SECTION III: APPLICANT PROFILE

(Answers are encouraged to be brief and concise, but you may increase any box size if you feel it necessary.)

Why are you interested in this volunteer position?	I am originally from Long Beach, California. During college and law school, I've had the opportunity to live in upstate New York and in the Bay Area. While these places were enjoyable in their own ways, nothing has been better than living in Logan. The Adams neighborhood in particular has been such a warm and giving community, to which I am very grateful. My office is in the Adams neighborhood and I choose to live in the Adams neighborhood because I truly believe it is the best in Logan. I would like to give back to this community and dedicate my time to its improvement through service with neighborhood council.
What strengths would you bring to this position?	I'm self-starting and independent, but I am flexible and work well collaboratively with others. I am both personable and analytical, and I get along well with a wide diversity of people. I face adversity and stressful situations with calm and good humor. While I can be aggressive and quick on my feet when the occasion calls for it, I am also very empathetic and care about the well-being of others.
What involvement have you had in your community?	President, Cache County Bar Association Commissioner, First District Court Judicial Nominating Committee Board Member, State Board of Mandatory Continuing Legal Education Member, Utah Supreme Court Advisory Committee on Rules of Juvenile Procedure Member, Rotary Club of Logan, Utah Member, First District Court Divorce Education for Children Committee Volunteer, Intermountain Homecare/Healthcare Hospice Republican Party County Delegate Young Women Laurels Advisor, Logan 29 th Ward Former Volunteer Counsel, Multicultural Center Former Bar Examiner, Utah State Bar
What is one suggestion you have for improving your immediate neighborhood?	I think more resources should be put towards promoting greater non-automotive traffic in the neighborhood. Infrastructure should be further improved to encourage more bicycle and foot traffic throughout the neighborhood. Something as simple even as raised crosswalks would encourage more walking, help slow cars down, and contribute to a better residential feel to the neighborhood.
