Central Wasatch Commission Survey

The Central Wasatch Commission (CWC) has commissioned an independent assessment of the Central Wasatch Commission. As part of that assessment, your opinion matters.

This survey is your opportunity to share your observations and opinions regarding what you like about the CWC, how the organization can improve, and what priorities you hope to see the CWC focus on going forward. The following survey will solicit your perspective about the work of the CWC, the organizational structure and working relationships of the Board of Commissioners and Stakeholders Council, what key aspects of this work are succeeding, what aspects are deserving of attention or refinement, and whether stakeholders want a recommitment to consensus-based principles that may help to guide future decisions relating to the Central Wasatch. The information gained from this survey will inform and guide the CWC Commissioners as they refine the structure and processes of the CWC and set goals and objectives that will guide their work with the CWC.

Thank you for your time and willingness to share your opinion.

* Required

1. Your Name *

2. Your Organization and Title (optional)

3. Your Zip Code *

4. Please identify your interest in the Central Wasatch Commission (Check all that apply) *

Check all that apply.

- ☐ Government official not on the CWC
- ☐ CWC Commission Member
- ☐ CWC Stakeholders Council Member
- ☐ Business owner
- ☐ Land owner
- ☐ Canyons resident
- ☐ Canyons-adjacent resident
- ☐ Environmental advocate
- ☐ Recreation Advocate
- ☐ Member of the public

Other: ☐

5. What is your relationship with the canyons? (Check all that apply) *

Check all that apply.

- ☐ Resident
- ☐ Business Owner
- ☐ Hiking
- ☐ Backcountry skiing/snowboarding
- ☐ Downhill skiing/snowboarding
- ☐ Snowshoeing
- ☐ Snowplaying
- ☐ Cycling
- ☐ Rock Climbing
- ☐ Camping or Picnicking
- ☐ Sightseeing
- ☐ Dog walking (where permissible)
- ☐ Restaurant dining
- ☐ Vacationing at resorts, vacation rentals

Other: ☐ _____

6. The Mountain Accord Charter focuses on four major issues affecting the balanced uses of the Wasatch mountains. Please rank these four issues in order of importance to you. *

Mark only one oval per row.

	Transportation	Economy	Recreation	Environment
First choice	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Second choice	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

7. What are your priorities that you would like the CWC and the Mountain Accord charter to focus on? Please select your top 5 priorities. *

Check all that apply.

- ☐ Environmental protections and watershed
- ☐ Resolving environmental threats
- ☐ Involving relevant businesses
- ☐ Preserving current recreation access
- ☐ Expanding recreation access
- ☐ Managing visitor use as canyon use and general population increase
- ☐ Facilitating land disputes
- ☐ Improvements to the recreation infrastructure (trails, trailheads, restrooms)
- ☐ Transportation solutions
- ☐ Collaboration between government agencies
- ☐ Protecting private property rights
- ☐ Improve emergency communications infrastructure
- ☐ Increased safe parking options
- ☐ Assuring equitable access to the canyons

Other: ☐ _____

1	
Please list additional services, tools, or guidelines that the CWC and/or the Mountain Accord Charter should provide, but doesn't currently.	Updates on weekend parking in LCC, more info about land protection and what's going on and how people can help besides contact their rep as they don't listen very well.
Please list some of the barriers that you see in balancing the needs of the Central Wasatch with the demands of your organization.	
List three things that you feel have been successfully accomplished since the Mountain Accord was signed in 2015.	
List three things you wish had been accomplished since the Mountain Accord was signed in 2015.	No 'one wasatch'.
List three things you would like to see the CWC and the Mountain Accord charter do less of or discontinue? Why?	
Which other associations or organizations should be involved in the CWC work that are not currently involved? What work are they doing that is valuable?	

2	
Please list additional services, tools, or guidelines that the CWC and/or the Mountain Accord Charter should provide, but doesn't currently.	
Please list some of the barriers that you see in balancing the needs of the Central Wasatch with the demands of your organization.	Realistic transportation systems other than busses
List three things that you feel have been successfully accomplished since the	Manage to kill any good transportation solution

Mountain Accord was signed in 2015.	
List three things you wish had been accomplished since the Mountain Accord was signed in 2015.	Come up with a modern transportation solution for the Wasatch
List three things you would like to see the CWC and the Mountain Accord charter do less of or discontinue? Why?	Take some bold action on a modern solution for transportation to all the canyons. And some modern vision on transportation solutions realize that a modern vision on transportation will have some environmental intact and will never be perfect
Which other associations or organizations should be involved in the CWC work that are not currently involved? What work are they doing that is valuable?	

3	
Please list additional services, tools, or guidelines that the CWC and/or the Mountain Accord Charter should provide, but doesn't currently.	More surveys especially about the LCCEIS
Please list some of the barriers that you see in balancing the needs of the Central Wasatch with the demands of your organization.	accountability
List three things that you feel have been successfully accomplished since the Mountain Accord was signed in 2015.	
List three things you wish had been accomplished since the Mountain Accord was signed in 2015.	
List three things you would like to see the CWC and the Mountain Accord charter do less of or discontinue? Why?	

Which other associations or organizations should be involved in the CWC work that are not currently involved? What work are they doing that is valuable?	
--	--

4	
Please list additional services, tools, or guidelines that the CWC and/or the Mountain Accord Charter should provide, but doesn't currently.	
Please list some of the barriers that you see in balancing the needs of the Central Wasatch with the demands of your organization.	
List three things that you feel have been successfully accomplished since the Mountain Accord was signed in 2015.	Bringing attention to the subject.
List three things you wish had been accomplished since the Mountain Accord was signed in 2015.	
List three things you would like to see the CWC and the Mountain Accord charter do less of or discontinue? Why?	Stop expanding roads, giving into ski resorts, and restricting general recreation opportunities.
Which other associations or organizations should be involved in the CWC work that are not currently involved? What work are they doing that is valuable?	

5	
Please list additional services, tools, or guidelines that the CWC and/or the Mountain Accord Charter should provide, but doesn't currently.	Additional public outreach. I think much of the general public doesn't know what the CWC is or what its role is. Also an understanding of how

	the CWC interacts with other organizations such as UDOT, UTA, and USFS.
Please list some of the barriers that you see in balancing the needs of the Central Wasatch with the demands of your organization.	
List three things that you feel have been successfully accomplished since the Mountain Accord was signed in 2015.	Improvements to some canyon infrastructure (e.g. parking lots, bathrooms). Protection of Bonanza Flat
List three things you wish had been accomplished since the Mountain Accord was signed in 2015.	Better collaboration amongst canyon stakeholders. Protection of dispersed recreation access. Improved bus service.
List three things you would like to see the CWC and the Mountain Accord charter do less of or discontinue? Why?	It not always clear the results of CWC discussions and decisions. Do they result in action, or not? The Stakeholder council does not meet enough to be an effective organization. I think increase meetings to every other month (6x per year instead of 4x per year) would allow more time for discussion and consideration of issues.
Which other associations or organizations should be involved in the CWC work that are not currently involved? What work are they doing that is valuable?	UDOT, UTA, USFS Organizations representing minority populations in Utah (hispanic, latinx, refugee, etc.)

6	
Please list additional services, tools, or guidelines that the CWC and/or the Mountain Accord Charter should provide, but doesn't currently.	
Please list some of the barriers that you see in balancing the needs of the Central Wasatch with the demands of your organization.	The Central Wasatch are not all about skiing and the commercial resorts, yet I feel that dominates the discussion. Wasatch Front residents would like to see solutions for transportation the don't despoil the natural beauty and resources of the Central Wasatch.

	Gondolas and such discussions are about the resorts aren't they. They do little for the resident who enjoys the views, natural beauty, and visits to the canyon. Make that part of the discussion.
List three things that you feel have been successfully accomplished since the Mountain Accord was signed in 2015.	It has become a topic of public debate and healthy discussion about the future of these magnificent resources.
List three things you wish had been accomplished since the Mountain Accord was signed in 2015.	I wish we could come to resolution on transportation issues that are environmentally friendly. Current discussion seems bogged down in winners/losers discussions.
List three things you would like to see the CWC and the Mountain Accord charter do less of or discontinue? Why?	
Which other associations or organizations should be involved in the CWC work that are not currently involved? What work are they doing that is valuable?	

7	
Please list additional services, tools, or guidelines that the CWC and/or the Mountain Accord Charter should provide, but doesn't currently.	Other: Parking and private car access should be severely limited and the preposterous plan of trains, gondolas should be scrapped forever. In fact CWC/Mtn Accord should be slashed forever.
Please list some of the barriers that you see in balancing the needs of the Central Wasatch with the demands of your organization.	Integrity, greed
List three things that you feel have been successfully accomplished since the	

Mountain Accord was signed in 2015.	
List three things you wish had been accomplished since the Mountain Accord was signed in 2015.	More Revelations that the processes have been manipulated to produce a forgone agenda. Remove parking from mouth of crowded canyon
List three things you would like to see the CWC and the Mountain Accord charter do less of or discontinue? Why?	Make decisions for so few that use facilities.
Which other associations or organizations should be involved in the CWC work that are not currently involved? What work are they doing that is valuable?	

8	
Please list additional services, tools, or guidelines that the CWC and/or the Mountain Accord Charter should provide, but doesn't currently.	CWC should stick to the objective of getting the NCRA passed.
Please list some of the barriers that you see in balancing the needs of the Central Wasatch with the demands of your organization.	Ski resorts are the awe inspiring and powerful OZ. USFS is always short on budget and maintain neutral positions on every change to the Wasatch Forest. Utah legislators, whom make final call on Transportation issues and problems are only concerned about their croonies abilities to make money from development of the Canyons.
List three things that you feel have been successfully accomplished since the Mountain Accord was signed in 2015.	1. More of the general population became aware of the threats to the Wasatch. 2. There has been a minor uptick in the positive concern to use more public transportation (new park lots, more busses, road improvements in the area). 3. The CWC was formed and all Commissioners and Stakeholders realized that whatever was done, we still understand the negative bureaucratic and political stalemate walls are still up and still against the overall protection of the Wasatch and that so many voices and opinions exist making any decision to protect the Wasatch impossible - just like

	with the Mountain Accord.
List three things you wish had been accomplished since the Mountain Accord was signed in 2015.	I wished that the Utah Transit Authority and Utah Regional Transportation Commission could have been staff by all Democrats rather than money mongering Republicans. Wished that the Executive members of the UTA could have been replaced with more progressively experienced folks that had asked for more funding for electric busses and a regional system of public transportation.
List three things you would like to see the CWC and the Mountain Accord charter do less of or discontinue? Why?	Less fumbling in the nightmare of politics; more real action to implement changes; less meetings with no end result; more end result to protect the Wasatch; less acceptance of our Washington Congress and Senate folks holding the final card for decisions; more local decisions to pass the NCRA.
Which other associations or organizations should be involved in the CWC work that are not currently involved? What work are they doing that is valuable?	Less meddling by Ski Resorts; more weight on public citizen ideas and plans. Although deemed impossible, more weight by the USFS rather than delay in decisions and ideas.

9	
Please list additional services, tools, or guidelines that the CWC and/or the Mountain Accord Charter should provide, but doesn't currently.	
Please list some of the barriers that you see in balancing the needs of the Central Wasatch with the demands of your organization.	
List three things that you feel have been successfully accomplished since the Mountain Accord was signed in 2015.	Feels like the CWC doesn't have any power to accomplish anything.
List three things you wish had been accomplished since the Mountain Accord was signed in 2015.	

List three things you would like to see the CWC and the Mountain Accord charter do less of or discontinue? Why?	
Which other associations or organizations should be involved in the CWC work that are not currently involved? What work are they doing that is valuable?	

10	
Please list additional services, tools, or guidelines that the CWC and/or the Mountain Accord Charter should provide, but doesn't currently.	The CWC should dissolve and return to the agreements and plans that Mountain Accord developed before they existed. The Charter should be to preserve the environment of the Wasatch and ensure equitable access to all.
Please list some of the barriers that you see in balancing the needs of the Central Wasatch with the demands of your organization.	Money. Ski areas and developers want to increase revenue and their bottom line instead of being grateful for what they already have.
List three things that you feel have been successfully accomplished since the Mountain Accord was signed in 2015.	Displacement of the Mountain Accord process in favor of resort owners and private property developers.
List three things you wish had been accomplished since the Mountain Accord was signed in 2015.	A freeze on further development in all canyons from City Creek to Spanish Fork.
List three things you would like to see the CWC and the Mountain Accord charter do less of or discontinue? Why?	I would like to see CWC support developers, ski resorts and profit making enterprises less.
Which other associations or organizations should be involved in the CWC work that are not currently involved? What work are they doing that is valuable?	The Nature Conservancy. They are conserving land for ecological benefit.

11	
Please list additional services, tools, or guidelines that the CWC and/or the Mountain Accord Charter should provide, but doesn't currently.	Consider non-vehicle canyon access from the Wasatch back or from Interstate 80
Please list some of the barriers that you see in balancing the needs of the Central Wasatch with the demands of your organization.	
List three things that you feel have been successfully accomplished since the Mountain Accord was signed in 2015.	
List three things you wish had been accomplished since the Mountain Accord was signed in 2015.	Better access, superior environmental protection, better bike access
List three things you would like to see the CWC and the Mountain Accord charter do less of or discontinue? Why?	
Which other associations or organizations should be involved in the CWC work that are not currently involved? What work are they doing that is valuable?	

12	
Please list additional services, tools, or guidelines that the CWC and/or the Mountain Accord Charter should provide, but doesn't currently.	

Please list some of the barriers that you see in balancing the needs of the Central Wasatch with the demands of your organization.	Proposed transportation solutions do not adequately protect the environment
List three things that you feel have been successfully accomplished since the Mountain Accord was signed in 2015.	
List three things you wish had been accomplished since the Mountain Accord was signed in 2015.	1. Disappointed in proposed transportation solutions 2. Need to propose more creative and less intrusive and invasive transportation solutions 3. Experiment with more creative and less intrusive and invasive transportation solutions
List three things you would like to see the CWC and the Mountain Accord charter do less of or discontinue? Why?	
Which other associations or organizations should be involved in the CWC work that are not currently involved? What work are they doing that is valuable?	

13	
Please list additional services, tools, or guidelines that the CWC and/or the Mountain Accord Charter should provide, but doesn't currently.	
Please list some of the barriers that you see in balancing the needs of the Central Wasatch with the demands of your organization.	
List three things that you feel have been successfully accomplished since the Mountain Accord was signed in 2015.	
List three things you wish had been accomplished since the Mountain Accord was signed in 2015.	CWNCRA legislation

List three things you would like to see the CWC and the Mountain Accord charter do less of or discontinue? Why?	
Which other associations or organizations should be involved in the CWC work that are not currently involved? What work are they doing that is valuable?	

14	
Please list additional services, tools, or guidelines that the CWC and/or the Mountain Accord Charter should provide, but doesn't currently.	Support/design more transit-oriented options for canyon users including links to valley transit Give canyon users information on the high environmental costs of private auto usage in the canyons
Please list some of the barriers that you see in balancing the needs of the Central Wasatch with the demands of your organization.	My organization is not directly related to the Central Wasatch, but equitable use of our recreational and environmental resources is definitely a concern for me and my organization.
List three things that you feel have been successfully accomplished since the Mountain Accord was signed in 2015.	More recognition of the value of the canyons by Wasatch Front community leaders Brought attention to problems with private auto usage in the canyons Started discussions of equity in canyon usage
List three things you wish had been accomplished since the Mountain Accord was signed in 2015.	Put an end to discussions of gondolas, and other ski-area centered projects permanently Stop ski area expansion, including parking lots Come up with real data on the capacity of the canyons for recreation and other uses and figure out how to balance demands
List three things you would like to see the CWC and the Mountain Accord charter do less of or discontinue? Why?	Less catering to the ski areas Less dependence on data/opinions of Forest Service who don't have conservation mentality Less catering to business and property owners in the canyons
Which other associations or organizations should be involved in the CWC work that are not currently involved? What work are they	Friends of the Great Salt Lake - bringing attention to the enormous issues with water loss to the Great Salt Lake

doing that is valuable?	Westside residents and community groups who need the water and recreational resources of the canyons.
-------------------------	---

15	
Please list additional services, tools, or guidelines that the CWC and/or the Mountain Accord Charter should provide, but doesn't currently.	
Please list some of the barriers that you see in balancing the needs of the Central Wasatch with the demands of your organization.	
List three things that you feel have been successfully accomplished since the Mountain Accord was signed in 2015.	
List three things you wish had been accomplished since the Mountain Accord was signed in 2015.	
List three things you would like to see the CWC and the Mountain Accord charter do less of or discontinue? Why?	Is the Little Cottonwood Canyon project that is pushing the gondola part of CWC? I'm worried developers are going to push projects all through the Wasatch that locals really don't want. I would like CWC to insure no one is financially benefiting from these projects. Any benefits should be to the residents of the valley who will probably be footing at least some of the bill and have to live with whatever is developed.
Which other associations or organizations should be involved in the CWC work that are not currently involved? What work are they doing that is valuable?	

16	
----	--

Please list additional services, tools, or guidelines that the CWC and/or the Mountain Accord Charter should provide, but doesn't currently.	
Please list some of the barriers that you see in balancing the needs of the Central Wasatch with the demands of your organization.	Transportation: I'm just not seeing an improvement in UTA ski bus services and wonder if they are not capable of this and should we seek the development of another public transport option - eg. bus service provided by another agency (like in Park City)?
List three things that you feel have been successfully accomplished since the Mountain Accord was signed in 2015.	Bringing stakeholders to the same table; Communicating with us; Liaising between government and canyon users/enthusiasts. I feel well-informed thanks to you!
List three things you wish had been accomplished since the Mountain Accord was signed in 2015.	Improved bus service. Better use of for eg - 3900 South/Wasatch Park and ride; express buses; bus stop at White Pine. More buses at peak times.
List three things you would like to see the CWC and the Mountain Accord charter do less of or discontinue? Why?	
Which other associations or organizations should be involved in the CWC work that are not currently involved? What work are they doing that is valuable?	Guiding companies (we are involved as individual guides only). Maybe even the AMGA

17

List three things that you feel have been successfully accomplished since the Mountain Accord was signed in 2015.	
List three things you wish had been accomplished since the Mountain Accord was signed in 2015.	
List three things you would like to see the CWC and the Mountain Accord charter do less of or discontinue? Why?	
Which other associations or organizations should be involved in the CWC work that are not currently involved? What work are they	

doing that is valuable?	
-------------------------	--

19	
Please list additional services, tools, or guidelines that the CWC and/or the Mountain Accord Charter should provide, but doesn't currently.	They haven't completed some of the goals that both they and Mtn Accord had established.
Please list some of the barriers that you see in balancing the needs of the Central Wasatch with the demands of your organization.	My organization is a great fit with the CWC. We communicate well back & forth; I feel that we have the CWC's support.
List three things that you feel have been successfully accomplished since the Mountain Accord was signed in 2015.	I feel that the CWC has established some successful ways of communicating with residents and organizations. They've established the Stakeholders Council which seems to meet regularly. They certainly hired some effective and responsive staff.
List three things you wish had been accomplished since the Mountain Accord was signed in 2015.	Some of the Mtn Acc goals of documenting visitor use and similar efforts haven't yet been completed.
List three things you would like to see the CWC and the Mountain Accord charter do less of or discontinue? Why?	
Which other associations or organizations should be involved in the CWC work that are not currently involved? What work are they doing that is valuable?	I'm not sure to what degree UDOT and UTA are involved, but I didn't see much of this at meetings I used to attend.

20	
Please list additional services, tools, or guidelines that the CWC and/or the Mountain Accord Charter should provide, but doesn't currently.	drive for additional recreational areas outside BCC, MCC & LCC that will help reduce population explosion pressure on these 3 areas
Please list some of the barriers that you see in balancing the needs of the Central	CWC is powerless to carry out necessary work in an area governed by the Forest which does

Wasatch with the demands of your organization.	not subscribe to the same set of priorities of Mtn Accord
List three things that you feel have been successfully accomplished since the Mountain Accord was signed in 2015.	
List three things you wish had been accomplished since the Mountain Accord was signed in 2015.	
List three things you would like to see the CWC and the Mountain Accord charter do less of or discontinue? Why?	Stop doing short term projects within the jurisdiction of and for the Forest Service. Such effort is not sustainable. Fix the reason the F.S. is not up to the challenge.
Which other associations or organizations should be involved in the CWC work that are not currently involved? What work are they doing that is valuable?	

21	
Please list additional services, tools, or guidelines that the CWC and/or the Mountain Accord Charter should provide, but doesn't currently.	A professional capacity study
Please list some of the barriers that you see in balancing the needs of the Central Wasatch with the demands of your organization.	Competing interests, particularly those that want more development vs those who want to preserved the environment
List three things that you feel have been successfully accomplished since the Mountain Accord was signed in 2015.	Just the existence is an accomplishment. The concept of a regional plan subscribed to by many is a worthy goal. Unfortunately it is very hard to achieve, particularly when some see gains by others as losses by themselves.
List three things you wish had been accomplished since the Mountain Accord was signed in 2015.	Turning Grizzly Gulch into a preserved area. Strictly limiting expansion of lift served skiing in the Wasatch. Creation of national conservation area that bars future development.
List three things you would like to see the CWC and the Mountain Accord charter do	Reduce expectation to those that are realistic.

less of or discontinue? Why?	
Which other associations or organizations should be involved in the CWC work that are not currently involved? What work are they doing that is valuable?	Friends of Little Cottonwood Canyon.

22	
Please list additional services, tools, or guidelines that the CWC and/or the Mountain Accord Charter should provide, but doesn't currently.	
Please list some of the barriers that you see in balancing the needs of the Central Wasatch with the demands of your organization.	I feel like the CWC is trying too hard to come up with a perfect plan rather than taking an incremental approach and making changes/improvements as needed.
List three things that you feel have been successfully accomplished since the Mountain Accord was signed in 2015.	
List three things you wish had been accomplished since the Mountain Accord was signed in 2015.	I wish that year round bus service had been implemented along with vehicle tolls.
List three things you would like to see the CWC and the Mountain Accord charter do less of or discontinue? Why?	
Which other associations or organizations should be involved in the CWC work that are not currently involved? What work are they doing that is valuable?	I recently watched the recording of a panel discussion held at the U by a recently formed student group named Students for the Wasatch. It would be great to include them on the stakeholders council.

23	
Please list additional services, tools, or guidelines that the CWC and/or the Mountain	Transparency. Both the Mountain Accord and CWC have been directed by individuals, both

Accord Charter should provide, but doesn't currently.	explicitly and implicitly to attain a certain goal, which is not sustainable. In other words, we are either committed first and foremost to the principles of conservation to protect our vital watersheds, or we are going to allow greed and development to imperil if not paralyze the Central Wasatch and its vital watersheds.
Please list some of the barriers that you see in balancing the needs of the Central Wasatch with the demands of your organization.	Greed. There are too many developers around the state, but particularly in the Utah State Legislature. They see the public lands in the canyons and elsewhere is simply empty spaces where they could without regulation or concern for the future development moneymaking projects. In 1903 the mayor in Salt Lake City Council upon the advice, in part, of Gifford Pinchot, acquired a significant watershed interest, Pinchot and Salt Lake City's government leaders recognized that water and its availability was essential for the development, public health, and over all well-being. That recognition should be brought forward to the year 2022.
List three things that you feel have been successfully accomplished since the Mountain Accord was signed in 2015.	Gathering representatives of Utah, Wasatch, Summit and Salt Lake counties, to discuss their shared boundaries and providing a focus on the needed steps to protect, preserve and in a limited context develop this significant geographic area.
List three things you wish had been accomplished since the Mountain Accord was signed in 2015.	Transparency. There have been, consistently, too many "private" conversations that were intended to direct the decision-making of the CWC, and/or not allow robust, critical discussion about possible options not attached to moneymaking schemes.
List three things you would like to see the CWC and the Mountain Accord charter do less of or discontinue? Why?	Have fewer private meetings and allow for a more diverse representation in terms of options and decisions to be made. The mountain cord was metaphorized into the CWC. Unfortunately, in that change, our cooperative organization did not take more positive direction than had been part of the problem with the Mountain Accord
Which other associations or organizations should be involved in the CWC work that are not currently involved? What work are they doing that is valuable?	I will speculate that the average age of those involved in the Mountain Accord or the CWC is at least 40 years or bit over. If we put aside our egos, we might look at the younger population who are going to face the problems that we

	have not addressed, or solved each generation has an obligation to engage its successors in positive ways that will have them interested in engaging public problems and attempting to solve them. We have failed in this task.
--	---

24	
Please list additional services, tools, or guidelines that the CWC and/or the Mountain Accord Charter should provide, but doesn't currently.	
Please list some of the barriers that you see in balancing the needs of the Central Wasatch with the demands of your organization.	Utah politicians can be counted upon to ignore CWC positions when it suits them
List three things that you feel have been successfully accomplished since the Mountain Accord was signed in 2015.	
List three things you wish had been accomplished since the Mountain Accord was signed in 2015.	Eliminating a LCC gondola solution, exploring additional LCC transportation options,
List three things you would like to see the CWC and the Mountain Accord charter do less of or discontinue? Why?	
Which other associations or organizations should be involved in the CWC work that are not currently involved? What work are they doing that is valuable?	

25	
Please list additional services, tools, or guidelines that the CWC and/or the Mountain Accord Charter should provide, but doesn't currently.	Education of legislators re: the importance of ALL user groups.

Please list some of the barriers that you see in balancing the needs of the Central Wasatch with the demands of your organization.	The USFS. The Mining Act. Education of legislators.
List three things that you feel have been successfully accomplished since the Mountain Accord was signed in 2015.	Increased awareness.
List three things you wish had been accomplished since the Mountain Accord was signed in 2015.	What is the capacity of the Wasatch and how committed are we to managing to that?
List three things you would like to see the CWC and the Mountain Accord charter do less of or discontinue? Why?	
Which other associations or organizations should be involved in the CWC work that are not currently involved? What work are they doing that is valuable?	Various University research efforts to quantify/monitor canyon capacity/health.

26	
Please list additional services, tools, or guidelines that the CWC and/or the Mountain Accord Charter should provide, but doesn't currently.	More rigorous trail counting and usage monitoring
Please list some of the barriers that you see in balancing the needs of the Central Wasatch with the demands of your organization.	Mike Maughan is the primary barrier to everything.
List three things that you feel have been successfully accomplished since the Mountain Accord was signed in 2015.	Uhh, still waiting. Please get the Mountain Accord (or whatever it is called this week) passed already.

List three things you wish had been accomplished since the Mountain Accord was signed in 2015.	Stop ski resort expansion, protect open spaces (including access to them year round), and provide public transportation year round.
List three things you would like to see the CWC and the Mountain Accord charter do less of or discontinue? Why?	1,2 and 3: Stop bowing down to Mike Maughan.
Which other associations or organizations should be involved in the CWC work that are not currently involved? What work are they doing that is valuable?	Something needs to be done to get the Forest Service to do more. They could probably make money on the canyons while providing much better land stewardship if they just got the ball rolling and stopped making mind-boggling stupid decisions. Why is all the money for parking in upper LCC going to Mike Maughan, and not the Forest Service? Why is none of that money going to stewardship of the National Forest Land and associated access infrastructure? This is ridiculous!

27	
Please list additional services, tools, or guidelines that the CWC and/or the Mountain Accord Charter should provide, but doesn't currently.	
Please list some of the barriers that you see in balancing the needs of the Central Wasatch with the demands of your organization.	Government and economic interests. Our state legislature has proven over and over again that profits are more important than preservation.
List three things that you feel have been successfully accomplished since the Mountain Accord was signed in 2015.	Land swaps, the notion of linking Park City to BCC and LCC
List three things you wish had been accomplished since the Mountain Accord was signed in 2015.	Locking alta ski lifts into an agreement to not pursue development in Grizzly Gulch.
List three things you would like to see the CWC and the Mountain Accord charter do	

less of or discontinue? Why?	
Which other associations or organizations should be involved in the CWC work that are not currently involved? What work are they doing that is valuable?	

28	
Please list additional services, tools, or guidelines that the CWC and/or the Mountain Accord Charter should provide, but doesn't currently.	Having failed at its most important functions, I question the need or viability of the CWC.
Please list some of the barriers that you see in balancing the needs of the Central Wasatch with the demands of your organization.	I don't see the value of membership any longer to my City. It's a big price tag for a small return.
List three things that you feel have been successfully accomplished since the Mountain Accord was signed in 2015.	Good question.
List three things you wish had been accomplished since the Mountain Accord was signed in 2015.	I wish that the CWC would have reached agreement on a recommendation for the LCC MTS which was, in my opinion, its most important task after many years of work and decades of need.
List three things you would like to see the CWC and the Mountain Accord charter do less of or discontinue? Why?	If the CWC even continues at all, it should be pared way down. The membership is not worth the cost to my City.
Which other associations or organizations should be involved in the CWC work that are not currently involved? What work are they doing that is valuable?	Maybe that's the problem with CWC - too many voices that can't/won't ever agree and there doesn't seem to be a middle ground, especially if members are making political decisions rather than reasoned ones.

29	
Please list additional services, tools, or guidelines that the CWC and/or the Mountain	It is not clear that the CWC has figured out an effective way to deal with UDOT and the Forest

Accord Charter should provide, but doesn't currently.	Service. These agencies continue down their own paths, and comments from the CWC seem to have little more effect than comments from any individual.
Please list some of the barriers that you see in balancing the needs of the Central Wasatch with the demands of your organization.	As a representative of the Alta Community I would like to see minor incremental controls and improvements related to recreational use of LCC. Such minor changes include a bigger parking lot at white pine and controlling winter ski traffic with steps like tolling, paying to park, etc. Building a gondola or a four lane highway to the end of LCC does not foster my desire to see the Canyon generally preserved in its current condition for future generations but would be a permanent degradation of LCC.
List three things that you feel have been successfully accomplished since the Mountain Accord was signed in 2015.	Attempting a legislative solution and attempting certain land swaps, though both unsuccessful, were good efforts that should be viewed as accomplishments.
List three things you wish had been accomplished since the Mountain Accord was signed in 2015.	<ol style="list-style-type: none"> 1) A more effective plan for integrating recreational uses of the canyons while preserving the environment. 2) more active advocacy of visitor use (capacity use) in shaping future decisions affecting the canyons, and 3) Mountain Accord principles should be utilized to foster incremental transportation improvements (tolling, carpooling, paid ski resort parking, etc) and CWC should be working to prevent UDOT from proceeding with either road widening or a gondola in LLC - both options being an extreme reaction to traffic issues that could be more resolved in a more environmentally friendly manner using less drastic measures.
List three things you would like to see the CWC and the Mountain Accord charter do less of or discontinue? Why?	
Which other associations or organizations should be involved in the CWC work that are not currently involved? What work are they doing that is valuable?	

30	
Please list additional services, tools, or guidelines that the CWC and/or the Mountain Accord Charter should provide, but doesn't currently.	I see the CWC as platform for engaging the broader community on issues relating to the Central Wasatch and the entity that is leading the way in tackling the really complex issues relating to transportation solutions, environmental protections, and safeguarding the recreational experience the canyons provide. Your task is gargantuan and incredibly complex. Possibly reaching out and involving other entities such as the Wasatch Front Regional Council the University of Utah and tasking them with exploring different issues, engaging others. Get more buy in from other groups. I know of no other local, quasi governmental group that is dedicated to confronting growth issues based on a specific landscape. What the CWC is attempting to do is so important and you need to let people know what you are doing. Toot your horn!
Please list some of the barriers that you see in balancing the needs of the Central Wasatch with the demands of your organization.	I am happy and relieved to be in the mix where The interests of our organization can be heard on a regular basis. The small projects we have been able to accomplish with the help of the CWC also works to further our goals.
List three things that you feel have been successfully accomplished since the Mountain Accord was signed in 2015.	Established the need for moving wilderness boundaries for the BST and seeing that goal come closer to reality with the BSTAA legislation. Established Trails Utah as a partner willing to work with others to tackle and achieve recreational goals and solutions for landscape size areas. Furthering discussions about the importance of trails, trail access and the recreational experience to our quality of life here along the Wasatch Front has been an important achievement.
List three things you wish had been accomplished since the Mountain Accord was signed in 2015.	Some kind of transportation solution, land exchanges, more consensus on these things.
List three things you would like to see the CWC and the Mountain Accord charter do less of or discontinue? Why?	I can't think of any. Sure, it would be great to have fewer meetings but we have to have those to get things communicated and actions agreed upon. I get frustrated that there are so many opinions and positions that won't budge. It definitely seems there are participants who are

	committed to NOT allowing for consensus.
Which other associations or organizations should be involved in the CWC work that are not currently involved? What work are they doing that is valuable?	Wasatch Front Regional Council and other regional planning groups who are already working on issues like transportation. Headwaters group has done a lot of studies that might be helpful. Could be worth consulting them or even using them to conduct certain studies. I definitely think our state universities could be involved further.

31	
Please list additional services, tools, or guidelines that the CWC and/or the Mountain Accord Charter should provide, but doesn't currently.	Solutions. Feel like they are going through the motions and spending a ton of money
Please list some of the barriers that you see in balancing the needs of the Central Wasatch with the demands of your organization.	Salt Lake water in the forest service are teamed up and not allowing access to private property
List three things that you feel have been successfully accomplished since the Mountain Accord was signed in 2015.	Can't think of one
List three things you wish had been accomplished since the Mountain Accord was signed in 2015.	Private property issues and overcrowding in the canyon
List three things you would like to see the CWC and the Mountain Accord charter do less of or discontinue? Why?	Hobnobbing and going through the motions
Which other associations or organizations should be involved in the CWC work that are not currently involved? What work are they doing that is valuable?	Private property rights need a voice

32	
Please list additional services, tools, or	

guidelines that the CWC and/or the Mountain Accord Charter should provide, but doesn't currently.	
Please list some of the barriers that you see in balancing the needs of the Central Wasatch with the demands of your organization.	Big money from developers.
List three things that you feel have been successfully accomplished since the Mountain Accord was signed in 2015.	Community awareness has significantly increased.
List three things you wish had been accomplished since the Mountain Accord was signed in 2015.	An agreement with the Alta ski resort.
List three things you would like to see the CWC and the Mountain Accord charter do less of or discontinue? Why?	
Which other associations or organizations should be involved in the CWC work that are not currently involved? What work are they doing that is valuable?	Community councils--across the Valley, not merely adjacent to the canyons.

33	
Please list additional services, tools, or guidelines that the CWC and/or the Mountain Accord Charter should provide, but doesn't currently.	I believe the mission and goals of the Charter are effective, but a little too general when it comes to protection of the environment.
Please list some of the barriers that you see in balancing the needs of the Central Wasatch with the demands of your organization.	Over development and threats to the watershed. I believe the two preferred alternatives win the LCC EIS are both very damaging, especially the snow sheds.
List three things that you feel have been successfully accomplished since the Mountain Accord was signed in 2015.	Creation of the Stakeholder Council Initiating the Visitor Management Study Initiating this review of the CWC and SC with hopes for improvement and more successes.
List three things you wish had been accomplished since the Mountain Accord was	The Recreation and Conservation Area legislation.

signed in 2015.	Completion of the Environmental Dashboard More coordination between the entities
List three things you would like to see the CWC and the Mountain Accord charter do less of or discontinue? Why?	Less inaction - we need to see results. Less un-cooperation - we need the County's involvement Less procedural acts - more work results.
Which other associations or organizations should be involved in the CWC work that are not currently involved? What work are they doing that is valuable?	

34	
Please list additional services, tools, or guidelines that the CWC and/or the Mountain Accord Charter should provide, but doesn't currently.	I don't recall what the accord says about having to reach "consensus." But I think the CWC should always be wary of when true consensus is going to be very difficult to reach.
Please list some of the barriers that you see in balancing the needs of the Central Wasatch with the demands of your organization.	The Town of Alta is often in a very tricky spot w/r/t Wasatch Mountain politics. We depend on sales tax revenue from ski area visitation and other related businesses, especially our hotels. But environmental stewardship and watershed protection has always been central to the TOA's mission. So when it comes to transportation improvements and major environmental efforts particularly the CWNCRA...we're in a tough spot.
List three things that you feel have been successfully accomplished since the Mountain Accord was signed in 2015.	1. Formation of CWC to provide long-term, collaborative forum for stewardship of central Wasatch Mountains. 2. Over time, evolution of CWC's relationship w/ USFS re: capacity study seems to represent a victory; previously, USFS did not support a capacity study, but now USFS seems to plan to rely on its outcomes. It would really be a coup for the capacity study to yield something USFS supports and acts upon... 3. I have always thought that local jurisdictions/taxing entities whose residents use the canyons should financially support recreation amenities and infrastructure, environmental stewardship, etc. Politically, it has always seemed to me that those kinds of things should be a slam dunk for CWC agencies, whereas trying to balance local political pressure w/r/t transportation or land

	designation stuff against whatever the CWC's current is will always be challenging and very time consuming. At the end of the day, the commitment to fund the CWC is a step in the right direction for CWC agencies and I hope we can all stay at the table financially.
List three things you wish had been accomplished since the Mountain Accord was signed in 2015.	1. I wish the CWC had been able to influence the direction of canyon transportation planning earlier and more definitively, but the way things shook out in terms of CWC's relationship to UDOT didn't allow it. That's not really CWC's fault.
List three things you would like to see the CWC and the Mountain Accord charter do less of or discontinue? Why?	I hope the CWC can be pragmatic about when something is out of reach, and about settling for good outcomes in the absence of an attainable, perfect outcome. For instance, I tend to think that the CWNCRRA could be successful and impactful in a lesser form.
Which other associations or organizations should be involved in the CWC work that are not currently involved? What work are they doing that is valuable?	I hope SLCO comes back to the table. And I hope the CWC's relationship with UDOT and USFS can become more productive. Sometimes I think a stronger partnership generally with the state of Utah would be valuable...but other times I don't trust the state politically.

35	
Please list additional services, tools, or guidelines that the CWC and/or the Mountain Accord Charter should provide, but doesn't currently.	
Please list some of the barriers that you see in balancing the needs of the Central Wasatch with the demands of your organization.	<p>1. The CWC doesn't have jurisdiction over the lands in the canyons, the Federal Government does. The CWC can advise, fund raise and promote but does not have authority to implement.</p> <p>2. The interests of the stakeholders using the canyons is very diverse and stakeholders are often at different ends of the table.</p> <p>3. Decisions and direction should be based upon accurate data and science, not individual preference.</p> <p>4. The circumstances and conditions that have</p>

	<p>changed since the Mountain Accord was created should be recognized and adjustments made.</p> <p>5. There is a disconnect between the CWC commissioners and the Stakeholders Council.</p>
List three things that you feel have been successfully accomplished since the Mountain Accord was signed in 2015.	<p>1 - Short term projects</p> <p>2 - Facilitated discussions between the various stakeholders</p>
List three things you wish had been accomplished since the Mountain Accord was signed in 2015.	
List three things you would like to see the CWC and the Mountain Accord charter do less of or discontinue? Why?	<p>1 - Focus on the issues where consensus exists - drop the issues where it does not exist.</p> <p>2 - Embrace and accommodate recreational growth in a manner that minimizes its impact upon the environment.</p> <p>3 - Work collaboratively with the stakeholders.</p>
Which other associations or organizations should be involved in the CWC work that are not currently involved? What work are they doing that is valuable?	<p>To become an organization that can effectively make progress it seems that CWC needs to be restructured so that each of the following entities and groups of stakeholders has one representative at the table to discuss, negotiate, vote, and implement direction.</p> <p>1. USFS Forest Service</p> <p>2. UDOT</p> <p>3. Law Enforcement - Unified Police Department</p> <p>4. Salt Lake City Watershed</p> <p>5. Town of Alta</p> <p>6. Town of Brighton</p> <p>7. Ski areas & business owners</p> <p>8. Landowners</p> <p>9. UTA</p> <p>10. Environmental Groups</p> <p>11. Municipalities located outside of the Canyons</p> <p>12. Recreational Users</p>

List three things you would like to see the CWC and the Mountain Accord charter do less of or discontinue? Why?	
Which other associations or organizations should be involved in the CWC work that are not currently involved? What work are they doing that is valuable?	

43	
Please list additional services, tools, or guidelines that the CWC and/or the Mountain Accord Charter should provide, but doesn't currently.	the website is a headache of a ton of text. Not super user friendly especially for people just visiting for the first time to get a sense of what the CWC and MA Charter are. It is also super outdated. What is the CWC working on now?
Please list some of the barriers that you see	

in balancing the needs of the Central Wasatch with the demands of your organization.	
List three things that you feel have been successfully accomplished since the Mountain Accord was signed in 2015.	
List three things you wish had been accomplished since the Mountain Accord was signed in 2015.	transit (bus) improvement in the cottonwood canyons and MC, visitor use study that people (UDOT) are required to consider during canyon changes, getting the CW national conservation and recreation areas act passed!
List three things you would like to see the CWC and the Mountain Accord charter do less of or discontinue? Why?	The CWC has great plans and has a great intent. However it seems the CWC does not have the power to implement the decisions. Of course I am mostly referring to the LCC EIS. With years and years of planning and talking about the CC traffic problems, and years of talking about better transit and tolling etc... Nothing came of it. But suddenly UDOT was given the power and authority to make terrible decisions for our communities and canyons. Something needs to be done so that the CWC has power to do something. If the CWC did, then we wouldn't be in this mess. Not saying this is the CWC's fault, just a thought.
Which other associations or organizations should be involved in the CWC work that are not currently involved? What work are they doing that is valuable?	

44	
Please list additional services, tools, or guidelines that the CWC and/or the Mountain Accord Charter should provide, but doesn't currently.	Decision by consensus is not working. A majority vote can move forward, but the minority opinion would be noted (like Supreme Court decisions). No more consensus voting; unanimous is OK though.
Please list some of the barriers that you see in balancing the needs of the Central Wasatch with the demands of your organization.	The CWC requires a lot of time from volunteers. The intense noticing requirements, OPMA website, and so many meetings are somewhat confusing for most volunteers.

List three things that you feel have been successfully accomplished since the Mountain Accord was signed in 2015.	<ol style="list-style-type: none"> 1. Short Term Projects!! 2. Trails Committee is creating collaboration among USFS, SLCo, and Trails advocates 3. The Visitor Use Survey!!
List three things you wish had been accomplished since the Mountain Accord was signed in 2015.	<ol style="list-style-type: none"> 1. Funding for safe and efficient year-round roadside restrooms that are connected to the sewer with potable water. Vault toilets are OK only if they're far away from trailheads. 2. Incremental public transit solutions such as summer buses, parking reservations at resorts on winter weekends, free buses on winter weekends, and no roadside parking year round except in designated spaces. 3. We should have had the Dashboard YEARS AGO. It appears to be a very expensive Emperor's New Clothes Project that keeps getting hyped and funded, but never produced or even tangibly explained.
List three things you would like to see the CWC and the Mountain Accord charter do less of or discontinue? Why?	<ol style="list-style-type: none"> 1. No more intervening in land disputes. Takes too much political capital and expensive time. It should be a matter of cooperation among the landowners involved. 2. Discontinue work on the CWC RNA. If the legislation is submitted again, no telling how it would be amended and administered at the federal level by people who don't understand local needs. Please spend that kind of money locally on worthwhile tangible projects since we have many capable local experts and advocates. 3. Stop promoting a consensus-based voting system because there are consistently extreme viewpoints that prevent progress. A reasonable middle ground can be achieved with majority voting.
Which other associations or organizations should be involved in the CWC work that are not currently involved? What work are they doing that is valuable?	<p>Cottonwood Canyons Foundation is a great group that is not represented. They held a SHC place, but deemed it too political for further participation. They are still a great resource and should be involved a little more.</p> <p>It would be nice to select SHC representatives who are directly involved with Central Wasatch issues so they would have extensive and direct experience with the canyons from the start.</p>

	Tangential interest is not enough to compel them to spend time on a committee or care about what is generally happening (just thinking about the Millcreek Committee's proposal where so many abstained or didn't even come to the meeting).

45	
Please list additional services, tools, or guidelines that the CWC and/or the Mountain Accord Charter should provide, but doesn't currently.	More public awareness of your activities
Please list some of the barriers that you see in balancing the needs of the Central Wasatch with the demands of your organization.	The State Legislature
List three things that you feel have been successfully accomplished since the Mountain Accord was signed in 2015.	Initial agreement that was reached
List three things you wish had been accomplished since the Mountain Accord was signed in 2015.	Implementation of initial agreement, higher public awareness/profile regarding continued efforts, more proactive involvement in current public decision making process
List three things you would like to see the CWC and the Mountain Accord charter do less of or discontinue? Why?	
Which other associations or organizations should be involved in the CWC work that are not currently involved? What work are they doing that is valuable?	

46	
Please list additional services, tools, or guidelines that the CWC and/or the Mountain Accord Charter should provide, but doesn't currently.	I suggest we need to work on separately hiking/biking as the number of speedy bikers is getting dangerously high (I am within 12-18" of being struck by speeding bikers flying around a corner on Mill D/Desolation trails just about every year and the pace is picking up....hikers

	<p>should be able to just hike and look around at God's beauty, enjoy the flowers! Not worry about survival, or the potentially discriminatory aspects against elderly or the deaf who can't jump out of the way fast enough). I'd also suggest thinking about more education for folks re. their impacts at trailheads, e.g., water quality, dogs, horses, noise (we now have people with loud radios on the trails), and I am continuously picking up litter every hike. We also need some simple things that work and can be done to get simple lay-up shot progress moving that will motivate and move forward for the bigger CWC issues. The transportation issues are critical, got some traction, then relative lack of progress. This and other things need a more scientific, data-driven approach. Most likely a 2-step approach of immediate and temporary transportation solution(s) simultaneously with long-term solution. Buses cannot address fast and efficient movement of people, can't get up the hill when they really need to during a snowstorm, take much longer to load/unload, are noisy, pollute etc., making them a poor long term solution. Some folks who make decisions need to have a taxpayer funded trip to see Zermatt.</p>
<p>Please list some of the barriers that you see in balancing the needs of the Central Wasatch with the demands of your organization.</p>	<p>The CWC stakeholders is too large to be functional. It also has 1-2 folks who literally talk so much in the meeting without listening to, or involving others that I believe we are to a point where we can sadly say that they have promoted a dysfunctional committee. That sort of dysfunction begets more dysfunction, probably including losing some stakeholders. E.g., potentially related to or fostering SLCO dropping out and Utah Transportation/UDOT dropping out/not attending, which are both huge losses esp the latter. We don't get data to drive decisions (e.g., there are longterm data on water quality in the canyons available on-line if you dig for it, but instead of discussing those and trends if any vs. visitor numbers going back 30+ years, we have qualitative/arguments about the status and risks to water quality....i suggest we need more data-driven discussions to narrow the range of opinions through anchoring; this problem is present throughout almost all discussions save a noteworthy few).</p>

List three things that you feel have been successfully accomplished since the Mountain Accord was signed in 2015.	Attention to the issues of the Central Wasatch. Development of a proposal for a recreational area. Some movement on improving some trails.
List three things you wish had been accomplished since the Mountain Accord was signed in 2015.	1. Transportation solution for the long term, 2. Transportation solution for the short-term, 3. Improved aesthetics in the canyons (e.g., avoiding more human obstacles be they ugly cell phone towers, more posts, guard rails, etc.)
List three things you would like to see the CWC and the Mountain Accord charter do less of or discontinue? Why?	Holding fruitless discussions that aren't going to move the needle (see above.)
Which other associations or organizations should be involved in the CWC work that are not currently involved? What work are they doing that is valuable?	Please see above. The Stakeholders council is too large and needs shrinkage. But that doesn't mean that others shouldn't be involved, e.g., in some sub/committees. Utah skiing, Boy/Girl Scouts, trails organizations, etc. all could be more involved from what I can see of it. UTA is more needed than ever, including as solutions are proposed; I suggest we should carefully critique proposals as they likely will have at least a few spottable flaws.

47	
Please list additional services, tools, or guidelines that the CWC and/or the Mountain Accord Charter should provide, but doesn't currently.	Actively manage and solve current problems in the Wasatch in coordinated partnership with the USFS, SLCo, UDOT, UTA, and SLC Watershed. I'd like to see a prioritized list of on the ground problems in the Wasatch and how we're going to solve them.
Please list some of the barriers that you see in balancing the needs of the Central Wasatch with the demands of your organization.	Lack of in depth dialog between the competing interests in managing the Central Wasatch. Organizations that oppose any improvements in the Wasatch for the supposed goal of protecting the Wasatch. Organizations like Save Our Canyons that refuse to compromise on their position for a win-win negotiation. Watershed Management that prevents recreation improvements under the false claim that more recreation will degrade and impair the water quality or quantity.
List three things that you feel have been	I assume you mean done by the CWC and

<p>successfully accomplished since the Mountain Accord was signed in 2015.</p>	<p>associated committees? A few small projects and improving the ski bus schedule and timing. There have been a few things started like the the Millcreek FLAP grant, trails planning, environmental dashboard, transportation plan, and visitor use study but I would not call them successfully accomplished yet. The CWC has done a lot of administrative planning but that has not translated to accomplishments on the ground in the mountains.</p> <p>Other than CWC work, we've got some good trail projects completed like Millcreek Upper Pipeline and Rattlesnake BST trails, climbing access Alpenbach loop, Millcreek bike/pedestrian shoulder, and Red Pine trail reroutes. Also ski resort paid parking trials, with mixed results. Funding for Silver Lake Boardwalk replacement, totally independent of the CWC. Also, winter xc ski trails at Spruces Campground, graffiti removal projects, and fire mitigation in Lambs Canyon, again independent of the CWC.</p>
<p>List three things you wish had been accomplished since the Mountain Accord was signed in 2015.</p>	<p>Make the wilderness adjustments for the Bonneville Shoreline Trail, complete the comprehensive trails plan, and put in place needed capital and permanent operations and maintenance funding for trailhead bathrooms, parking, and signage.</p> <p>It would have been nice to complete the transportation improvements along with the full suite of elements in the CWNCRRA legislation, which now infeasible because of the failed the land trades.</p> <p>When it came to transportation planning, I don't think that there was ever a good problem statement agreed upon first, and therefore no consensus was possible on a solution to an unclear problem.</p>
<p>List three things you would like to see the CWC and the Mountain Accord charter do less of or discontinue? Why?</p>	<p>I don't fully understand how adding 8,000 acres of new wilderness and the White Pine 'mountain bike take-away' actually improve and protect the Wasatch beyond the USFS management plan. That large wilderness proposal is preventing the Utah delegation from supporting the rest of the CWNCRRA. Without the ski resort land trades, the CWNCRRA legislation is out of balance and flawed. In the eyes of the USFS, properly managing wilderness is more difficult and</p>

	<p>expensive. Talking with managers of several National Recreation Areas, they do not get more Federal funding and have to do more administrative work.</p> <p>The small projects grants is a nice idea, but the funding is so low that it's a joke.</p>
Which other associations or organizations should be involved in the CWC work that are not currently involved? What work are they doing that is valuable?	The majority land manager- USFS. Maybe also Trust for Public Lands and Utah Open Lands to work on moving private in-holdings into public County or USFS ownership.

48	
Please list additional services, tools, or guidelines that the CWC and/or the Mountain Accord Charter should provide, but doesn't currently.	CWC needs to bring back on board UDOT, USFS, Salt Lake County
Please list some of the barriers that you see in balancing the needs of the Central Wasatch with the demands of your organization.	Transportation is key to all the goals of the CWC. It is a regional commitment that needs more co-ordination and purpose.
List three things that you feel have been successfully accomplished since the Mountain Accord was signed in 2015.	<ol style="list-style-type: none"> 1. The CWC being formed, but it took too long and turned out too bureaucratic. Good solutions were analyzed but failed to get consensus from the public. 2. The LCCEIS and transportation three mode analysis was very well done. Good information that should provide an important dialog for choice. 3. I am skeptical about the need for the NCRA because the funding seems ill defined. But I am glad the CWC is drafting the designation
List three things you wish had been accomplished since the Mountain Accord was signed in 2015.	<ol style="list-style-type: none"> 1. It should not have taken so long to form the CWC 2. The relationship of the Commission with the Stake Holder Committee doesn't seem to resonate. Public input seems to bounce around this process. 3. Inter-agency representation seems to be fractured. I know it is difficult to keep agencies focused on cooperation but they appear to have gone to their respective corners.
List three things you would like to see the	1. Spend less time with the implementation of

CWC and the Mountain Accord charter do less of or discontinue? Why?	<p>the NCRA</p> <p>2. Discontinue the Trails emphasis. Trails are already being designated and implemented by the Forest Service, Cottonwood Canyons Foundation, Town of Brighton and Salt Lake County.</p> <p>3. Focus instead on the transportation solutions which involve regional considerations on transit from the valley to the mouths of the canyons. Present solutions for public transportation and the other concerns of environment, economy and recreation will become evident.</p>
Which other associations or organizations should be involved in the CWC work that are not currently involved? What work are they doing that is valuable?	Get UDOT back in the CWC as well as the Forest Service, UTA and Salt Lake County. Their participation is vital.

49	
Please list additional services, tools, or guidelines that the CWC and/or the Mountain Accord Charter should provide, but doesn't currently.	Clarity about who can do what: USFS, County, SUP holders (resorts, groups), municipalities. it's really hard to think about what can be done when it's nearly impossible to know who has what jurisdictions over what.
Please list some of the barriers that you see in balancing the needs of the Central Wasatch with the demands of your organization.	The United States Forest Service. They seem committed to focusing on issues that don't matter as much to the people/operations using the CW, and conveniently ignoring/rolling over on issues that DO affect users.
List three things that you feel have been successfully accomplished since the Mountain Accord was signed in 2015.	one good accomplishment: help UTA expand bus service. beyond that.....I hate to say it, but I honestly can't think of one other major/notable accomplishment. LCC transportation - UDOT. CWNCRRA legislation - no. Loss of major players in the process - yes.
List three things you wish had been accomplished since the Mountain Accord was signed in 2015.	1) lock in formal ski resort boundaries. 2) address traffic in BCC, 3) create master trails plan for upper Cottonwoods 4) - most important! - figure out a way to get the USFS to participate more consistently and/or help execute on goals/plans/ideas.
List three things you would like to see the CWC and the Mountain Accord charter do	Having meetings without identifying objectives and striving to meet those objectives.

less of or discontinue? Why?	
Which other associations or organizations should be involved in the CWC work that are not currently involved? What work are they doing that is valuable?	the range of participants is sufficiently broad and representative.

50	
Please list additional services, tools, or guidelines that the CWC and/or the Mountain Accord Charter should provide, but doesn't currently.	Transparency and PUBLIC involvement
Please list some of the barriers that you see in balancing the needs of the Central Wasatch with the demands of your organization.	All you care about really is cycling in the canyon. You all have gotten elitist and I don't think that you really care about the environment at all. You want less cars so you all can have more of the road. If you at least admitted that, you would have more credibility. You all are just not honest.
List three things that you feel have been successfully accomplished since the Mountain Accord was signed in 2015.	Nothing. Other than embarrassing yourselves.
List three things you wish had been accomplished since the Mountain Accord was signed in 2015.	Cared about the environment. Cared about multiple interests. Cared about folks who are not just white dudes on bikes.
List three things you would like to see the CWC and the Mountain Accord charter do less of or discontinue? Why?	Itself.
Which other associations or organizations should be involved in the CWC work that are not currently involved? What work are they doing that is valuable?	The general public. How about you go up and actually look at the FAMILIES who use the sites, the actual human beings walking on the trail, kids, dogs, all of it. Not just bikes, bikes, bikes. There are multiple Hispanic families who there on weekends to beat the heat of summer. How many Hispanic folks on the CWC? How many dog owners? How many women? How many not white dudes who bike? I don't know. Maybe start there.

51	
Please list additional services, tools, or guidelines that the CWC and/or the Mountain Accord Charter should provide, but doesn't currently.	Mountain Accord listed aspirational goals and conditions, we've not worked out how they can be achieved.
Please list some of the barriers that you see in balancing the needs of the Central Wasatch with the demands of your organization.	CWC needs to include major player like the Forest Service
List three things that you feel have been successfully accomplished since the Mountain Accord was signed in 2015.	Environmental dashboard, accomplishing short term projects, starting VUM ,
List three things you wish had been accomplished since the Mountain Accord was signed in 2015.	Better relations with the large landowners like Forest Service, Salt Lake County. A visitor capacity analysis. Exploring lower cost easily incorporated traffic solutions like year-round shuttle service for all users.
List three things you would like to see the CWC and the Mountain Accord charter do less of or discontinue? Why?	There needs to be less emphasis in the national legislation and transportation
Which other associations or organizations should be involved in the CWC work that are not currently involved? What work are they doing that is valuable?	Forest Service, UDOT UTA State Government

52	
Please list additional services, tools, or guidelines that the CWC and/or the Mountain Accord Charter should provide, but doesn't currently.	<p>The CWC Board needs to include provisions in the Mt. Accord Charter about respecting & protecting private property rights. Currently, there is only one very brief and contradictory statement limited to Big Cottonwood Canyon. The MA leadership refused to insert any additional language about private property rights before the document was signed.</p> <p>The CWC Board of local Mayors and Council members also need to use their own judgment</p>

	<p>to thoughtfully evaluate the decisions made by the MA Executive Committee, rather than blindly following and promoting those decisions. For example, does it make any sense for the CWC Board to be proposing 8,000 acres of new NCRA "wilderness" in Millcreek Canyon, an urban recreational canyon, when that proposal would financially preclude all future fuel reductions here during an era of intense and increasing wildfires?</p>
<p>Please list some of the barriers that you see in balancing the needs of the Central Wasatch with the demands of your organization.</p>	<p>Environmental activists and others often speak as if only they have an interest in protecting the environment of the canyons. There is an undercurrent implying that private property owners and small businesses are only out for themselves. Please compare the good condition in which private owners maintain their canyon properties vs. the neglect that has gone on for decades in some of the public properties in the canyons.</p> <p>Physically active recreational users often disregard the opportunities that the canyon restaurants provide for local residents, businesses, and the large portion of the population (and their visitors) who are not as physically able or active. Too often they focus solely on promoting their own activities while showing little regard for the interests of others.</p>
<p>List three things that you feel have been successfully accomplished since the Mountain Accord was signed in 2015.</p>	<ol style="list-style-type: none"> 1. Providing a forum in the Stakeholders Council for people with diverse interests to discuss issues of importance to them and the Wasatch Mountains/Canyons. 2. Providing careful evaluation and thoughtful input for the transportation alternatives in Little Cottonwood Canyon. 3. Promoting short-term projects that actually improve the environment and the facilities available to its visitors.
<p>List three things you wish had been accomplished since the Mountain Accord was signed in 2015.</p>	<ol style="list-style-type: none"> 1. I wish that the CWC had used its resources and influence to raise funds and develop programs to quickly reduce the large accumulation of woody fuels in the canyons and to develop other means of preventing wildfires. The threat keeps getting greater and closer; and if the local canyons burn, like so many others have, all of the local residents,

	<p>governments, and interest groups will lose bigtime. The watershed will take several years to recover, and the environment may take several decades.</p> <p>2. I wish that the CWC had used its resources and influence to raise funds and develop programs to quickly reduce the large accumulation of woody fuels in the canyons and to develop other means of preventing wildfires!</p> <p>3. I WISH THAT THE CWC HAD USED ITS RESOURCES AND INFLUENCE TO RAISE FUNDS AND DEVELOP PROGRAMS TO QUICKLY REDUCE THE LARGE ACCUMULATION OF WOODY FUELS IN THE CANYONS AND TO DEVELOP OTHER MEANS OF PREVENTING WILDFIRES.</p>
List three things you would like to see the CWC and the Mountain Accord charter do less of or discontinue? Why?	<p>1. Slavishly following and promoting the decisions of the 2015 MA Executive Committee without reevaluating them based on additional input, thought and judgment.</p> <p>2. Focusing primarily on the interests of physically active recreational users rather than all of the local residents and visitors who use and enjoy the Wasatch Canyons.</p> <p>3. Continuing to spend taxpayer dollars on lobbying for the NCRA when the majorities in both the State Legislature and the Salt Lake County Council adamantly oppose transferring even more control over the National Forest from the local Forest Supervisor, who is personally accessible, to faceless federal people in Washington, D.C. who are not.</p>
Which other associations or organizations should be involved in the CWC work that are not currently involved? What work are they doing that is valuable?	<p>Walking and hiking with dogs are primary recreational activities in Millcreek Canyon. Yet both officers of FIDOS, the local dog advocacy organization, were denied a seat on the Stakeholders Council in 2021 even though they have actively participated in the Millcreek Committee for 2-1/2 years. The bias against dogs and their owners needs to be stopped.</p> <p>Cabin owners and smaller property owners need greater representation on the Stakeholders Council. Homeowners from the Valley do not represent property owners in the</p>

	Canyons and often speak against their interests.

53	
Please list additional services, tools, or guidelines that the CWC and/or the Mountain Accord Charter should provide, but doesn't currently.	
Please list some of the barriers that you see in balancing the needs of the Central Wasatch with the demands of your organization.	The makeup of the stakeholders commission is pretty biased. It feels like the stakeholders committee worked for the retired director, and not vice versa.
List three things that you feel have been successfully accomplished since the Mountain Accord was signed in 2015.	Environmental protections have increased.
List three things you wish had been accomplished since the Mountain Accord was signed in 2015.	Despite there being some environmental protections, I feel like ski resorts get way too many considerations. I'm not really happy with the "balance" of environmental protections and big business.
List three things you would like to see the CWC and the Mountain Accord charter do less of or discontinue? Why?	It feels like an old white boys club. Very insular. Discontinue that, please. My experience with some members is that they lack a global view and ignore other people's interests.
Which other associations or organizations should be involved in the CWC work that are not currently involved? What work are they doing that is valuable?	Not sure. I'd say Save our Foothills and Millcreek FIDOS, but you'd probably laugh. Trails are important, and we need more, but SLC is shredding their foothills without following best practices and having no true vision or knowledge of what is wanted or appropriate. SOF was formed to change that. Millcreek FIDOS was formed to increase access to humans who want to responsibly recreate/exercise with their dogs. We are perhaps the most underserved and underrepresented outdoor recreation group in the Wasatch

54	
Please list additional services, tools, or guidelines that the CWC and/or the Mountain Accord Charter should provide, but doesn't currently.	I feel overwhelmed when I get emails from you. Short summaries would be helpful with references for more detail on specific subjects. (Yes, you do offer that, but the short summaries are missing).
Please list some of the barriers that you see in balancing the needs of the Central Wasatch with the demands of your organization.	We have a state legislature that isn't responsive to the people of this state
List three things that you feel have been successfully accomplished since the Mountain Accord was signed in 2015.	Keeping us informed. Soliciting feedback

----	--

Please list additional services, tools, or guidelines that the CWC and/or the Mountain Accord Charter should provide, but doesn't currently.	Greater distribution of proposed solutions to increase public awareness.
Please list some of the barriers that you see in balancing the needs of the Central Wasatch with the demands of your organization.	Balance in determining the best transportation solutions with those who do not want the environment disturbed and providing the most efficient method for access.
List three things that you feel have been successfully accomplished since the Mountain Accord was signed in 2015.	1) Creating a forum to find solutions to access the canyons recreation areas. 2) Bringing together various interested public, organization and government parties together. 3) Raising awareness that solutions need to be discussed, decided on and implemented to maintain the beauty of the Canyons and public access.
List three things you wish had been accomplished since the Mountain Accord was signed in 2015.	It is great that road from Guardsman Pass to Park City / Heber and road from Cascade Springs to Midway have been paved, as well as resurfacing of Alpine Loop road. Looking forward to speedy implementation of transportation solutions that will allow for high volume of skiers access to ski resorts to minimize number of vehicles traveling in canyons. Also any solution should allow for stops at various trailheads in canyons for hikers and snowshoers. Any solution must be at no cost to users of services to encourage their use.
List three things you would like to see the CWC and the Mountain Accord charter do less of or discontinue? Why?	
Which other associations or organizations should be involved in the CWC work that are not currently involved? What work are they doing that is valuable?	

62	
Please list additional services, tools, or guidelines that the CWC and/or the Mountain Accord Charter should provide, but doesn't currently.	Add a scientist (perhaps someone with the Great Salt Lake Institute) to decision making group. Climate change, atmospheric warming and the drying up of the GSL could make skiing & snow based activities obsolete.

Please list some of the barriers that you see in balancing the needs of the Central Wasatch with the demands of your organization.	The public suffers from lack of understanding is science. Ski resorts are elitist and their influence should be lessened. The needs of non-traditional public land users should be sought out and included.
List three things that you feel have been successfully accomplished since the Mountain Accord was signed in 2015.	Getting a diverse group to work together. Producing a document the public can review. Reaching out to improve public participation in land use planning process.
List three things you wish had been accomplished since the Mountain Accord was signed in 2015.	Protection for overused public lands. Insuring high water quality and quantity standards. Making the public understand that an efficient transportation plan and system is paramount.
List three things you would like to see the CWC and the Mountain Accord charter do less of or discontinue? Why?	
Which other associations or organizations should be involved in the CWC work that are not currently involved? What work are they doing that is valuable?	GSL Institute: issues dealing with changing ecological systems including less powder snow (Bonnie Baxter - Westminster): how will climate change Utah's ski industry. The GSL Bird Festival - work with them (Davis County) to include field trips up canyon(s) looking at potential impacts to birds & other wildlife. Might get more folks involved the process. Involve USU Environmental Studies professors (and U of U, BYU).

63	
Please list additional services, tools, or guidelines that the CWC and/or the Mountain Accord Charter should provide, but doesn't currently.	Environmental Dashboard. Fire Reduction and mitigation strategies. Emergency Communication infrastructure.
Please list some of the barriers that you see in balancing the needs of the Central Wasatch with the demands of your organization.	There is almost no respect or concern for private property owners or businesses other than ski resorts. Almost all representation and focus is for recreation and environment even going so far as to exclude private property owners.
List three things that you feel have been successfully accomplished since the	1. CWC created with elected officials participating

Mountain Accord was signed in 2015.	
List three things you wish had been accomplished since the Mountain Accord was signed in 2015.	<ol style="list-style-type: none"> 1. An effective Transportation Plan for Little and Big Cottonwood Canyons 2. Improvements to visitor facilities such as toilets and trailhead maintenance and parking 3. The Environmental Dashboard has never been released
List three things you would like to see the CWC and the Mountain Accord charter do less of or discontinue? Why?	<ol style="list-style-type: none"> 1. Stop spending taxpayers \$\$\$ on high-priced consultants and studies year after year after year. 2. Stop spending \$\$\$, time and effort to create a new NCRA in Millcreek Canyon. This area is more a suburban forest than a 'wilderness'.
Which other associations or organizations should be involved in the CWC work that are not currently involved? What work are they doing that is valuable?	Dog advocates to help set policies, rules and regulations that will harmonize with the needs of other recreation activities.

64	
Please list additional services, tools, or guidelines that the CWC and/or the Mountain Accord Charter should provide, but doesn't currently.	Stop the gondola and preserve the beauty
Please list some of the barriers that you see in balancing the needs of the Central Wasatch with the demands of your organization.	Do not cater to greed and private interests, work to preserve the beauty and grandeur of the canyons
List three things that you feel have been successfully accomplished since the Mountain Accord was signed in 2015.	Bus service improved slightly, parking reservations has helped traffic, high t intersections have helped traffic
List three things you wish had been accomplished since the Mountain Accord was signed in 2015.	Year round bus service, free bus service, longer hours for bus service
List three things you would like to see the CWC and the Mountain Accord charter do less of or discontinue? Why?	Stop trying to push the gondola, it is a disaster. Prohibit parking on the road, it causes delays due to u-turns. Stop catering to the ski areas, they are private for profit businesses

Which other associations or organizations should be involved in the CWC work that are not currently involved? What work are they doing that is valuable?	Save our canyons, friends of alta, nature conservancy
--	---

65	
Please list additional services, tools, or guidelines that the CWC and/or the Mountain Accord Charter should provide, but doesn't currently.	Remove economic development and replace with preservation of canyons
Please list some of the barriers that you see in balancing the needs of the Central Wasatch with the demands of your organization.	
List three things that you feel have been successfully accomplished since the Mountain Accord was signed in 2015.	Bringing economic development desire to light and by whom
List three things you wish had been accomplished since the Mountain Accord was signed in 2015.	Decrease development, future resident strong input, regulate canyon capacity, save canyons
List three things you would like to see the CWC and the Mountain Accord charter do less of or discontinue? Why?	Stop push of ease of access, regulate current access, future preservation care and plan
Which other associations or organizations should be involved in the CWC work that are not currently involved? What work are they doing that is valuable?	

66	
Please list additional services, tools, or guidelines that the CWC and/or the Mountain Accord Charter should provide, but doesn't currently.	
Please list some of the barriers that you see	Private businesses operating in a critical

in balancing the needs of the Central Wasatch with the demands of your organization.	watershed not recognizing the limitations of this fragile environment, and the endless pressure to 'grow', rather than be sustainable
List three things that you feel have been successfully accomplished since the Mountain Accord was signed in 2015.	Kept further resort expansion out of Grizzly Gulch Emphasizing a broad transportation plan over a single canyon emphasis Making the public concerns and desires known to canyon corporations
List three things you wish had been accomplished since the Mountain Accord was signed in 2015.	Take a harder line on the desires of local priorities over endless tourism pressure more movement on the national monument designation
List three things you would like to see the CWC and the Mountain Accord charter do less of or discontinue? Why?	
Which other associations or organizations should be involved in the CWC work that are not currently involved? What work are they doing that is valuable?	

67	
Please list additional services, tools, or guidelines that the CWC and/or the Mountain Accord Charter should provide, but doesn't currently.	
Please list some of the barriers that you see in balancing the needs of the Central Wasatch with the demands of your organization.	
List three things that you feel have been successfully accomplished since the Mountain Accord was signed in 2015.	Improved communications regarding the welfare of the Canyons which has raised awareness of some of the issues.
List three things you wish had been accomplished since the Mountain Accord was signed in 2015.	

List three things you would like to see the CWC and the Mountain Accord charter do less of or discontinue? Why?	
Which other associations or organizations should be involved in the CWC work that are not currently involved? What work are they doing that is valuable?	

68	
Please list additional services, tools, or guidelines that the CWC and/or the Mountain Accord Charter should provide, but doesn't currently.	
Please list some of the barriers that you see in balancing the needs of the Central Wasatch with the demands of your organization.	
List three things that you feel have been successfully accomplished since the Mountain Accord was signed in 2015.	Transportation options, recreation area tradeoffs, public input
List three things you wish had been accomplished since the Mountain Accord was signed in 2015.	It seems like a never-ending process without closure, rehashing the same issues over and over.
List three things you would like to see the CWC and the Mountain Accord charter do less of or discontinue? Why?	Too many emails and meetings. Just give us the high points and notify us when major decisions are at stake.
Which other associations or organizations should be involved in the CWC work that are not currently involved? What work are they doing that is valuable?

79	
Please list additional services, tools, or guidelines that the CWC and/or the Mountain Accord Charter should provide, but doesn't currently.	Keeping cars from parking on canyon roads' shoulders, making cycling unsafe. Focus on electric or natural gas buses to improve non-car transport.
Please list some of the barriers that you see in balancing the needs of the Central Wasatch with the demands of your organization.	I don't have an organization, but corrupt government seems to be the biggest barrier; dollar-driven choices
List three things that you feel have been successfully accomplished since the Mountain Accord was signed in 2015.	More public awareness of canyon issues; comprehensive transport analysis; ...
List three things you wish had been accomplished since the Mountain Accord was signed in 2015.	Car-free canyon transport opportunities; reign in the ski areas' power over the canyons; reign in mouth-of-the-canyon residents' influence on canyon use (it's for everyone)
List three things you would like to see the CWC and the Mountain Accord charter do less of or discontinue? Why?	
Which other associations or organizations should be involved in the CWC work that are not currently involved? What work are they doing that is valuable?	

80	
Please list additional services, tools, or guidelines that the CWC and/or the Mountain Accord Charter should provide, but doesn't currently.	less overhead, focus where coordination required, facilitate funding actual projects & programs
Please list some of the barriers that you see in balancing the needs of the Central Wasatch with the demands of your organization.	Transportaion of people not cars; comprehensive transporation & recreation plan with O&M funding to allow quality natural recreation experience while maintaining if not

	improving environmental quality and preservation (water quality, forest fuel management, habitat, quality user experience).
List three things that you feel have been successfully accomplished since the Mountain Accord was signed in 2015.	Things haven't got worse? The jurisdictions are cooperating/talking. Think these could have been achieved anyway without CWC. If the federal lands bill is still relevant then furthering that is notable.
List three things you wish had been accomplished since the Mountain Accord was signed in 2015.	Signing of the federal legislation to give resorts certainty and focus on smart resort base management while preserving natural open space. Funding adaptive people transportation and limit vehicle use in canyon to safe carrying capacity (HOV only at peak times, reservation systems to reduce cars while getting more folks up safely and within resort and canyon capacities for sanitation and preserve environmental health, beauty and user experience. Fund projects and facilities to improve environment/water quality and recreational experience, safety.
List three things you would like to see the CWC and the Mountain Accord charter do less of or discontinue? Why?	Spending lots of money on overhead/meetings. Just meet and coordinate projects rather than create bureaucracy.
Which other associations or organizations should be involved in the CWC work that are not currently involved? What work are they doing that is valuable?	More/better fire fuels management support/funding with USFS and County/State.

81	
Please list additional services, tools, or guidelines that the CWC and/or the Mountain Accord Charter should provide, but doesn't currently.	
Please list some of the barriers that you see in balancing the needs of the Central Wasatch with the demands of your organization.	
List three things that you feel have been successfully accomplished since the	Provided income and retirement benefits and office space to Ralph Becker

Mountain Accord was signed in 2015.	
List three things you wish had been accomplished since the Mountain Accord was signed in 2015.	Better coordination& solution resolution between agencies Ski resorts pay for majority of transportation to resorts. Cities & state coordinate parking and feeder system for trans solution. Reduce the outlandish expenses for the organization and have funding go to small projects
List three things you would like to see the CWC and the Mountain Accord charter do less of or discontinue? Why?	The organization was designed to be a coordinating group, not its own sustaining business entity.
Which other associations or organizations should be involved in the CWC work that are not currently involved? What work are they doing that is valuable?	Break down the barriers between agencies so there can be a solution to move forward. Every agencies policies somehow stymie any forward momentum. Look especially at the Forest Service! who is really in charge of decisions regarding functioning toilets including cleaning that reflect that we really are concerned with our water quality and not just what is the cheapest solution. Does SLPU really care about water quality?

82	
Please list additional services, tools, or guidelines that the CWC and/or the Mountain Accord Charter should provide, but doesn't currently.	Access to Utah legislature
Please list some of the barriers that you see in balancing the needs of the Central Wasatch with the demands of your organization.	
List three things that you feel have been successfully accomplished since the Mountain Accord was signed in 2015.	Public awareness sensitivity to environment planning

Please list some of the barriers that you see in balancing the needs of the Central Wasatch with the demands of your organization.	
List three things that you feel have been successfully accomplished since the Mountain Accord was signed in 2015.	Transparency
List three things you wish had been accomplished since the Mountain Accord was signed in 2015.	Limit private acquisition of land
List three things you would like to see the CWC and the Mountain Accord charter do less of or discontinue? Why?	
Which other associations or organizations should be involved in the CWC work that are not currently involved? What work are they doing that is valuable?	

84	
Please list additional services, tools, or guidelines that the CWC and/or the Mountain Accord Charter should provide, but doesn't currently.	CWC should commit to preserving access, currently very limited mainly to Millcreek Canyon, for people who like to hike and exercise with their dogs.
Please list some of the barriers that you see in balancing the needs of the Central Wasatch with the demands of your organization.	
List three things that you feel have been successfully accomplished since the Mountain Accord was signed in 2015.	
List three things you wish had been accomplished since the Mountain Accord was signed in 2015.	Protection of areas for dog walking and hiking.
List three things you would like to see the CWC and the Mountain Accord charter do less of or discontinue? Why?	
Which other associations or organizations should be involved in the CWC work that are not currently involved? What work are they doing that is valuable?	

85	
Please list additional services, tools, or guidelines that the CWC and/or the Mountain Accord Charter should provide, but doesn't currently.	The CWC needs to ensure truly equitable access for ALL user groups. Up to now there is one user-group that stands out, who seems to run the show. If you look at the "suggested legislative changes" on the CWNCRA almost every suggestion favors mountain bikers, not only over other user groups but extraordinarily over environmental protections as well! Why should they have access into protected federal lands beyond what is considered appropriate under existing environmental protection laws in federally designated protected lands? These are public lands, that is they belong to us all. Nothing in the legislation favors any of the other

	<p>user groups. This is a reflection of the imbalance of representatives who sit on the stakeholders council. This council is supposed to be representative of all user groups; it clearly is not.</p>
<p>Please list some of the barriers that you see in balancing the needs of the Central Wasatch with the demands of your organization.</p>	<p>As a member of the public it seems obvious that tourist dollars generated from tourist activities centered in the canyons and along the range will not be curtailed. That would be impractical and unrealistic. But it is possible to prevent excessive further degradation to these public lands if comprehensive plans are put into place, based on sound scientific studies and truly diverse public input. This means collecting input from a more diverse group than just those with a direct connection to players in the CWC, and reaching out to people who may not have access to the internet. Education is a huge piece of this puzzle and I don't see any reference in any of the CWC work that focuses on that important piece of environmental protection or policy.</p>
<p>List three things that you feel have been successfully accomplished since the Mountain Accord was signed in 2015.</p>	<p>Greater awareness of the congestion in the canyons due to increased traffic and use. (While this is in the news I am not sure that the Mountain Accord is responsible for this awareness, rather it is due to the reality on the ground.)</p> <p>Desire to reign in ski area expansion</p> <p>Desire to increase wilderness area land areas and, hence, environmental protections</p>
<p>List three things you wish had been accomplished since the Mountain Accord was signed in 2015.</p>	<p>EDUCATION EDUCATION EDUCATION! In land use and environmental stewardship succinct information can go a long way in solving equitability issues as well as environmental protections.</p> <p>Create truly equal access for all user groups, not just favor activities that are reserved for people with the ability and knowhow to access CWC leadership and, therefore, have a louder voice.</p> <p>Come up with creative, doable ideas to help manage the traffic of cars in the canyons, ie finding alternative transportation modes that don't involve damaging the canyons. They should stop the LCC gondola fiasco and should have nipped that before the idea became so</p>

	entrenched.
List three things you would like to see the CWC and the Mountain Accord charter do less of or discontinue? Why?	It would go a long way if the CWC leadership were really interested in incorporating a diverse spectrum of user groups. This would generate new ideas, provide greater insights, and result in the crafting of solutions that truly consider the needs of all users. This would also facilitate protecting the canyon environments which must be the most crucial consideration when determining whether recreational activities are even appropriate in specific areas. So I would like to see the CWC focus less on the money trail.
Which other associations or organizations should be involved in the CWC work that are not currently involved? What work are they doing that is valuable?	One of the biggest user groups does not appear to have specific representation on the stakeholders council. Dog-owners need places to recreate with their off-leash canine friends. Access of off-leash opportunities along the Wasatch needs to be increased, supported and accommodated. It is important to have a representative of FIDOS on the stakeholders council.

86	
Please list additional services, tools, or guidelines that the CWC and/or the Mountain Accord Charter should provide, but doesn't currently.	
Please list some of the barriers that you see in balancing the needs of the Central Wasatch with the demands of your organization.	There has been very little, if anything, accomplished with regard to protecting backcountry access and use. No land bill, no land exchanges, no new protections. In fact, the new parking policies in upper lcc only make access less available to non-resort patrons, despite Alta ski area operating largely on public lands.
List three things that you feel have been successfully accomplished since the Mountain Accord was signed in 2015.	Honestly, not as much as I wish. Virtually none of the states goals of Mtn Accord have been achieved other than CWC being created and funding itself.
List three things you wish had been accomplished since the Mountain Accord was	1. Land bill 2. Land exchanges to put private land (ie. Cardiff fork) lands into public domain. 3. Environmental dashboard.

signed in 2015.	
List three things you would like to see the CWC and the Mountain Accord charter do less of or discontinue? Why?	I would like to see the cwc stop wasting time in actions that do not help with the stated objectives of Mtn Accord.
Which other associations or organizations should be involved in the CWC work that are not currently involved? What work are they doing that is valuable?	

87	
Please list additional services, tools, or guidelines that the CWC and/or the Mountain Accord Charter should provide, but doesn't currently.	
Please list some of the barriers that you see in balancing the needs of the Central Wasatch with the demands of your organization.	commercial ventures and developers
List three things that you feel have been successfully accomplished since the Mountain Accord was signed in 2015.	awareness, more interest in preserving the Wasatch in a more natural state, legal action for environmental protection
List three things you wish had been accomplished since the Mountain Accord was signed in 2015.	permanent boundaries for ski areas
List three things you would like to see the CWC and the Mountain Accord charter do less of or discontinue? Why?	
Which other associations or organizations should be involved in the CWC work that are not currently involved? What work are they doing that is valuable?	

88	
Please list additional services, tools, or guidelines that the CWC and/or the Mountain Accord Charter should provide, but doesn't currently.

A RESTATEMENT AND RECOMMITMENT OF THE VALUES AND PRINCIPLES OF THE MOUNTAIN ACCORD

March 2, 2022

The Central Wasatch mountain range is beloved by those of us who live along both sides of its ridgeline. We live, we work, we hike, we bike, we ski, we discover wildlife, we ramble and amble and find solitude amid one of the world's most spectacular backyards. And even as these mountains are a source of peace and spiritual renewal, they are also our source for water and, literally, the reason life is possible in Utah's arid climate.

Amid threats from population growth and related increases in summer and winter use of the canyons, climate change, development pressures, and piecemeal decision-making, we know that we need to take action now to ensure we have clean water, a thriving economy, and an exemplary quality of life — not only for current generations but for those that come after us. The time has come to truly consider the future of this precious landscape.

By adopting this Restatement and Recommitment of the Values and Principles of the Mountain Accord (the "Restatement and Recommitment"), we hereby state the values and principles that we hold as foundational to any actions affecting the Central Wasatch Mountain range. This Restatement and Recommitment does not restate the negotiated outcomes of the Mountain Accord charter. Implementation of negotiated outcomes of the Mountain Accord charter remains a priority of the Central Wasatch Commission to the greatest extent achievable. We are committed to promoting transparent decision-making processes with robust public engagement that result in consensus-based solutions to the challenges facing our canyons.

We urge public and private entities to heed these principles as they contemplate policies or actions within or directly affecting lands within the Central Wasatch.

RECITALS

WHEREAS, the Mountain Accord Charter, developed through an extensive two-year public engagement and consensus-building process and signed in August 2015 by the Mountain Accord Executive Board and over 150 stakeholders, represents a consensus position of the signers of the values and principles to guide decisions relating to the Central Wasatch mountains and also stated specific negotiated interrelated actions stakeholders committed to pursuing in order to resolve specific challenges and still maintain the delicate balance of priorities for the Central Wasatch mountain range;

WHEREAS, the Central Wasatch Commission is a governing body whose purpose is to serve as a multi-issue, cross-jurisdictional, stakeholder-inclusive forum created pursuant to the Mountain Accord charter and charged with developing recommended solutions with consensus support consistent with the values and principles embodied in the Mountain Accord charter to challenges facing the Central Wasatch, including implementing the negotiated outcomes of the Mountain Accord charter, and whereas the Central Wasatch Commission created the Central Wasatch Commission Stakeholders Council to receive frequent and ongoing input with the numerous non-governmental stakeholders of the Central Wasatch mountain range;

WHEREAS, the Central Wasatch Commission seeks to renew and restate its commitment to the values and principles memorialized in the 2015 Mountain Accord Charter as it works in coordination with other governmental and non-governmental partners to take desired actions

and implement solutions consistent with the principles and values of the Mountain Accord Charter that maintain the delicate balance of priorities for the Central Wasatch mountain range;

WHEREAS, the Central Wasatch Mountains are a treasured natural resource and we place a high value on the natural environment, wilderness qualities, watershed health, and aesthetics of these mountains;

WHEREAS, the Central Wasatch Mountains are the primary source of drinking water for Utah's growing urban populations and are the reason the region flourishes in Utah's arid climate;

WHEREAS, the Central Wasatch Mountains are a vital ecological unit and policies governing the unit should work together in harmony, not diverge from one another, in the interest of improving the health of the land and our watersheds;

WHEREAS, the mountain environment offers diverse recreational experiences that promote active lifestyles and enhances the quality of life in the region;

WHEREAS, the Central Wasatch Mountains are an invaluable asset to the local and state economies, a beloved amenity for residents and companies that choose to locate in the region, and a key component of Utah's tourism industry;

WHEREAS, population growth and related increases in summer and winter use of the canyons, climate change, recreation use, traffic congestion, economic development pressures, land-use conflicts, and piecemeal and fragmented decision-making processes threaten the future health and viability of the mountains;

WHEREAS, the Central Wasatch Commission was created by interlocal agreement as a consensus-based body comprised of elected representatives from government and non-elected representatives of governmental entities with responsibilities in the Central Wasatch Mountains to engage with federal agencies, businesses, landowners, environmental, and recreation interests in and adjacent to both sides of the Mountains;

WHEREAS, the Central Wasatch Commission places a high value on public engagement, transparency, and the participation of all stakeholders;

WHEREAS, the Central Wasatch Commission has engaged commercial interests and private property owners as willing participants;

WHEREAS, the Central Wasatch Commission has brought together stakeholders and experts to consider future trends, visions, and goals for the Central Wasatch Mountains;

WHEREAS, the Central Wasatch Commission includes a Stakeholders Council and other processes for public comment and to collect feedback;

WHEREAS, public feedback reflects a desire to protect the integrity of this iconic landscape for its ecological values and outstanding opportunities for dispersed and commercial recreation; and,

WHEREAS, the Central Wasatch Commission received and incorporated public comment into this Restatement and Recommitment.

Now, therefore, we agree as follows:

This Restatement and Recommitment represents the consensus positions of the Central Wasatch Commission. It serves as a formal recommendation and documented reference for current and future decision-makers at the private, local, state, and federal levels.

The intent of the Restatement and Recommitment is to benefit current and future generations by establishing an integrated, comprehensive, landscape-scale framework for the future of the Central Wasatch Mountains that provides for the long-term protection of the region's water, lands, environment, recreational opportunities, and economic prosperity. We support a transportation system that serves these values.

We agree to pursue federal, state, local, and private action for land designations, voluntary land exchanges, conservation easements, and transit/transportation solutions where agreement is reached among stakeholders to support such actions which are consistent with the values and principles of this Restatement and Recommitment. We recognize that action on transit/transportation solutions would likely require corresponding action developed through a public consensus-building process relating to land designations, voluntary land exchanges, or conservation easements in order to maintain the delicate balance of principles and values sought by the public and to protect the future health and viability of the mountains.

We recognize that while certain actions may be pursued, there are related conditions that have been outlined previously in the Mountain Accord or may be subsequently developed that must occur in conjunction with any contemplated federal, state, local, or private action as a condition for support for such action, in order to maintain the delicate balance of principles and values sought by the public and to protect the future health and viability of the mountains.

We agree to support this Restatement and Recommitment and to work diligently and in good faith to adhere to the values and principles herein – both as a whole and within our respective jurisdictions.

Specifically, we restate these principles to guide decisions relating to the Central Wasatch:

- i. A natural ecosystem that is conserved, protected, and restored such that it is healthy, functional, and resilient for current and future generations.
- ii. A recreation system that provides a range of settings, recognizes current and increasing demand, and accommodates an environmentally sustainable level of use by encouraging the majority of use at thoughtfully designed locations (nodes) with convenient access, while protecting solitude, nature, and other backcountry values.
- iii. A sustainable, safe, efficient, multi-modal transportation system that provides year-round choices to residents, visitors, and employees; connects to the overall regional network; serves a diversity of commercial and dispersed recreation uses; is integrated within the fabric of community values and lifestyle choices; supports land-use objectives, and is compatible with the unique environmental characteristics of the Central Wasatch.

- iv. Broadly shared economic prosperity that enhances the quality of life and preserves natural and scenic resources and infrastructure that is attractive, sustainable, and provides an opportunity for visitors and residents.

We seek the following outcomes:

- i. To protect watersheds and ensure existing and future culinary water resources are reliable and of high quality. To preserve lands that provide critical terrestrial and aquatic habitats, corridors for wildlife, natural and scenic values, recreational opportunities and to restore degraded lands.
- ii. To designate certain U.S. Forest Service lands in the study area for additional federal protections. To bind ski resort boundaries on public land within the federal designation.
- iii. To reduce the patchwork nature of public and private land ownership so that the U.S. Forest Service is managing undeveloped rather than developed lands. To consolidate U.S. Forest Service lands, to obtain inholdings, and to transfer privately held upper watershed lands with environmental and recreation values from willing sellers into public ownership.
- iv. To encourage development patterns that reduce sprawl and preserve open space, sensitive environments, community character, and quality of life in the mountains.
- v. To focus future development in urban areas and recreation nodes near transit corridors.
- vi. To limit additional mountain development in the Cottonwood Canyons to clustered nodes within existing disturbed areas at the bases of the existing ski areas.
- vii. To respect the rights of private property owners to own, use and develop their property as prescribed by existing local laws and ordinances.
- viii. To the extent mountain property is developed, we agree to promote development with the following characteristics:
 - 1. thoughtfully designed to complement the natural setting and maintain open spaces,
 - 2. compatible with the communities as defined in local land-use plans and ordinances, and
 - 3. focused around transit stations to encourage walking, biking, and transit use, and to reduce single-occupancy automobile use.
- v. To seek plans, ordinances, and policies that support the land-use intentions and intended outcomes outlined in this section for the Cottonwood Canyons through cooperation with local land-use authorities, environmental organizations, property owners, businesses, and other interested parties.
- vi. To design a balanced recreation system with a wide variety of recreational opportunities for residents and visitors that will reduce the degradation of natural resources caused by such uses. To address the increasing visitor uses, and their impacts on the environment and respect competitor users in limited terrain. To focus recreation infrastructure at strategically located and designed nodes, to provide convenient access at these nodes, to provide appropriate restrooms at roadside trailheads, and to accommodate and manage growth in recreation uses. To integrate trail access with transit solutions.
- vii. To create transportation connections between the economic and population centers in the urban areas and the recreation destinations in the Central Wasatch Mountains that support the environmental, recreation, and economic goals of the Mountain

Accord charter and serve residents, businesses, and visitors. Such transportation connections should provide equitable access to transit, walking, and biking and decrease single-occupancy vehicle use. To focus transit improvements in locations that are compatible with the unique environmental character of the Central Wasatch Mountains.

- viii. To plan and implement transportation solutions in the canyons with the goal of reducing risks associated with avalanches, winter weather, rockslides, incidents, and other hazards and to improve emergency response capabilities and evacuation routes.

To achieve the outcomes described above, we agree to pursue a comprehensive and interdependent package of actions including voluntary land exchanges, land designations, transportation improvements, environmental monitoring, visitor use management, and other actions. Because actions relating to the Central Wasatch are often interdependent, we recognize that any proposed individual actions may warrant negotiation, consensus-building, and other associated actions to maintain the balance of priorities desired for the Central Wasatch.

We agree to continue to build upon public engagement efforts, to maintain public transparency, and to implement a disclosure procedure for conflicts of interest for future efforts.

Attachment F

Restatement and Recommitment of the Values and Principles of the Mountain Accord, feedback from the Stakeholders Council Special Meeting on February 23, 2022

The following are general comments gathered from the Stakeholders Council on their reception of the compact and any changes they may like to see. These comments and suggested changes are left to the CWC Commissioners to choose to implement or disregard.

- Some stakeholders still want to see prioritization of the action items in the Accord.
- Some stakeholders appreciate that this principles document is de-linked from the outcomes and action items, while others think they must continue to be linked.
- Some stakeholders felt the turnaround time for this document was too short, not enough time to properly solicit input and public comment.
- Stakeholders recognize that situations have changed since 2015 and some stakeholders want to renegotiate all the action items in the original Accord.
- Some Stakeholders want the Compact to be a bold document for the CWC's vision of the Wasatch with specifics about what that future looks like.
- Stakeholders appreciate that the Compact acknowledges the existence and impacts of climate change.
- Most stakeholders do not want this document to negate CWC work that has been done or is still needed on the important action items in the Accord.
- Most stakeholders feel that the principles document should be clear that equitable access to the Wasatch is a CWC priority.
- Most stakeholders want to see language that is clear and direct.
- Most stakeholders agree that there have been significant situational changes since the Accord was signed and the Compact plus any future companion documents need to acknowledge those changes.
- One stakeholder requested the Compact specifically support U.S. Forest Service lands protection in the study area for additional federal protections and to bind ski resort boundaries on public land within the federal designation through Congressional action.

Specific suggestions for language changes:

- A request was made to reinsert the word "restrooms" into the Compact. The word 'restroom' appeared in three places in the Accord, (i) under the section "Federal Land Designation and Associated Conditions" which section was not included in the Compact, (ii) in two places under the section "Alta Land Exchange" which section was not included in the Compact.
- One commenter requested to delete paragraphs 3 and 4 in the resolutions section whereas another disagreed and argued for those paragraphs to remain.

~~The signers of the Compact agree to pursue federal, state, local, and private action for land designations, land exchanges, conservation easements, and~~

~~transit/transportation solutions where agreement is reached among stakeholders to support such actions which are consistent with the values and principles of this Compact. The signers of the Compact recognize that action on transit/transportation solutions would likely require corresponding action developed through a public consensus-building process relating to land designations, land exchanges, or conservation easements in order to maintain the delicate balance of principles and values sought by the public and to protect the future health and viability of the mountains.~~

~~It is recognized by all signers of this Compact that while certain actions may be pursued, there are related conditions that have been outlined previously in the Mountain Accord or may be subsequently developed that must occur in conjunction with any contemplated federal, state, local, or private action as a condition for support for such action, in order to maintain the delicate balance of principles and values sought by the public and to protect the future health and viability of the mountains.~~

- One comment suggested to delete paragraph (ii) under the paragraph stating the principles to guide decisions relating to the Central Wasatch

~~A recreation system that provides a range of settings and accommodates current and increasing demand by encouraging high levels of use at thoughtfully designed locations (nodes) with convenient access, while protecting solitude, nature, and other backcountry values.~~

- One stakeholder requested language to add stipulations to any referenced land swaps to clarify that such land swaps are voluntary. This would be accomplished by adding the word “voluntary” before “land exchange” in three locations in the document.

The signers of the Compact agree to pursue federal, state, local, and private action for land designations, voluntary land exchanges, conservation easements, and transit/transportation solutions where agreement is reached among stakeholders to support such actions which are consistent with the values and principles of this Compact. The signers of the Compact recognize that action on transit/transportation solutions would likely require corresponding action developed through a public consensus-building process relating to land designations, voluntary land exchanges, or conservation easements in order to maintain the delicate balance of principles and values sought by the public and to protect the future health and viability of the mountains.

...

To achieve the outcomes described above, the signers of this Compact agree to pursue a comprehensive and interdependent package of actions including voluntary land exchanges, land designations, transportation improvements, environmental monitoring, visitor use management, and other actions. Because actions relating to the Central Wasatch are often interdependent, the signers recognize that any proposed individual actions may warrant negotiation, consensus-building, and other associated actions to maintain the balance of priorities desired for the Central Wasatch.

- To also reflect canyons residents and business, one commentator requested to revise the first paragraph to state:

The Central Wasatch mountain range is beloved by those of us who live along both sides of its ridgeline. We live. we work. we hike, we bike, we ski, we discover wildlife, we ramble and amble and find solitude amid one of the world's most spectacular backyards. And even as these mountains are a source of peace and spiritual renewal, they are also our source for water and, literally, the reason life is possible in Utah's arid climate.

- One commentator requested we remove the words "in conjunction" on page 3 because it implies no work can be done without all actions coming together at once.

It is recognized by all signers of this Compact that while certain actions may be pursued, there are related conditions that have been outlined previously in the Mountain Accord or may be subsequently developed that must occur ~~in~~ ~~conjunction~~ with any contemplated federal, state, local, or private action as a condition for support for such action, in order to maintain the delicate balance of principles and values sought by the public and to protect the future health and viability of the mountains.
