? It would be great if we could do this before the holidays if at all possible.
2. We also need to ensure that the dumpster doesn't block our winter plowing equipment. Is there a time we can meet to take a look at the site and figure out exactly where the dumpster would go?
3. Is this a contractual basis or a month to month contract? We have our concerns with how well the town will follow recycling rules, so we want to treat this as a several month pilot to get started.
4. What color is the dumpster? It would be great if it was an obvious different color, but we would still add plenty of signage.
5. Could the people in the town just continue contracting with you for glass (I think it's \$10/mo) per home?

Thanks for your ongoing correspondence. We look forward to hearing from you.

Justin

Subject: Recycle Bin at DPW site

Date: Monday, January 3, 2022 at 2:09:02 PM Mountain Standard Time

From: Steve Wilson <wilsonslc@gmail.com>

To: Greg Harrigan <interlaken.mayor@gmail.com>

CC: Interlaken Clerk <InterlakenClerk@gmail.com>

I ran into Bart at the Dumpsters today.

For the record, Lara and I are 100% in favor of a Recycle dumpster/bin at the DPW site here in Interlaken.

Thanks,

Steve and Lara Wilson

12/9/21 Presentation – Anthony Magliocchino, Jennings Genho

Verkada Security Systems

<https://www.verkada.com/>

Their techs will be onsite, at the pumphouse, January 6th, 10am, installing our free 30-day trial equipment – 2 outdoor cameras and 1 indoor camera.

Enterprise oriented system for complete building and site security and surveillance. They want to be the operating system for buildings. They have supported communities in the past in grant writing for their systems.

Surveillance

Plug N Play system, cameras with built-in motion detectors

Motion Capture Clips – video clips are archived based on a quadrant of the entire clip, so you can detect motion in a specific area of the field of view, and send a notification.

License plate recognition, optical zoom

Facial recognition, ability to search footage based on a profile – gender, shirt color, activity in a quadrant, etc

Unlimited Cloud Storage

Accurate timestamp which holds up in court

Solar powered unit could be installed at the water tank

Alarm system and 24-hr monitoring is available

Live footage can be shared with the community

Access Control

Key card reader, Bluetooth control, or numeric keypad

Able to open the door remotely after verifying visually

Door can be locked or unlocked based on a schedule, or access can be granted for an individual

Environmental Sensors

Humidity

Temperature

Motion Detection

Noise Level

Tampering – eg entry door

Water pooling – may be possible

May be possible to integrate an emergency notification system – siren

Hi All-

Here's some information about a security/surveillance company "Verkada" that I met with last month. They provide enterprise level security systems for companies and municipalities. These guys are the real deal, providing all elements of security for businesses, towns, etc.

They will be here this Thursday (10am) installing 3 cameras for a free 30 day trial. I think they will be quite expensive for us, but they could provide tools for every aspect of surveillance, access control, and environmental sensors. We could, for example, install license plate detection, remote cameras at our water tank, control access remotely to the pumphouse, monitor leaks and temperature variations in the pumphouse. The real advantage of their monitoring system is that you can search through footage very easily, looking for specific frames or portions of a frame (a quadrant).

On Thursday, besides installing the trial equipment, they will be assessing our needs in order to prepare a bid. I'm hoping anyone interested can attend with me. If not, then tonight would be a good opportunity to discuss our needs. This is certainly a grant-worthy expense, so I feel if we are going forward with this, we should aim high and get all our needs/concerns addressed.

Anyways, I've attached a summary of their presentation, and they would be happy to repeat it for anyone interested. We'll talk more about it tonight.

Thanks,
Bart Smith

Verkada Security System – Interlaken Town

Outdoor Motion Sensitive Cameras

- Dumpster site – license plate capture, facing west
- Dumpster site – wide angle facing east
- Pumphouse door entry – for remote entry recognition
- Generator view
- Water Tank – Wasatch Mtn State Park (solar powered?)

Indoor Pumphouse Camera – 1 or 2 necessary to cover full interior view with motion sensors

Access Control at Pumphouse Entry Door

Environmental Sensors

Humidity

Temperature

Motion Detection

Noise Level

Tampering – eg entry door

Water pooling – may be possible

Power Outage

May be possible to integrate an emergency notification system – siren

RE: NOTICE TO THE PROVO RIVER DISTRIBUTION SYSTEM WATER USERS

In compliance with Section 73-5-1 Utah Code Annotated, 1953 as amended and R655-15-12 of the Administrative Rules for Distribution Systems and Water Commissioners, a meeting of the water users with representatives of the State Engineer will be held to prepare for the coming water distribution season.

This year's meeting will be held at CUP ADMIN BLDG, 1426 E 750 N #400, OREM UT on Tuesday, February 18, 2022 at 1:30:00 PM.

The meeting agenda will include the following items:

1. Hearing the 2021 Meeting Minutes
2. Hearing the 2021 Commissioner's Report
3. Reviewing any concerns or comments related to the commissioner's work for 2021
4. Report from the Division of Water Rights
5. Hearing the 2021 Financial Report
6. Reviewing delinquent assessment accounts
7. Preparing a budget of salaries and other necessary expenses
8. Setting the distribution system assessment
9. Selecting new distribution system chairman and committee members if necessary
10. Other business

Sincerely,

S. Ross Hansen, P.E., L.S.
Assistant State Engineer

Subject: Re: Council Meeting Agenda - 1/3/22, Monday, 6:30pm
Date: Monday, January 3, 2022 at 10:37:55 AM Mountain Standard Time
From: Interlaken Planning Commission <interlakenplanningcommission@gmail.com>
To: Bart Smith <InterlakenClerk@gmail.com>

Planning Commission updates:

Lot 172 / 355 Bern Way - Ekstrom Project:

PC recommended that all Deposits be returned. Project closed.

Lot 65 315 Jung Frau Hill - John Barton:

The new homeowner, Veronia Parkinson, has requested a change to the current building permit. She would like to enclose the 2nd story of the carport addition and make it an climate controlled playroom. Once new drawings have been submitted , reviewed by TO Engineers, and any additional fees paid, the PC will review and make their recommendation to the TC.

Lot 111 / 257 Matterhorn Circle - Kevin Parsons:

Final inspection complete. PC has recommended retaining \$1500 of their deposit until Spring. At that time it will be determined if areas of concern in regards to runoff mitigation and reseeding disturbed areas is adequate.

Lot 47 / 262 Interlaken Drive - Mike Harrell:

Slow but continued work on the project.
