Section 6.15 Assured Housing

### c) Land Use Study Scenarios - to be presented at Joint workshop Feb 15th

- 4:56pm
- Exercise: how to interpret instructions and work through it:  
3 Scenarios exercise
  - Short discussion ensued on how to approach the exercise
  - This is not a wishful situation it is based on existing barriers natural and manmade , entitlements, infrastructure, resources

## Public Hearings/Action Items

### 4. John Corkery Rezone request from RG to GB for historic commercial property in Thompson Springs

Elissa Martin Presented - see staff report for full details

Applicant Commented - see staff report for full applicant statement

Public Hearing Opened at 5:18pm

Comments heard - None

Public Hearing closed at 5:19pm

### Discussion by Commissioners

- The ERU's listed in the Thompson letter verifies what the property already has right to
- No expansion of the OAO units would be permitted at this time without an additional application and approval

Motion by Commissioner Evers to send favorable recommendation to County Commission for the rezone proposal for property located at 75 W. Old Highway 6 &50, Thompson Springs, Utah

Seconded by Commissioner Barkley

### Justification of Motion:

Commissioner Evers - the current zoning appears to be the irregularity and not the request. The applicant understands that they cannot exceed existing water rights.

Commissioner Barkley - The business is currently operating within parameters - strange zoning currently in the area- exciting mixed use planning proposed with this application in an effort to grow the community

Additional Discussion:

Commissioner O'Brien - Will the Land Use survey be done by summer and are we acting prematurely and affecting that? It still seems to be the right location

All in Favor - 6

Opposed - 0

Absent - 1

5. Tin Roof Cabin Resort OAO - Campground/RV rezone request for parcel No. 04-0025-0059  
(La Sal Mountain Area)

Elissa Martin Presented - see staff report for full details

Applicant Commented - see staff report for full applicant statement

Public Hearing Opened at 5:43pm

Comments heard :

Jim Richard - (via email) Oppose

Sam Van Wetter - (via email) Oppose

Public Hearing closed at 5:45pm

Motion by Commissioner York to send a favorable recommendation to County Commission to approve the Overnight Accommodations Overlay RV/Campground rezone and associated Master Plan 04-0025-0059 located in the La Sal Mountain Area.

Seconded by Commissioner Mancuso: in favor of discussion

Justification of Motion:

Commissioner York

The property's geographic location is far from Spanish Valley, Less water is required for this type of development

Ratio of SFD to overnight not applicable here

Little impact to the County and located on a large parcel with resources and utilities

Commissioner Mancuso

Seconding Rick York comments

Like that the applicant is a generational local applicant developing the property privately  
Concerns: additional volume of traffic on the local roads.

Fire stove and safety issues with that

WOEY considerations -

Discussion by Commissioners

- Trisha Hedin - appreciate a local developer just looking to provide for his family  
This will be seasonal

Guests will likely be coming from Colorado and will have little impact on the Spanish Valley area.

- Commissioner Mancuso - concerns related to additional volume of traffic.
- Commissioner Cambpell - potential optional amendments regarding road maintenance updated desired by the applicant would be the financial burden of the applicant; and could we add amendment to update property to the most current standards of the Wildland Urban Interface Code (WUI) standards
- John Guenther - the WUI requirement likely would not be possible but the road updates could be considered as part of a servicing agreement.
- Elissa Martin - At site plan application, the "Defensible Space" section of the Land Use code would be required to be met.
- Commissioner Campbell - Assured Housing being looked at for Campgrounds - Consider waiting to approve projects such as this until LUC updates are made to the LUC before sending favorable recommendations - lack of historic focus at this part of the County
- Steve Evers - in Development agreement - is there anything to assure that applicant had to provide employee housing, Elissa - at this time the code exempts assured housing for campgrounds

All In Favor - 2

All Opposed - 3

Absent - 1

Abstain - 1

Commissioner Campbell motions an Alternative motion to send unfavorable recommendation to approve the Overnight Overlay RV/Campground rezone and associated master plan for Grand County Parcel 04-0025-0059 located in the La Sal Mountain area without prejudice with the recommendation that the county evaluate specifically this area in our General Planning and Land Use Code updates process before considering similar applications in this area.

Seconded by Commissioner Barkley

Additional Comment

Commissioner Evers - This is difficult because we should favor development in the private sphere. We should not pass up good projects because they don't propose perfection. This project only has 1.5 employees. Are we holding up projects waiting for the LUC to be perfected?

Commissioner Barkley - there is a lot of private property there - approving this project would set a precedent - we are on the brink of a new general plan. Should we be approving projects in advance of that?

Commissioner Campbell - Rights of individuals to develop their land - yes we should consider similar projects once the County has the chance to look at projects like this

more holistically. Upzoning needs to follow the direction that the County wants to go long term. The County may want to evaluate if we want to update the LUC code to apply more stringent requirements in our forested areas.

All In Favor - 4

All Opposed - 2

Abstain - 0

## 6. Future Considerations

### a) Status of HDHO expansion

Letter forwarded by PC passed on to County commissioners but stalled due to unresolved litigation of HDHO we cannot look at the expansion at this time.

Staff has created a snapshot of existing HDHOs

Options to be vetted by County Attorney that have been created by staff (Elissa)

### b) Land Use Public Open House moved to March 3rd, Sun Court from 4pm-6pm

5 tables: Land use, Infrastructure, Housing, Economic Development (Master Plan), Transportation and Master Plan (Plans & Gaps). Star Hall as backup for weather

### c) Economic Development Master Plan

We are connecting with August and Ben this week to start collaborating on developing the Econ Dev Master Plan. They have funding for the Master Plan to hire a consultant.

Citizens to be Heard - public comment for items not listed as a Public Hearing - None

Adjournment 6:27pm - Motioned by Commissioner O'Brien .

Seconded by Commissioner Evers

**POSSIBLE MOTION:**

I move to:

Send a favorable/unfavorable recommendation to County Commission for the proposal to rezone property located at 15 W. Old Highway 6 & 50 in Thompson Springs on Grand County parcel No. 07-0021-0073 to the General Business (GB) zoning district, based on one or more of following items of consideration:

- a) Was the existing zone for the property adopted in error?
- b) Has there been a change of character in the area (e.g., installation of public facilities, other zone changes, new growth trends, deterioration, development transitions, etc.)?
- c) Is there a need for the proposed use(s) within the area or community?
- d) Will there be benefits derived by the community or area by granting the proposed rezoning?
- e) Is the proposal in conformance with the policies, intents and requirements of Grand County General Plan, specifically the plan's zoning map amendment guidelines (see pages 44-48 of the Grand County General Plan)?
- f) Should the development be annexed to a city?
- g) Is the proposed density and intensity of use permitted in the proposed zoning district?
- h) Is the site suitable for rezoning based on a consideration of environmental and scenic quality impacts?
- i) Are the proposed uses compatible with the surrounding area or uses; will there be adverse impacts; and/or can any adverse impacts be adequately mitigated?
- j) Are adequate public facilities and services available to serve development for the type and scope suggested by the proposed zone? If utilities are not available, could they be reasonably extended? Is the applicant willing to pay for the extension of public facilities and services necessary to serve the proposed development?

k) Does the proposed change constitute “spot zoning”?

**STAFF RECOMMENDATION: NEUTRAL**

**BACKGROUND**

The property is currently zoned Range & Grazing with and historically was the location of a café and four small dwellings.

  - g. Application (Available Upon Request)

#### SUMMARY OF REQUEST

The Applicants seeks to rezone the property from Range & Grazing to General Business in order to accommodate the refurbishing of existing structures on the lot into mixed commercial uses. Approval of a rezone request does not constitute approval for development. For commercial

development, a property owner must submit a Site Plan Application and meet the standards and requirements set forth in Section 9.16 Site Plan Review and Article 6 Development Standards including a will serve from the local service district for water.

## **PROPERTY HISTORY**

The property consists of 5 existing structures on a 1.83 acre parcel of land that fronts on Highway 94 and Old Highway 6 & 50. The structures on the property consisted historically of a café on the corner and several dwelling units and accessory structures.

## **SITE IMPROVEMENTS / ADDITIONS / CHANGES**

The rezone request requires no current site plan improvements.

Later site improvements in connection to proposed additions of various mixed commercial uses on the property and updates to existing structures will be in accordance with requirements of Article 3 (Use Regulations), Article 5 (Lot Design Standards), Article 6 (General Development Standards), and Article 9 (Administration and Procedures) of the Grand County Land Use Code as well as Grand County Construction Standards and the International Building Code.

### **I. Project Description**

The application is for a General Rezone request to change the current Range & Grazing (RG) zoning on a 1.83-acre parcel located on 15 W. Old Highway 6 & 50 in Thompson Springs, to General Business (GB), which would allow for an array of mixed commercial uses at the property. The future proposed land uses include the refurbishing of the existing structures into a café space with outdoor entertainment area, a mixed retail space, large storage building and potentially a chapel.

### **II. Consistency with 2012 General Plan**

#### **A. Per Section 4.4 of the 2012 General Plan, the subject property is located within the Range, Resource and Recreation area of the Future Land Use Plan Designations Map**

The Future Land Use designation of Range, Resource and Recreation encourages development that is consistent with residential densities that range from one dwelling per five acres up to one dwelling per three acres with a 50% open-space set-aside or fee-in-lieu and 25% affordable housing units or fee-in-lieu. In addition to residential uses this designation includes recreation/resort development, agriculture and development/extraction of natural resources.

1. While not proposing future residential uses, the rezone request to General Business is consistent with the intent of the Range, Resource and Recreation future land use in that the future proposed uses at the subject property are intended to give a variety of commercial uses that would accommodate tourists and local residents in a commercial setting including entertainment, food and retail.

B. The subject parcel is also located within the Rural Center Future Land Use Plan Designation Map

The Future Land Use designation of Rural Center is intended to vary in size from 5 to 30 acres in total and promotes uses such as neighborhood scale retail, small businesses, local commercial, local tourism, on site renewable energy, and residential neighborhoods. Residential density of up to 3.2 units per acre is permitted if it includes (a) 50% open spaces set aside or fee-in-lieu, (b) 25% affordable housing units or fee in lieu, (c) multi-modal options, (pedestrian/bicycle, at a minimum), and (d) no more than  $\frac{1}{2}$  of total dwelling units are multi-family.

1. The mixed uses that the property owner is proposing would be consistent with the Future Land Use Map designation for the area by providing a variety of commercial uses that promote tourism, small business and local commercial.

### **III. Future Intentions for Thompson Springs**

- A. It should also be noted that the Thompson Springs area in general is anticipated to be evaluated for a broad rezone based on the outcome of the Land Use Analysis that is scheduled to be completed by the June/July time period. It is anticipated that the city center of Thompson Springs will likely be rezoned to Commercial in order to create a commercial hub for the community. Such commercial development would be on hold until the realization of additional water sources.

### **IV. Water Resources**

- A. While not a requirement of a rezone application, the Planning and Zoning department is requesting a water analysis for property owners applying for rezones in Thompson Springs due to the current moratorium on new water connections with the Thompson Special Service District (TSSD).
  1. The submitted analysis, completed by TSSD demonstrates that there is not currently a water account connected to this property and that the TSSD cannot supply water for future development until the state of water resources for the Thompson area changes.
    - a. While development cannot occur on the subject property at this time, the TSSD recommended that the County favorably consider this rezone application as, there are efforts currently underway to address the water deficit such that the TSSD will be able to provide water connections at a future date. (see attached TSSD Will Serve letter)

### **V. Conformance with Grand County Land Use Code (LUC)**

A. The Proposed rezone is in conformance with LUC Article 9, Administration and Procedure and article 9.2.2 - Application for Zoning Map or Text Amendment. in the following ways:

1. A complete application was submitted by the property owner's representative in accordance with provisions of the Grand County Land Use Code Article 9.2.2.
2. The application was reviewed by the zoning administrator and deemed a complete application on January 28, 2022, per article 9.2.2

B. 9.2.5 Issues for Consideration (A-K)

In making its determination, the Planning Commission and the County Commission shall consider staff reports, written and oral testimony presented, and the following criteria:

*A. Was the existing zone for the property adopted in error?*

It may have been the case that the Range and Grazing zone was designated in error, as the historic principal use on the property was commercial.

*B. Has there been a change of character in the area (e.g., installation of public facilities, other zone changes, new growth trends, deterioration, development transitions, etc.)?*

The Thompson Springs area is undergoing many changes as of late, including a replat of the entire town to improve street design and the general layout of lots. A land use analysis is slated for the summer of 2022 to evaluate zoning for the entire town. Historically, Thompson experienced a boom and a bust, and is now on the upswing of that, showing signs of being a viable commercial and residential node (of course within limitations of water availability) outside of the Moab valley and just off a major Interstate freeway.

*C. Is there a need for the proposed use(s) within the area or community?*

As this is a very subjective question, staff will remain neutral in regard to the need for the proposed use.

*D. Will there be benefits derived by the community or area by granting the proposed rezoning?*

The community may gain the benefits of revitalization, as the rezone may encourage renovation of rundown structures, and general cleanup of the area. The rezone will also provide local retail services, a restaurant/cafe and a venue for gathering and outdoor entertainment.

*E. Is the proposal in conformance with the policies, intents and requirements of Grand County General Plan, specifically the plan's zoning map amendment guidelines (see pages 44-48 of the Grand County General Plan)?*

(see above section on consistency with the General Plan)F.

*F. Should the development be annexed to a city?*

No, the subject property is not within the City's future annexation boundary.

*G. Is the proposed density and intensity of use permitted in the proposed zoning district?*

The proposed uses of mixed-use commercial, would be permitted in the proposed zoning district of General Business.

*H. Is the site suitable for rezoning based on a consideration of environmental and scenic quality impacts?*

The site is suitable for the rezoning to GB as it is located in the historic commercial district of Thompson Springs, and was historically used for commercial purposes. With a rezoning of the property, once water resources are available the property owner will have the ability to improve the scenic quality of the area.

*I. Are the proposed uses compatible with the surrounding area or uses; will there be adverse impacts; and/or can any adverse impacts be adequately mitigated?*

The proposed uses are compatible with surrounding properties, being in the historic commercial center of Thompson Springs. Adverse impacts may include an increase in visitor traffic and increase in water demand. Currently the TSSD regulates development in relation to water demand. (statement included below)

*J. Are adequate public facilities and services available to serve development for the type and scope suggested by the proposed zone? If utilities are not available, could they be reasonably extended? Is the applicant willing to pay for the extension of public facilities and services necessary to serve the proposed development?*

Rocky Mountain Power and Dominion Energy serve parcels in the Thompson Springs area.

Water resources are provided by Thompson Special Service District and they have provided the following comment:

“Despite the TSSD not being able to sell water shares to ABC Thompson LLC or anyone else at this time, the Board does believe that the property in question is in a great location for General Business zoning and believes that the County should allow the rezone to move forward.”

*K. Does the proposed change constitute “spot zoning”?*

The subject parcel is surrounded by Range and Grazing, but also adjacent to Light Industrial and across the street from Highway Commercial.

B. The Public Notice requirements were met for this Public Hearing in accordance with Utah State Code § 17-27a-205.

1. The property owner placed two (2) posters on the property provided by the Planning and Zoning Department in a prominent and visible location on the subject property within five feet of the property line a minimum of 10 days before the Public Hearing. One poster was placed along each street/road frontage.

2. The Planning & Zoning Department placed public notices in accordance with Utah State Code 17-27a-205 on the County website a minimum of 10 days before this hearing.
3. The Planning & Zoning Department placed public notices related to this Public Hearing according to Utah State Code 17-27a-205 on the Utah Public Notice website a minimum of 10 days before this hearing.

- Application Statement. A statement by the Applicant explaining the rationale for the rezon request relative to the issues for consideration (please see items # 1-10 below) imposed by Sec 9.2.7 (Grand County LUC). In making its determination, the County Council shall consider the recommendation of the Planning Commission, staff reports, and the written and oral testimony presented, and the following criteria:

### Sec. 9.2.7 Issue for Consideration:

- ✓ 1. Was the existing zone for the property adopted in error? I understand it was changed in the mid to late 1980's as a tax relief for Thompson Springs residents because I-70 was being completed and Hwy 6 & 50 was not the main road from Green River, to Grand Junction. Thompson Springs no longer had the traffic nor business it once had since I-70 was completed.
- ✓ 2. Has there been a change of character in the area (e.g. installation of public facilities, A public rest area was created at the only 4-way stop (located across from the Cafe' that is requesting a zone change) It has been graveled, with an open air shelter that have picnic tables under it, 2-public trash cans, and a map, showing attraction areas in Thompson and Sego Canyon. other zone changes, new growth trends, deterioration, development transitions, etc.)? Yes, on the south end of the Cafe' property across the street, The Ballard RV Camp Park has increased their size because of increased business. They have also completed their zone change to a commercial zoning. I think the Desert Moon (part of their proper as I understand is zoned commercial) is working on increasing their total acreage to commercial. The Desert Moon Hotel & RV is next door to the Cafe'.
- ✓ 3. Is there a need for the proposed use(s) within the area of community? Yes, Thompson Springs is increasing in popularity. There are more and more visitors recreating in this area. Restoring and reopening the Cafe' and the little building on this property will provide local jobs for the Thompson Springs residents. Most of the residents drive daily to Green River or Moab to work. Many of the visitors staying in the RV parks are always walking around Thompson at night looking for something to do. The Cafe' will provide the residents and visitors a place where they can get meal without traveling 30 plus miles to Green River or Moab. We are planning on opening 2-little out door garden areas. One as an outdoor chapel and one called The Secret Garden. Both will have out door seating. The Secret Garden will have an outdoor stage. Once a month (the 3<sup>rd</sup>. Thursday from April till October) from 4:00 pm till 8:00 pm we will have entertainment in this area. One act plays, poetry reading, Solo musicians (no bands), A..J. Roger's fire side stories (without fires) of Old times in Thompson Spring & Sego Canyon, and a variety of contest (Unique Whistling, Bubble Gum Blowing, Yodeling, Look-a-Like, and Pie eating contest to name a few.
- ✓ 4. Will there be Benefits derived by the community or area by granting the proposed rezoning? Yes, it will created jobs for local residents and provide visitors and locals a place to enjoy a meal without traveling out of the area.

- ✓ 5. Is the proposal in conformance with the policies, intents and requirements of Grand County General Plan, specifically Chapter 4: Future Land Use Plan? **Yes, I understand it is, but I am not sure they have completed their general plan yet.**
- ✓ 6. Should the development be annexed to a city? **No, Moab City is about 35 mile south of Thompson Springs.**
- ✓ 7. Is the proposed density and intensity of use permitted in the proposed zoning district? **Yes, as I understand it.**
- ✓ 8. Is the site suitable for rezoning based on a consideration of environmental and scenic quality impacts? **Yes, the Cafe' and the little building on this property have been in existence since the early 50's. The Cafe' hasn't been open to the public for years. The past owner became very ill and only had it open to his personal friends until his demise on 11/14/2017 See Jay 1. The other four building have been vacant since the early 90's.**
- ✓ 9. Are the proposed uses compatible with the surrounding area or uses: **Yes.** Will there be adverse impacts: **No, I don't believe so. Every local and visitors that have stopped by while I have been painting the outside of the building have expressed a positive interest in having the Cafe' and this area restored and open for business.**  
**and /or can any adverse impacts be adequately mitigated? I don't feel their will be an adverse impact on rezoning and or opening this property. It is located at the ONLY 4-way stop in this area and was considered the center of Thompson Springs in its day.**
- ✓ 10. Are adequate public facilities and services available to serve development for the type and scope suggested by the proposed zone? **These are existing buildings. The Cafe', the little house to the west of the Cafe' and the 3-buildings to the south of the cafe all have now or have had power to them. The Cafe' the little house and the white house all have now and or have had water meters, septic, and propane hooked up to them. There is a fire hydrant located on this property. It is located between the Cafe' and the little house to the west. There is also a water line and septic to the south of the concrete pad where a double wide manufactured home was located. I have not identified the location of either of these lines yet. This will be done if and when needed. All septic systems are made out of concrete and will be updated with new septic tanks before the opening of each area. If utilities are not available, could they be reasonably extended? All utilities are in per-existing locations. Is the applicant willing to pay for the extension of public facilities and services necessary to serve the proposed development? Yes.**

**Title Report.** A preliminary title report for each stage of the application process must be dated within three months of the application submittal date, from a licensed title company or attorney listing the name of the property owner(s) and all liens, easements and judgments of record affecting the subject property. **South Eastern Utah Title Company. See pages T.R. 1-16, O.N. 1-6, O.P.T.I. 1-5, W.D. 1-6, Q.D. 1-20, Jay 1-3, Ernest 1 & 2, and Beverly 1.**

**Taxes.** A statement from the County Treasurer showing the status of all current taxes due on the parcel. **See page 2-D.**

**Surrounding Property Owners.** A list of surrounding property owners and their legal mailing address within 100 feet of the exterior boundary of the parcel proposed to be rezoned. **See pages 2-B, C,D,E,F,G,H,I,J,K.**

**Posting.** The applicant is responsible for posting a sign noticing the public hearing (please see attached for a reduced size template and requirements). The applicant is responsible for wind and water proofing the sign as well as placing it in a prominent place on the land area proposed for subdivision with a notice of the hearing at least 10 days prior to the public hearing. **I will do this when I receive a date to post this information.**

**Application Fee.** The process / filing fee of \$500.00 shall be paid in full. **Check # 123 paid 11/18/2021.**

### Will Serve When Parameters Met Letter

To whom it may concern,

Saina Carey and her entity ABC Thompson LLC has presented her rezone and development plans to the TSSD Board. The board has run water usage calculations for the ABC Thompson LLC development plan proposal as per the State of Utah's Department of Drinking Water calculation tables R309-510-1 and R309-510-2 that can be located at <https://documents.deq.utah.gov/drinking-water/rules/DDW-2017-004422.pdf>

Using the State guidelines, the board has found that the peak demand amount of water necessary for the ABC Thompson LLC proposed development plans for a restaurant, store, and employee housing is 4 ERU's. The TSSD is willing to serve the required 4 ERU's for the ABC Thompson LLC once the following parameters are met:

1. The TSSD is no longer in water deficit per state guidelines
2. The TSSD has the source capacity to sell more water shares
3. The TSSD Board has voted to sell more water shares
4. The customers who purchased 18 water shares in the Spring of 2021 are able to first realize their shares that have not yet been delivered due to the moratorium on water sales stemming from the calculated water deficit by Sunrise Engineering.
5. A commitment from ABC Thompson LLC is obtained that states that if their water usage consistently exceeds their allotted amount that they will need to decrease their business operation capacity until their water usage falls within their 4 ERU capacity or purchase more water shares.

Despite the TSSD not being able to sell water shares to ABC Thompson LLC or anyone else at this time, the board does believe that the property in question is in a great location for General Business zoning and believes that the County should allow the rezone to move forward. This is due to the anticipation of the 5

101 Fire Station Lane, Thompson Springs, UT 84540

parameters above being met within the near future and that the ABC Thompson LLC ownership has acknowledged and accepted the risk that the above 5 parameters may not be met and the water shares may not be able to be sold.

Below is the water calculations in Gallons Per Day “GPD” from the proposed ABC Thompson LLC plan:

37 Restaurant Seats (not 24 service) at 35 GPD each = 1,295 GPD

1 Store Bathroom at 500 GPD each= 500 GPD

8 Store Employees at 11 GPD each = 88 GPD

2 persons living onsite in boarding house type accommodations at 50 GPD each = 100 GPD

TOTAL = 1,983 GPD = 4 ERU's at 500 GPD

If Grand County Planning and Zoning has any questions in regards to this Will Serve When Parameters are Met Letter please feel free to reach out.

**THOMPSON SPECIAL SERVICE DISTRICT**  
**CULINARY WATER APPLICATION & SERVICE AGREEMENT**

**THIS CULINARY WATER SERVICE AGREEMENT** ("Agreement"), is made and entered into by and between the above-named owner (the "Customer"), of the above described real property (the "Property"), and the Thompson Special Service District (the "District").

Based upon the foregoing application of the Customer for culinary water service from the District, and for other good and valuable consideration the receipt and sufficiency of which are hereby acknowledged, the Customer and the District agree as follows:

1. **Availability of Service.** Effective within one working day of the date of execution hereof by the District, the Customer shall be authorized to receive the benefit of year-round culinary water service from the District, subject to the covenants and conditions hereinafter set forth.
2. **Representation of Ownership.** The Customer hereby represents he/she is the legal owner of the Property, and that the Property shall be benefited by culinary water service to be received from the District. Each succeeding owner of the Property shall be required to execute a new service agreement with the District as a condition to receiving service from the District.
3. **District Rules and Regulations.** The Customer has read and is familiar with the lawful rules and regulations of the District pertaining to culinary water service and agrees to be bound by and obey the same as such are now or may hereafter be adopted and/or amended by the Board of Trustees of the District.
4. **Payment of Fees and Charges.** The Customer shall be the party responsible for payment of all service fees and charges lawfully imposed from time-to-time by the District for culinary water service rendered by the District to the Property. Any Bill not timely paid shall be deemed delinquent.
5. **Termination.** Culinary water service to the Property may be terminated as follows:
  - a. **Termination Upon Request.** Subject to the provisions of Section 7(b) below, the Customer may request termination of service to the Property upon submitting a written request for termination of service to the District. Upon receipt of said request, service to the Property shall be terminated and remain terminated unless and until:
    - i. The Customer notifies the District, in writing, that service to the Property is to be reinstated in conformance with provisions of this Agreement, or,
    - ii. A successor owner of the Property executes a new service agreement.
  - b. **Termination for Delinquency.** In the event any bill shall remain delinquent, the District shall discontinue furnishing water service to the Customer's Property and shall refuse to restore water service unless and until all past due service fees and charges, together with interest on the delinquent amount plus the District's standard re-connection fee have been paid in full. In addition, pursuant to the provisions of Utah Code Ann. §17A-1-205 and 17B-2-801 through 805 (the "Statute"), the District may certify the past due service fees and other amounts for which the Customer is liable to the Treasurer or Assessor of

**THOMPSON SPECIAL SERVICE DISTRICT**  
**CULINARY WATER APPLICATION & SERVICE AGREEMENT**

Grand County, Utah. Upon their certification, the past due service fees, and other amounts for which the Customer is liable for water services rendered by the District shall become a lien upon the Property, on a parity with and collectible at the same time and in the same manner as general county taxes that are a lien on the Property. All methods of enforcement available for the collection of general county taxes, including sale of the Property, shall be available for the collection of delinquent service fees and charges. The aforesaid remedies shall be in addition to and not in lieu of any and all other remedies available to the District as law or in equity, including, without limitation, a civil action authorized pursuant to the Statute.

- c. Termination in the Event of Contamination. In the event the District, as a result of water sampling, has reasonable cause to believe that the water supply of the District is being contaminated, in any way, from the Property, the District may temporarily terminate water service until the source of contamination has been removed and/or the contamination or threat of contamination has been rectified to the satisfaction of the District; whereupon water service to the Property shall be restored.
6. Reinstatement of Service. Service to the Property shall only be reinstated by authorized District Personnel. Turning on water that has been turned off by order of the District by anyone other than authorized personnel is strictly prohibited. A tampering charge shall be assessed and/or court action may be taken for any unauthorized turn-on, theft, tampering, or vandalism of District property. Customer shall further pay and be responsible for any unauthorized use of water at the Property, if any, during the period of contamination.
7. Rental Property and Property Being Purchased Under Contract. In the event the Property shall be leased or sold under contract by the Customer to another person or persons (hereinafter referred to singularly or collectively as the case may be, as the "Tenant/Purchaser"), service to the premises shall be rendered by the District subject to and in conformance with the following:
  - a. Notwithstanding that the Property has been leased or is being sold under a contract, all billings for service to the Property shall nevertheless be sent directly to the Customer and the Customer shall be liable for payment of the same in conformance with the provisions of this Agreement, and it shall be the responsibility of the Customer and not the District to seek reimbursement for fees and charges paid by the Customer from the Tenant/Purchaser.
  - b. The District shall not terminate service to the Property, either as a result of non-payment of said fees and charges by the Customer or otherwise at the request of the Customer, without first having given due and adequate notice of said delinquency to the Tenant/Purchaser.
8. Right of Entry. Duly authorized officials, agents, employees, and contractors of the District shall have the right to enter upon the Property to install, operate, inspect, read, monitor, maintain,

**THOMPSON SPECIAL SERVICE DISTRICT**  
**CULINARY WATER APPLICATION & SERVICE AGREEMENT**

repair, and replace any and all meters, equipment and other appurtenances to the District' culinary water system located on the Property.

9. **Emergency Curtailments.** In times of scarcity of water, whether such scarcity is the result of emergency, natural causes, mechanical failure, or any other cause whatsoever, the District shall have the right, in its discretion, to ration or otherwise curtail water service to the Property.
10. **Attorney' Fees and Costs.** The Customer shall pay and be responsible for all costs and expenses, including without limitation, reasonable attorney's fees, incurred by the District in any effort to collect any delinquent account or otherwise enforce any other provision hereof, whether by litigation or otherwise.
11. **Severability.** If any term or provision of this Agreement shall, to any extent, be determined by a court of competent jurisdiction to be void, voidable, or unenforceable, such void, voidable or unenforceable term or provision shall not affect the enforceability of any other term or provision of this Agreement.
12. **Governing Law.** This Agreement and all matters relating hereto, shall be governed by, construed, and interpreted in accordance with the laws of the State of Utah.

rural residential has always been the character. preserve what is there. large acreage with low density housing and livestock. do not allow the subdivision of lots and require at least 1 acre per house, as is now the case in RR.

Anonymous  
1/29/2022 09:58 AM  
Areas outside the corridor should be reserved for agricultural, retention of rural character, large lots, if commercial enterprises, VERY small clusters of basic needs, small grocer, farmers market, flower shops, open markets selling produce & arts/craft

Anonymous Needs bike and foot trails along Spanish Valley Dr.  
1/29/2022 08:55 AM

Anonymous Spanish Valley needs to be cleaned up along SVD. There are miles of houses and trailers that need to be condemned. Force the removal of junk cars and junk in general. It's disgraceful. Again ENFORCE code! SV has lost most of its rural character already. Protect what little is left by stopping development, definitely stop overnight rentals and condo construction. Keep lot sizes large 1/2-1 acre if any building is done. Do not ever allow people to live in RVs in side or back yards and get rid of the ones who are doing it now. If we had wanted to live in an RV park, we would have done so. The highway corridor is the place to do commercial development but there must be noise and light mitigation. Dark skies are important in SV. Enforce the speed limits; people drive down SVD at 75-80 miles an hour every day. A multi-use pathway would connect neighbors, encourage community, reduce vehicular traffic, and be a safe place for moms to walk their children in strollers. An equestrian path was proposed, but really, would it be used? Most people trailer their horses to ride and no one really wants to ride alongside traffic, especially loud UTVS and heavy equipment that will spook horses. Nothing should be more important than quiet, dark neighborhoods. (I'd say safe, but some people think safe means installing lights all over their property.) The idea of pocket parks, old style open air markets for produce, arts and crafts -- things grown and produced in Moab -- and it would also be a gathering place for locals is appealing. Encourage growing our own food and sharing it. Maybe allowing a certain percentage of front yard gardening. I would love for SV to be more pedestrian friendly (or at least cycling friendly). I would LOVE to not have to drive all the way to town for a loaf of bread, so the idea of a small market nearby would be awesome, even if it's up on the highway corridor, but double bonus if it's in a little nook close to

where people live. My vision for SV is the opposite of what San Juan County is planning in their new "South Moab" city. Hundreds if not thousands of houses and development....that's a big nope!

Anonymous 1/30/2022 06:15 PM	A few more provisions/commodities, with mostly single family homes, maybe two-family homes.
Anonymous 1/30/2022 06:16 PM	Spanish Valley will grow as more residences are built here. I prefer the area to continue with Rural Residential zoning regulations and low-density housing with room for a family to grow food on a small scale. I believe establishing commercial nodes is important in Spanish Valley to reduce congestion in Moab City and place essential services close to the residents of Spanish Valley. I believe the time has come for strict enforcement of all zoning codes, especially rv camping in RR areas. I like the allowance for ADUs on RR one-acre lots if they are for long-term renters. I do not wish to see overnight recreational housing on RR lots because it brings too many vehicles and too much coming and going into these rural residential streets. I support revisions to our LUC if they look out 10, 20, and 50 years. I believe planners have solved these challenges before and have good proposals. I do not believe there is room for everyone to have a single-family home. The LUC needs to designate areas for multi-family homes to be built to reduce the lack of housing crisis.

Anonymous 1/31/2022 09:59 AM	Spanish Valley presents an opportunity for Grand County to preserve its attractive, south-of-town rural character while also showing itself as a leader in desert conservation practices and community planning. When we consider the current and likely continued movement to this area, whether Spanish Valley property owners (of which I am not) will admit it or not, Spanish Valley is the clear solution to housing working folks. It seems to be that, or erect taller buildings, which folks also do not want (I would count myself in these ranks). A coordinated, complete vision of Spanish Valley (to me, a humble renter) consists of the annexation of the Valley from San Juan County down to, oh, let's say La Sal? Things just do not make sense the way they are. We have a vision, they do not. We should be proactive in ensuring a community is not erected haphazardly. Spanish Valley can become a hub and still maintain its rural character - I know it can be done (please do not ask me how)! I love the idea of a farmer's market and other small developments that re-emphasize the area's rural character as it is inevitably and simultaneously built up. And, again, land/water conservation practices such as xeriscaping and other smart methods need to be severely encouraged. This region is too fragile to see large swaths of land, set aside for agricultural purposes, use water like we're in Orlando.

Anonymous I want it to stay uncrowded, beautiful, quiet and affordable. This should include restrictions on commercial business, except things like craftsman spaces or auto garages, and effective bans on overnight rentals. We should also tax second homes (unless rented out to full time residents) at the maximum rate, or ideally ban them. We should absolutely encourage the use of RVs and tiny homes on wheels as accessory dwellings, since this make them actually affordable (unlike permanently built accessory dwellings, which are not in the financial reach of many residents, such as myself). Moab has long has a spirit and tradition of being affordable and quirky, and that should be facilitated to the maximum extent possible. To me, Rim Village is a far great eyesore and does far great harm than a junkyard.

I appreciate this section especially because limiting previous comments to 255 letters is much like limiting comments to two or three minutes....impossible! Especially, I see HDHO as the biggest problem for the future; Upcoming a parcel form RR -one per acre - to 20, 30, 50 per acre does NOT promote rural community character, prevent overcrowding, or respect property owners (except of course the "developer").. Planning errors of the past - ie, allowing developments for overnight rentals (rim village, coyote run, etc) and allowing condos in the hwy comm zone, is a huge mistake...now to compensate for that error HDHO is today's error for tomorrow's problems. Citizen access to county commissions has suffered during these covid times. There should be a zoom meeting at least twice each month devoted entirely to Citizens to be heard.

I am speaking for my general area here, not the total of Spanish Valley as different parts of the valley may have different visions. I

live, and have lived, on East Bench Road for 30 years. When I first moved here it was what I had dreamed of. I grew up and suburbia and always disliked it, and here I had large open spaces surrounding me, as well as my own open space. No neighbors to the north (where Coyote Run is now) and only one to my west (Applegate's old property). The land across from me on the west was built on soon after, very tastefully and on a large 2-acre lot. Then came Coyote Run in what should have been a rural agricultural (I believe that's what it used to be called) area. Totally out of place. Now there is Watchman Estates – suburbia is coming to me in a most distasteful way. That never should have been allowed. I do realize it was re-zoned many years ago, but it is totally out of place in this neighborhood. Very large homes on small lots are really intrusive. Nor is East Bench going to be able to handle the traffic. Ignoring Watchman and Coyote, we are a very rural area, surrounded by a golf course and very large greenbelt agricultural areas. This area should never be allowed zoning smaller than 1 acre per dwelling. (Note I did NOT say as many dwellings as acres.) As for my preferences for the rest of Spanish Valley, I answered many questions with "not sure" because in some areas some of those choices may be appropriate. The residents should have a very large input as to whether that is the case.

I truly hate the notion of "wall-to-wall" development in Spanish Valley that has been used to describe the directions some folks wish to see Moab go in. Much of Spanish Valley, especially the East side, should be reserved for rural zoning. This area was quickly becoming a re3creational area for out-of-towners who come just to tear up the country. I'm, referring to those folks who

It's still fairly rural with a lot of building currently going on. We have too many commercial rental properties and not enough affordable housing. We don't need any more hotels, motels, B&B's, or camp parks until we have enough housing for the people actually working here. We also don't have the infrastructure to support any new developments or even the ones currently going in. We already have problems with water pressure and our sewer system and don't need any added to that.

Keep the agricultural and rural areas intact. Allow in-filling for residential in areas already established. Keep commercial zoning to hubs to avoid the highway becoming one long ugly blight. Allow

This should remain a rural living area but the commercial land near the Hiway should have to right to be businesses.

Maintain the rural feel while increasing density close to the town center. Include dark sky regulations for commercial and residential development. Take a look at some of the towns in the west that have had the foresight to plan for a sense of community and maintaining an appealing esthetic rather than just allowing anything that will bring in revenue.

Generally we need housing a services to support our long term residents and businesses. I am very frustrated with the ongoing idea that "rural charter" should take precedence over supporting our population. Further from town is more appropriate for lower density development but anything in the major spanish valley corridor should be allowed to be developed into housing, local businesses, support services. I am also frustrated with the idea that water is the limiting factor when we still allow unrestricted yard watering, unrestricted visitor water usage and unrestricted vehicle washing, etc. If all of these were metered we should have more than enough to fulfill the needs of our long term residents and build housing for them.

Caution with water. Some housing density. Prevent ATV noise.

Anonymous 2/14/2022 04:50 PM	Mostly residential area where locals are prioritized. Affordable housing, including high density housing, and services such as grocery and daycare for the workforce. Open spaces, wildland preserves, and preservation of agricultural land to sustain the rural atmosphere. New developments must strictly adhere to water conservation measures. Public transportation, such as a bus, available to go into Moab.
Anonymous 2/15/2022 09:19 AM	I'd like Spanish Valley to remain a peaceful area to live that provides great access to hiking trails.
Anonymous 2/15/2022 02:42 PM	Grand County needs more housing for residents (not overnight rentals for commercial use). To serve this purpose, I envision much of Spanish Valley becoming mostly residential development with some dispersed multi-family units. I would like to see a balanced approach with the preservation of green spaces/agricultural areas mixed in to break up developed areas. I would like to see height restrictions put into place to protect view sheds, which is the reason many people choose to live here. Also maintaining dark night skies is of paramount importance to me. I see some small scale mom & pop-type neighborhood commercial development potential to serve the needs of area residents along Spanish Valley Drive. Larger scale commercial development should be placed along hwy 191 and closer in towards Moab City in order to limit noise pollution for residential areas.

**P&Z Staff is currently seeking guidance on several possible updates to address Housing needs in Grand County:**

- 1) **Section 3.3.2 ADU's** – updates per Utah state code requirements, to address Internal ADU's and setbacks for External ADU's.
  - a) Consider allowing an additional IADU along with one detached EADU on a parcel.
  - b) Currently code requires a minimum parcel size of 5,000 sq.ft. but State code minimum is 6,000 sq.ft. (see attached parcel map)
  - c) Currently ADU's are deed restricted to ensure they are not used as nightly rentals, but Moab City went further and deed restricted for Actively Employed Households.
  - a) Consider reducing the side and rear setbacks for EADU's where height does not exceed 20'
- 2) **Replace Assured housing section with Affordable Housing requirement for all development (Article 6).**
  - a) Based on Summit County model (see draft copy attached)
  - b) Developers construct affordable units or pay fee in lieu
  - c) Exemptions include construction of ADU's, principal residences under 3,000 sq ft (??), schools, churches.
  - d) Would solve the campground exemption problem (OAO).
  - e) Justification based on 2018 BAE linkage fee study (update in progress)
- 3) Is there still interest in allowing **long-term rental RV and/or tiny home developments** in limited areas to house seasonal workers as well as long term residents?
  - a) Possible Special Purpose Overlay District similar to HDHO with a sunset date, a maximum unit cap and eligible parcels map.
  - b) Parcels limited in size and density
  - c) Application period: 12 months, maximum 500 unit cap

d) Strict design guidelines and maintenance requirements to ensure quality living for residents and neighbors (based on prime examples)

## **Accessory Dwelling Unit (ADU)**

The purpose of this section is to encourage accessory dwelling units (ADUs) as an affordable housing opportunity while protecting the neighborhood character and quality of life in residential zone districts. ADUs shall comply with the following standards:

### **1. Area, Setback, and Size Restrictions**

- a.** An ADU may be permitted as an accessory use to an otherwise allowed residential dwelling unit that is the principal use on a lot or parcel of at least 5,000 square feet.
- b.** Only one accessory dwelling unit shall be permitted per lot/parcel of record.
- c.** ADUs shall meet setback and building height requirements applicable to the principal structure in the underlying zone district.
- d.** The maximum square footage of ADU shall not exceed 1,000 square feet.

### **2. Site Plan and Design Requirements**

- a.** A site plan shall be required prior to issuance of a building permit. The site plan shall be drawn to scale and clearly show the location and dimensions of existing and proposed structures (including such items as building elevation, color, and materials), setbacks, parking, easements, and driveways.
- b.** An ADU shall be a permanent structure that meets the currently adopted standards of the International Residential Code (IRC). No travel trailer, boat, or similar recreational vehicle shall be used as an accessory dwelling unit.
- c.** ADUs shall be designed to preserve or complement the architectural design, style, and appearance of the primary single-family dwelling unit. Specifically, whether attached or detached, the roof pitch, siding materials, color, and window treatment of the ADU shall be the same as, similar to, or an improvement to, the appearance of the primary dwelling unit.
- d.** If a separate external entrance for the ADU is necessary it shall be screened from view of the street, and where possible, shall be located on the internal side or rear of the structure

#### **ALSO FROM MOAB CITY:**

The maximum size for accessory living quarters shall be no more than twelve hundred (1200) square feet. Lots larger than 20,000 square feet in size may increase the maximum to fifteen hundred (1500) square feet.

One on-site parking space shall be provided in addition to the underlying parking requirement. The parking space may be provided in tandem if the existing driveway length exceeds thirty-five feet as measured from the property line.

*Accessory Dwellings Per Lot.* One (1) Type 1 EADU may be permitted on parcels up to 20,000 square feet. Parcels that are greater than 20,000 square feet may apply for a maximum of two (2) ADUs.

*Property to Remain Undivided.* Properties with EADUs shall remain recorded as one lot. The accessory dwelling shall not be sold separately

### 3. Occupancy Requirements

- a. ADUs shall not be condominiumized or sold separately.
- b. Where an ADU exists, neither the primary nor the secondary dwelling unit shall be occupied for periods of less than 30 consecutive days. A restricted use covenant shall be signed and recorded by the owner prior to issuance of a building permit for the accessory dwelling unit. [Ord. 543, 2016.]

*Deed Restriction.* A deed restriction must be filed with the county recorder which states:

#### Other things to consider:

Restrict ADU's to NOT be used as second homes? Usually, you don't rent a second home, but maybe this could be the case?

Allow the principal and ADU to be long term rentals??

State Code *allows* additional restrictions

- require bedroom window egress, prohibit installation of a separate utility meter
- require one additional on-site parking space and replace any garage or carport parking spaces if the IADU is created in the garage or carport,
- require an IADU permit or license,
- prohibit an IADU if the primary dwelling is served by a failing septic tank,
- prohibit an IADU if the lot is 6,000 sq. ft. or less,

Definitions for IADU and EADU (FROM MOAB CITY ORDINANCE)

“Accessory Dwelling Unit, Internal (IADU)” means an accessory dwelling unit created:

1. within an existing single household dwelling; and
2. within the footprint of the main dwelling; and
3. The intent of ADUs is not to provide additional second home opportunities.

“Accessory Dwelling Unit, External (EADU)” means an accessory dwelling created:

1. on the same parcel or lot that contains the main dwelling structure; and
2. physically separate from the main dwelling structure; and
3. The intent of ADUs is not to provide additional second home opportunities

Residential zoned parcels 6,000 Sqft. or more

## **6.14 Affordable Housing**

Housing is considered to be affordable when 30 percent or less of total household income is spent on all housing costs, including mortgage or rent, taxes, insurance, utilities, and HOA fees where applicable. In some developments, it may be practical to limit all housing costs to less than 40 percent of total household income. Housing may also be considered affordable when a household's residual income – what is left over after paying all housing costs – can cover essential nonhousing expenditures, including food, clothing, transportation, healthcare, and others.

### **6.14.1 Purpose:**

1. Provide requirements, guidelines, and incentives for the construction of housing affordable to extremely low income, very low income, and low income households in Grand County;
2. Implement the affordable housing goals, policies, and objectives contained in the Grand County General Plan and the Moab Area Affordable Housing Plan;
3. Ensure a wide variety of affordable housing options and opportunities for residents, seniors, workers, and special needs individuals in Grand County;
4. Maintain a balanced community that provides housing for people of all income levels; and
5. Implement planning for affordable housing as required by state code.

### **METHODOLOGY AND APPLICABILITY:**

- A. Affordable Housing Needs: The County shall adopt a needs assessment model to determine the need for affordable housing, types of housing, special needs, and specific incomes to be targeted in Grand County, and specifically the Moab Area. The model shall be utilized to update the needs assessment no less than once every five (5) years, unless requested sooner by the planning commission or county council.
- B. Base Requirement: There shall be a base requirement to provide affordable housing throughout all zones of Grand County. The base requirement shall apply to all new residential subdivisions, commercial, and mixed use development, and shall be calculated using affordable unit equivalents (AUEs).
- C. Exemptions: The following developments shall not be required to provide affordable housing:
  1. The construction of accessory dwelling units.
  2. The construction of a single-family residence under 3,000 sq. ft. on an existing lot of record for primary residence or locally owned secondary residences deed restricted for workforce housing.
  3. The expansion of an existing residence up to 3,000 sq. ft.
  4. The construction of schools, churches, public facilities, and other institutional uses.

- ~~5. A change or expansion of an existing commercial use which is less than a fifteen percent (15%) increase in the existing structure gross square footage or total project square footage, but no greater than five thousand (5,000) square feet; this is a onetime exemption.~~
- ~~6. The first five thousand (5,000) square feet of a new commercial use that is not for overnight accommodations; this is a onetime exemption.~~
- ~~7. A change or expansion of an existing commercial use which is less than a fifteen percent (15%) increase of the existing total acreage but no greater than two (2) acres, if the use is primarily outdoors; this is a onetime exemption.~~
8. A change in use which does not increase the employee generation by more than two (2) employees per one thousand (1,000) square feet.

D. Definitions:

**AREA MEDIAN INCOME (AMI):** The amount of income which divides the income distribution of the area into two (2) equal groups, half having income above that amount, and half having income below that amount as determined by the U.S. department of housing and urban development for Grand County from time to time.

**MEDIAN LOT SIZE:** Half of all lots in the development are larger, and half are smaller.

**AFFORDABLE HOUSING REQUIREMENTS:**

- A. All developments containing affordable units shall enter into a housing agreement with Grand County. The housing agreement shall be recorded against all parcels and units identified as affordable in the development, and shall include the following:
  1. Identification of the units to be deed restricted as affordable housing, including, but not limited to, unit ID number and/or address, square footage, location, and style of unit.
  2. A specification of allowed starting sales and/or rental price(s), price increase methodology, target household size and target income range for each unit.
  3. Management plan for the affordable units, including the process for buyer qualification to ensure that employees working and living in Grand County are given priority. The management plan shall conform to a template to be provided by Grand County.
  4. A copy of the approved deed restriction or document to assure affordability to be recorded against the individual affordable units.
  5. A good faith marketing plan for the units. All sellers or owners of deed restricted affordable units shall engage in good faith marketing efforts each time a deed restricted unit is rented or sold such that members of the public who are qualified to rent or purchase such units have a fair chance of becoming informed of the availability of such units. A public marketing plan shall be submitted by the developer prior to the initial sale or lease of the units.
- B. Affordable units shall meet all of the following criteria:
  1. **Design To Be Consistent With Character Of Neighborhood:** The specific unit type and design shall be consistent with the character of the surrounding neighborhood and/or development. If the development contains both market rate and affordable units, the exterior design, look and feel, and finishes of affordable units shall match the exterior design, look and feel and finishes of market rate units in the development. Interior finishes may differ between affordable and market rate units.

2. Compliance With Development Standards Required: Affordable housing units shall comply with all the development standards outlined in chapter 4 of this title, and shall comply with the requirements of the underlying zone, with the exceptions outlined in this chapter.
3. Minimum Size: The minimum size of an affordable housing unit shall be based on the category of unit, as outlined in section \_\_\_\_\_, "Affordable Unit Equivalents (AUEs)", of this Section.
4. Concurrent Construction: The affordable housing component in a development shall be constructed concurrently with the rest of the development. Each phase of a project must contain a proportionate amount of the required affordable housing. This applies to both on site and off site housing.
5. Construction Within Development Site: The affordable housing component of a development shall be constructed within the development site, except as outlined in this chapter.
6. Residential Parking: Residential parking shall be provided at a minimum rate of one space per single room occupancy (SRO), studio, or one bedroom unit, and two (2) spaces per unit for multiple bedroom units. Visitor parking will also be provided throughout the project at a rate of 0.25 spaces per unit.
7. Variation Of Prices: The affordable units shall be provided in a variety of prices so that multiple income levels, as outlined in section \_\_\_\_\_ this section are targeted. No one target income level may make up more than seventy five percent (75%) of the affordable units, except in cases where the total number of affordable units provided is ten (10) or fewer, or where the land use authority determines that a different unit mix is compatible with the proposed development, or where all units are approved to be located in a single structure.
8. Variation Of Sizes And Styles: The affordable units shall be provided in a variety of sizes and styles, as outlined in subsection 10-5-4C of this chapter. No one size or style of unit may make up more than seventy five percent (75%) of the affordable units, except in cases where the total number of affordable units provided is ten (10) or fewer, or where the land use authority determines that a different unit mix is compatible with the proposed development, or where all units are approved to be located in a single structure.
9. Compatibility: To allow for the structures to be compatible with market homes within the subdivision and the existing neighborhoods, the homes constructed can be multi-family to avoid having smaller homes within a larger home community. Such multi- family structures shall contain no more than three (3) units per structure, and shall be designed in such a manner that they appear to be one detached single-family home consistent with the adjacent larger homes. Multi-family structures shall be subject to the permitting requirements in chapter 2 of this title.
10. Minimum Length Of Time: The minimum length of time for a unit to be deed restricted as an affordable unit shall be sixty (60) years as measured from issuance of certificate of occupancy, which may be renewable for an additional term.
11. Rentals: All deed restricted rental units shall be rented for a minimum period of ninety (90) consecutive days. Nightly and weekly rentals shall be prohibited.
  - a. Exception: Special needs emergency/transitional/athlete/employee housing shall be exempt from the ninety (90) day limitation, but shall be rented for a sufficient period to prevent nightly and weekly rentals. To qualify for the exemption, there must be a quantified, demonstrated need for the emergency/transitional/athlete/employee housing within the Grand

County boundaries, and the housing must be developed in collaboration with a federally recognized, 501(c)(3) nonprofit organization. The housing must satisfy all other requirements of this chapter.

12. For Sale Units: The maximum initial sales price or rent of an affordable unit shall be limited to a price that is affordable to an "extremely low income", "very low income", or "low income" household as defined by the department of housing and urban development (HUD) for the area median income (AMI) for Grand County each year, and annual appreciation shall be limited through a deed restriction to ensure that the unit remains affordable over time. Notwithstanding this provision, the deed restrictions may provide for sales or rental to higher income households in the event the unit is not sold or rented within a reasonable time.

13. Net Income Limitations: In addition to the net income limit, qualifying households are limited to a net worth of four (4) times the AMI.

14. Master Leases: A qualified nonprofit organization, or employer desiring to provide qualifying employees with affordable housing, may purchase or lease existing affordable units when a master lease program is approved, whereby the nonprofit organization or employer will rent or lease the units to qualifying employee households. A management plan shall be approved by Grand County and recorded against the affordable units as part of, or an amendment to, a housing agreement.

15. Housing Availability: In an effort to ensure that the affordable housing is available for qualified individuals:

a. All renters of affordable units will be required to certify annually to the county, or its designee, that they still qualify for the targeted percentage of AMI. If a renter no longer qualifies for the housing, their lease will not be renewed and the property will then be made available to a qualifying renter.

b. If a for sale unit owner's household's income increases to an amount above the targeted percentage of AMI while occupying an affordable unit, the household shall not be required to sell the unit. Upon vacating the premises naturally, a for sale unit shall be sold pursuant to the terms of the deed restriction.

16. Priority In Obtaining Units: Households currently living or working in Grand County shall have priority in obtaining affordable units, through a selection process determined by the county council, subject to compliance with federal and state fair housing requirements.

17. Deed Restriction Approval: A deed restriction shall be approved by the county and recorded on all affordable dwelling units. A template restriction approved by the county council shall be used for all new affordable units, unless substitute restrictions setting forth substantially the same information are provided by a community oriented housing nonprofit group for units they develop, and if the substitute restriction is approved by the county council. Such substitute restrictions may include the use of a community land trust or management by a local housing nonprofit to ensure long term control and stewardship. The deed restriction templates shall be reviewed annually, and shall at a minimum outline the following:

- a. Income and net worth qualification,
- b. Term of applicability,
- c. Assignable county right of first refusal,
- d. Allowable capital improvements,

- e. Maintenance,
- f. Occupancy requirements,
- g. Rental and sales policies,
- h. Starting sales and rental prices,
- i. Allowable annual price increase,
- j. Reporting and monitoring structures,
- k. Management,
- l. Enforcement provisions.

18. Modification Of Restrictions: These restrictions may be modified to satisfy state and/or federal requirements, if a project receives state and/or federal funding that requires modifications.

19. Certification: All for sale and rental affordable units shall be certified by an independent qualified evaluator, at a minimum, Energy Star or its equivalent energy efficient certification.

#### **AFFORDABLE UNIT EQUIVALENTS (AUEs):**

A. Affordable Unit Equivalents (AUEs): All new development shall be required to provide a certain number of affordable unit equivalents (AUEs), as outlined in this chapter. To encourage the provision of smaller more affordable units, the cumulative total square footage required decreases for smaller units and increases for larger units.

B. AUE Defined: "AUE" is defined as a "two (2) bedroom unit with nine hundred (900) square feet of net livable space, measured exterior wall to exterior wall". Multiple smaller units together may constitute one AUE, or fewer larger units, according to the conversion in subsection C of this section.

#### C. AUE Conversions:

- 1. Dormitory unit:
  - a. Minimum size = 150 square feet per bed
  - b. 1 AUE = 5 beds (1 bed = 0.2 AUE)
  - c. Example: 8 AUEs = 40 beds
    - (1)  $8 \times 5 = 40$ , or
    - (2)  $8 \div 0.2 = 40$
- 2. Single room occupancy (SRO) unit:
  - a. Minimum unit size = 275 square feet
  - b. 1 AUE = 2.75 units (1 unit = 0.3636 AUE)
  - c. Example: 8 AUEs = 22 units
    - (1)  $8 \times 2.75 = 22$ , or
    - (2)  $8 \div 0.36 = 22$
