Chapter 17.20: Public Zones

§17.20.010. **Public Zones Established**

The following districts are established as Public base zoning districts:

- A. ~~Public (PUB), Public,~~
- B. ~~Recreation (REC), Recreation~~

§17.20.020. **Public Zone (PUB)**

A. Purpose.

The purpose of the Public Zone is to classify lands which are publicly owned, and on which public facilities, public schools, and-or other existing or identified publicly-owned facilities or uses are located. These areas serve many functions including providing opportunities for education, cultural enhancements, indoor and outdoor recreation, and general governmental functions.

The ~~PUB-Public~~ zone is intended to support lands and facilities that are owned and operated by governmental or non-profit entities and that serve and benefit the community. The zone is intended to provide for permitted and conditionally permitted uses in a manner that is harmonious with adjacent and nearby residential, commercial, or industrial uses in a manner and which protects the public's health, safety, and general welfare of those nearby uses.

B. Applicability.

The ~~PUBPublic~~ zone is appropriate for publicly owned lands such as lands owned by public utilities, schools, Utah State University, Logan City, Cache County, the State of Utah, and other public and non-profit organizations.

Utah State University properties are zoned ~~Public; PUB- Hh~~ however, these state owned lands are exempt from local zoning requirements. Private projects on University lands may be subject to City development standards and permitting requirements.

§17.20.030. **Recreation Zone (REC)**

A. Purpose.

The purpose of the Recreation zone is to preserve and enhance public and private open, natural, and improved park and recreational areas, and to implement recreation and resource sustainability

provisions of the General Plan. These areas serve ~~to:~~the following functions:

- Provide opportunities for active and passive outdoor recreation;
- Provide contrasts to the built environment;
- Preserve scenic qualities;
- Protect sensitive or fragile environmental areas;
- Preserve the capacity and water quality of the stormwater drainage system; and
- Provide pedestrian and bicycle transportation connections.

B. Applicability.

The ~~Recreation~~REC zone is intended to be applied to publicly-owned parks and recreation and park facilities as well as publicly owned open space. The classification may also be used conditionally for privately owned recreation facilities, such as a golf course, recreation vehicle park, ~~or campground,~~or Gateway District in that future public open space in gateways may be designated REC.

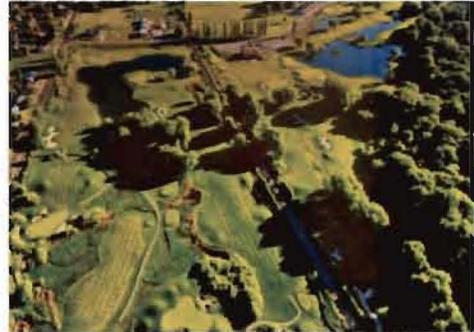

EXHIBIT B

Chapter 17.21: Public Zones Uses

§17.21.010. Primary Land Uses

Table 17.20.040 lists the primary uses allowed within the Public zones. ~~The use categories listed in the table are defined in Chapters 17.06, 17.07, 17.08, 17.09, 17.10, and 17.62.~~

§17.21.020. Residential Structure Types

Mobile homes and other types of dwelling units used as on-site housing for security guards or caretakers shall be allowed in the Public zones if reviewed and approved in accordance with the conditional use permit procedures of ~~Chapter~~ §17.49. Only one such dwelling shall be allowed per lot.

§17.21.030. Accessory Uses

Accessory uses shall be permitted within Public zones if they comply with all development standards of this title. Accessory uses and structures shall not be ~~permitted to be~~ established before the ~~establishment of the~~ primary use or structure is established.

§17.21.040. Temporary Uses

Temporary uses shall be permitted within the Public zones for a period not to exceed twelve calendar months in compliance with the provisions of this ~~chapter~~ Chapter and all development standards of this title.

Chapter 17.22: Development Standards: Public Zones

§17.22.010.

A. Purpose.

The purpose of Chapter 17.22 is to provide unified development standards for Logan's Public zones; to promote streamlining of development review; and to ensure consistency and provide flexibility in site design consistent with Logan's General Plan.

B. Applicability.

~~These standards apply Chapter 17.22 applies~~ to all development proposals in Logan's Public zones. Some Sections of 17.22 may not be applicable to certain types of development, as specified by this Code. Where an interpretation of applicability is required, the ~~Community Development~~ Director shall make the interpretation or elevate the decision to a decision body.

C. Design Review and Decision Criteria.

Development proposals which comply with the standards in this Chapter shall be reviewed as Track 1 Design Review decisions, in accordance with Chapter 17.50. Such projects do not involve adjustments. The standards listed in the sections below are the review criteria for Track 1 decisions. Development proposals which include one or more adjustments, and/or include requests requiring a public hearing, shall be reviewed as Track 2 Design Review decisions. Where adjustments are requested, the adjustments criteria in the sections below are the applicable decision criteria.

§17.19.020. Land Use

Land uses shall conform to the provisions of Chapter 17.21. Allowed uses shall not be modified through a variance, ~~or adjustment~~.

§17.19.030. Siting

Siting standards provide for consistent setbacks along street frontages, allow for light between buildings, provide compatibility with adjacent uses, and allow for adequate vehicular parking while efficiently using land resources, consistent with the purpose of each zone.

A. Setbacks: Setback standards frame streets and public spaces, and encourage a consistent building wall along street edges where appropriate. Parking setbacks enhance pedestrian safety and comfort while reducing the visual prominence of automobiles as viewed from streets, building entrances and sidewalks.

B. Building frontage: Building frontage requirements enhance pedestrian safety, comfort and convenience.

C. Parking: Minimum parking standards provide for an adequate supply of parking. Maximum parking standards encourage compact development and efficient use of urban land, while encouraging the use of alternative modes of transportation.

§17.19.040. Building Form

Building form standards are intended to provide predictable and economically viable requirements for building form that implement the purpose of each zone.

A. Building Heights: Buildings should provide a sense of street enclosure for pedestrians in more urban environments and step-down in height adjacent to neighborhoods. Building height in Public Zones ~~adjacent to residential zones shall meet the height transition requirements contained in Chapters 17.14 and 17.18. shall be consistent with Districts and Corridors Height Transition Areas in §17.18.040.~~

- B. Floor Heights: The intent of minimum ground and upper floor height standards is to provide commercially viable spaces at the ground-level and adequate working ~~and/or living~~ spaces above.
- C. Transparency: Where applicable, the intent of transparency standards is to promote economic activity by creating active street walls and visual interest for pedestrians at the ground-level. They also serve to promote personal and property safety by introducing more “eyes on the street” or natural surveillance of the public right-of-way and building interiors.
- D. Entrances: The intent of entrance standards is to provide direct and comfortable access to businesses for pedestrians. Entrances on public streets are particularly important to promote pedestrian traffic and activities on the sidewalks.

§17.19.050. Appearance

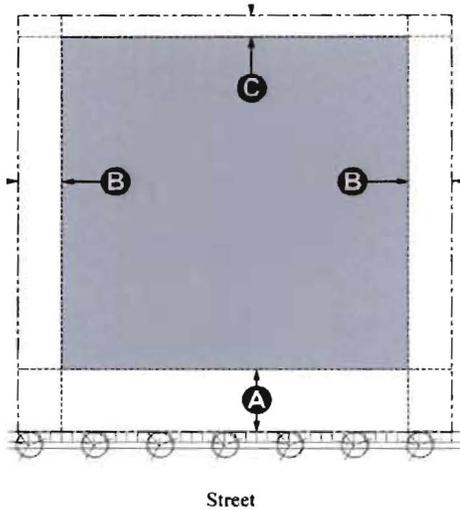

Appearance standards ensure that new development is of high quality and helps to create an environment that is human-scaled, pleasant and safe for pedestrians, and consistent with the purpose of each zone.

- A. Elevations: These requirements help to ensure that buildings attract customers/pedestrians, reduce the negative impact of blank walls ~~on walkability~~ and improve the vitality of businesses.
- B. Materials: The intent of these requirements is to promote high quality construction materials and to foster visual continuity on the publicly viewed sides of buildings.

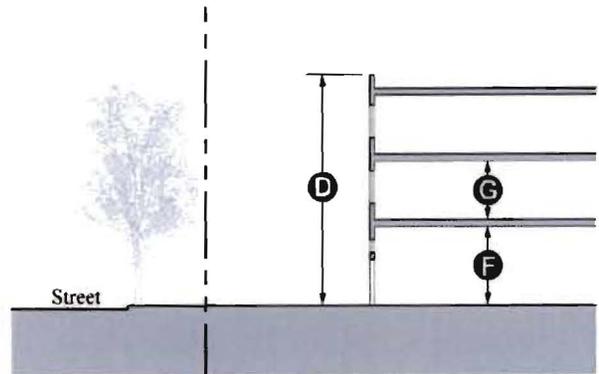

§17.19.060. Procedures for Review and Approval

All proposed changes in land use and proposed developments shall be processed in accordance with the procedures and permit requirements in Chapters 17.46 through 17.~~6959~~, as applicable.

Outdoor Activity Setbacks

Outdoor activity facilities, such as swimming pools, basketball courts, tennis courts, or baseball diamonds must be set back 50 feet from abutting ~~neighborhood zones, R-zoned properties.~~ Playground facilities must be set back 25 feet from abutting neighborhood and corridor zoned properties if not illuminated, and 50 feet if illuminated. Where the outdoor activity facility abuts an adjacent outdoor activity in another zone (e.g. a school yard in an abutting Neighborhood zone) the required setback is reduced to 10 feet.

Height Exceptions

The maximum height standards of Section 17.22.070 apply to all primary and accessory uses allowed within Public and Recreation zones, except that the following may exceed the stated height limits by ten (10) feet: water towers; utility poles; solar collectors, louvers, and reflectors; penthouse structures for elevators, stairways, HVAC facilities, or skylights; steeples; flagpoles; chimneys; silos and barns. Utility poles, public safety facilities and recreational facilities may exceed height limits with a Conditional Use Permit.

MEMORANDUM TO MUNICIPAL COUNCIL

REPORT SUMMARY...

<i>Project Name:</i>	Public Zones Amendments
<i>Proponent/Owner:</i>	Community Development Department
<i>Project Address:</i>	Citywide
<i>Request:</i>	Code Amendment
<i>Type of Action:</i>	Legislative
<i>Date of Hearing:</i>	November 14, 2013

RECOMMENDATION

Staff recommends that the Planning Commission recommend **approval** to the Municipal Council for the following amendments to the Land Development Code (LDC): Sections 17.20 – 17.22.

REQUEST

This proposed text amendment to the Land Development Code amends the three LDC Chapters dealing with Public Zones (17.20), Uses (17.21) and Development Standards (17.22).

The changes in 17.20 and 17.22 are generally just clean-up in nature. The changes in 17.21 streamlines the list of uses by limiting the table to those uses most appropriate in the Public zones and removing others.

GENERAL PLAN

The Land Development Code was prepared and adopted to implement the vision expressed in the General Plan. This proposed amendment clarifies language and application within the Public section of the Code. The proposed amendments are consistent with the General Plan.

STAFF RECOMMENDATION AND SUMMARY

Staff would recommend that the Planning Commission forward a recommendation of approval to the Council for their consideration.

PUBLIC COMMENTS

As of the time the staff report was prepared, no public comments had been received.

PUBLIC NOTIFICATION

Legal notices were published in the Herald Journal on October 31, 2013, posted on the City's website and the Utah Public Meeting website on October 23, 2013, and noticed in a quarter page ad on October 27, 2013.

AGENCY AND CITY DEPARTMENT COMMENTS

No comments have been received.

RECOMMENDED FINDINGS FOR APPROVAL

The Planning Commission bases its decisions on the following findings:

1. Utah State Law authorizes local Planning Commission to recommend ordinance changes to the legislative body (Municipal Council).

2. The Code Amendment is done in conformance with the requirements of Title 17.51 of the Logan Municipal Code.
3. The proposed Code Amendments are generally administrative in nature as they remove redundant language, clarify intent and application, and streamline the overall sections.
4. The provisions of the Public Sections are consistent with the overall goals and objectives of the Logan General Plan.
5. No public comment has been received regarding the proposed amendment.

This staff report is an analysis of the application based on adopted city documents, standard city development practices, and available information. The report is to be used to review and consider the merits of the application prior to and during the course of the Planning Commission meeting. Additional information may be revealed by participants at the Planning Commission meeting which may modify the staff report and become the Certificate of Decision. The Director of Community Development reserves the right to supplement the material in the report with additional information at the Planning Commission meeting.
