

The Town Council of Snowville Town held its regular monthly meeting at the Snowville Town Hall on **Wednesday 9th March 2022.**

Council Present

Mayor Gwen Wilson

Garet Wirick, Council Member

John Levenduski, Council Member

Rod McGary, Council Member

Scott O'Hare, Council Member

Tammie Morgan, Clerk

Stacey Hill, Treasurer/Recorder

Others Present

Tim Heyder, Rod Arbon

Mike Morgan, Eric Dustler

Kenneth Snow, Jed Pugsley

Mayor Gwen Wilson called the meeting to order at 7:00 p.m. She welcomed the council and all others present. Tammie Morgan, AJ Morgan, and Deputy Martinez were excused at this meeting. Garet Wirick was on Facetime. Mayor Gwen Wilson led us in the pledge of allegiance and Stacey Hill offered the opening prayer.

John Levenduski made a motion to accept the agenda. Rod McGary 2nd. All council members present voted yes.

03/09/2022

Scott O'Hare made a motion to accept the minutes from the previous. Scott O'Hare asked that on page seven of the minutes from last month, the meeting be added to the paragraph. John Levenduski 2nd. All Council members present voted yes.

Deputy Caleb Martinez

Deputy Caleb Martinez was unable to make it to the meeting. He was having maintenance on his truck. He sent an email, that was copies for each council member and Mayor Gwen Wilson read it aloud to the council.

Eric Dustler

Eric stated that we re-bid the corner traffic light. Eric stated that there was only one bid. Eric stated that we accepted bids on the 23rd of February, 2022. The company's name was Landmark LLC. Eric split the bid for the traffic light and it came in at the price of \$46,334. The total amount came in at \$64,502. Eric stated that last time the bid was \$99,000.00. So the bid came down so that was good. Eric gave a paper to Mayor Wilson with all of the bid schedules on them. Eric stated that the Snowville council awarded the bid to Landmark LLC. Mayor Wilson stated that it's a good price. Scott O'Hare asked Eric about the addition of the hardware on the bid. The town has to come up with the money for the additional items, Eric stated, it will come from UDOT. Scott asked what that cost was. Eric stated that it was \$9,000.00. So the total was \$55,000.00. Eric stated that we can get those items anytime from UDOT. Eric stated that it's about 6 weeks out if we award it tonight. Scott asked where the light pole was going to be placed. Eric stated on the town's property and the light will overhang in the middle of the intersection. Mayor Wilson would like to have a curb and gutter to make it look nice. Eric agreed. Eric asked for a motion from the council to accept the bid and get it in the works.

Mayor Wilson asked Tim Heyder about this project. Tim stated that we were going to have warning stop signs that warn the driver of the stop ahead. Tim also stated that we have already paid about \$7,000.00 to Forsgren for their work. Mayor Wilson asked for a motion to accept this bid.

03/09/2022

Rod McGary made a motion to accept the base bid of \$46,334.00, for the overhead beacon stoplight. JohnLevenduski 2nd. All council members were present and voted. Yes

Tim Heyder stated that we will have to get an invoice and take it to the Mayor's Association and present them with a total of \$60,000.00, which we have been awarded. Then the town can pay for the whole thing in full. Eric stated that there is a No U-turn sign that is right in front of the stop sign that will need to be pulled out. Eric stated that no one can see the "Stop Sign". Eric stated that Marianne will have a presentation done next month and approved by the USDA. Eric stated that the council will have to decide what they are going to do with that well, drill a new one or clean it up so it can be used. Mayor Wilson asked if Marianne will be here next time and Eric said that she would present the findings to the council.

Water

Mayor Wilson asked about the water conference that Scott Page, Tammie, and AJ Morgan attended in St. George earlier in the month. They were all excused. They will report to April's town council. Mayor Wilson stated that we have a letter that goes out to the customers that are late on their water bills. Mayor Wilson would like to change the wording of the letter. Mayor read the letter that she wrote. Mayor Wilson asked the council if they wanted to change the later water letter that went out. Scott O'Hare asked what did the other letter say? Stacey Hill stated that the letter said if they were 30 days old they would receive a letter stating that they had two weeks to pay their bill. If they were having problems they were supposed to come to the Mayor or a Council Member and work out a payment schedule to get their water paid in full. If the customer still didn't pay then they would receive a 24 hour shut off notice. Stacey Hill stated that it is in our town ordinances and we have resolutions. Mayor Gwen read the letter to the council that we send out to the people who are late on payments. Mayor Wilson stated that she thinks the letter is a little harsh. Scott O'Hare stated that he didn't think the letter was harsh; it was stating what was going to happen if they didn't pay their water bill. Scott stated that we can add what Mayor Wilson had written to the current late water bill. Mayor Wilson stated that she didn't want to because it's two different things. Mayor's letter is asking if we can help in any way, but the original letter states you need to pay now. Scott O'Hare asked the Mayor are you going to send the letter that you wrote first? How much time are you going to give them to pay? Mayor Wilson wanted to go at it from a different angle. Mayor Wilson stated that she knows that we have customers that are months and months behind. She spoke with a lady today that is 7 months behind. Scott O'Hare stated that there are ways to get help to pay your bills. Stacey Hill stated that she had sent notices to them to get this taken care of but nothing from the property owner. Scott O'Hare stated that if we have contacted them and they haven't done anything about it then, we should shut them off. The

03/09/2022

lady told Mayor Wilson that there was water running through the meter and they don't live in the house. Stacey Hill stated that it was not true, the meter hasn't been running, Stacey stated that there is an ordinance in Snowville Town if you don't live in the home, you still need to pay the water and garbage bill no matter what. The customer knows this because she did the same thing last year. Stacey stated the meter is locked and no one can get any water out of the meter until it is paid in full. Stacey also stated that it is \$64.00 each month for water and garbage. Tim Heyder stated that when we took the water system over from the State of Utah and borrowed the money we were required by the State to charge an amount of \$37.00 whether you lived in the home or not. Tim also stated that if we lock the meter we still have to charge the customer. If they want their water turned back on they will have to pay a turnoff fee of \$50.00, a turn-on fee of \$50.00, and 3 months in advance. Tim stated that you can't change it, you can up it. Because you have a ½ of a Million dollar loan against the town. Tim also stated that in six months you can go and take the water meter out and have them pay \$6,500.00 for a new meter. Tim also stated that in Tremonton if you miss one month they will just come and turn your water off. Tim stated that we have been very generous in what we have with the letters. Tim stated that we tried to work with people and it wasn't working that why we had to have a letter for late payment. Garett Wirick stated that it is not unusual to have a cost for infrastructure for utilities. Garett stated that he has a place up in Idaho where he pays for utilities whether he is there or not. Scott O'Hare stated that we should contact her one more time and let her know that she needs to pay now. Mayor Wilson stated that she talked to her today and she is going to call Stacey on Monday and take care of it. Scott O'Hare stated that there is help out there to pay your bills if you are having financial problems, Scott also stated that there are people in this town that will help others if they need it. Mayor Wilson stated that we will put it on the agenda for next month and talk about it some more. Garett Wirick stated that we should list some resources for the customers to go to so they can receive the help they need. Scott O'Hare stated that he would bring Stacey a list of resources to help our customers with their bills.

No Parking Signs

Mayor Wilson stated that she can't stand these trucks parking here at the town hall. She stated that we have holes in the road where they have turned around. Mayor Wilson stated that there are five places in this town for trucks to park. This is not one of them. Mayor Wilson stated that this is a community town hall and not a place to park trucks. Mayor Wilson stated that we need to put up "No Parking signs" around the town hall. She stated that there are "No Parking signs" all over the fire department building and we should have them here too. If that doesn't help

03/09/2022

with the problem then we need to put the orange barriers all the way across to block them out. Scott O'Hare stated that the drivers have been parking here since he has moved to Snowville. Mayor Wilson stated that it is going to "Stop". This is not a place for trucks. Mayor Wilson stated that she wants to take pride in our town, it is also an ordinance she has looked at. Rod Arbon stated that it is not fun to push snow when there are a lot of trucks in the parking lot. Mayor Wilson proposes that we put up "No Parking Signs". Scott O'Hare and Rod McGary both said to specify "No overnight truck parking". Mayor Wilson doesn't want them on the property at all. Mayor Wilson stated that some of the drivers would plug their trucks into the building and use the town's power. Tim turned off the breaker to the outside outlet at the electrical panel so they wouldn't be able to do that. Jed Pugsley stated that the first hour will be free for the drivers, and after that, they will have to pay \$10.00 to park at Exit 7. Mayor Wilson noticed the Sheriff's department that there was a trailer that was left in the parking lot for 4 days, the Sheriff notified the owners and told them that if it wasn't moved that it would be towed away at their costs. The trailer was picked up and they haven't returned. Scott O'Hare stated that he wouldn't have any trailers left around the town hall, you don't know what is in them. It could blow up the whole town. Scott O'Hare also stated that we should get signs that say "No Overnight Parking". Garet Wirick stated that we use the words "No Commercial Parking". Kenneth Snow suggested that it says "No Commercial Parking at any time". Scott O'Hare asked where are you going to get the signs and how much are they going to cost? Mayor Wilson stated that there is a place in Logan that makes the signs and she can also look on the internet for some also. Mayor Wilson stated that she has looked at some prices and they are about \$45.00 for each sign. Scott O'Hare asked how many are you going to need? Mayor Wilson proposed that we purchase 8 reflective "No Parking Signs." Scott O'Hare stated that sometimes the younger people will leave their cars here and go with someone else and then they come back and get them and go home. Tim Heyder stated that if you put "No Parking signs" then you can't park for the town council because you have the signs up. Rod Arbon asked what kind of posts are you going to put them on? Are some going to be steel in the ground or on the building? Scott O'Hare asked what size of signs are you getting? Mayor Wilson stated that she and Stacey will take care of ordering the signs.

John Levenduksi made a motion to get "No Parking signs" under \$500.00. Rod McGary 2nd. All council members present voted Yes.

Renaming of the Town Park

03/09/2022

Mayor Wilson stated that John Levenduski had a friend that died in the Vietnam War. He lived here; his name was Lewis Cervantez. Mayor Wilson also had someone come to her and ask if the town park could be named after Alan Terry also. Mayor Wilson asked if anyone wanted to talk about these people. Rod Arbon stated that there have been a lot of good men and women that have gone on before that have lived here and would be great to have their names on the park. Scott O'Hare agreed with Rod there would be a lot of problems if we named the park after one person that has lived in Snowville. Mike Morgan stated that the town doesn't own all of the park, we just own the bowery and down the tree line. The church owes that rest. Mike Morgan also agrees with Rod and Scott if you start putting names on the park someone will be upset about it. Jed Pugsley stated that for an Eagle Scout project one of the kids in Park Valley had a statue of a Soldier and had on a plaque of all the men and women who served in the war that were from Park Valley. Jed stated that there were soldiers that fought in World War 1 until now. John Levenduski suggested that we could have that up to the Cemetery. Everyone agreed that the town park is left Snowville Town Park. Rod McGary suggested that we put the names of the Soldiers that have served on a plaque up at the Cemetery. The board up there needs to be redone. It would be a good time to put the names up there.

Street Light (23)

Mayor Wilson stated that we are being billed for 23 street lights but there are only 21. She stated that we either have two that are out or two that we don't have. Mike Morgan suggested calling Rocky Mountain Power, they know where they are all at. Rod McGary suggested getting a map of all the streetlights that Snowville town is being billed for, Tim Heyder stated that they need to come out and fix some of the lights because the sensors are broken. Also, the addresses should be on the poles. Mayor Wilson stated that she will call Craig at Rocky Mountain to get a map of the streetlights that we are paying for.

Sewer Plant Study

Mayor Wilson asked if we had ever done a sewer plant study? Eric stated that we had done one in 2006. Tim Heyder was Mayor then we were going to do just the businesses. Mike Morgan stated that years ago we were going to have one we had grants to cover almost all of it. The townspeople voted it down, they didn't want the monthly costs. Tim Heyder stated that it

03/09/2022

would cost about 10 times what your water bill would cost just to maintain the sewer system. Rod Arbon stated that even though we had all of the free grant money it was still going to cost the town residents per month. Rod stated that he thought that there were about 86 hook-ups, but that was back then. Rod also stated that when you do this that everyone will have to hook up. Eric stated that you will have to have several stations around town and it would be very expensive. Mayor Wilson stated that we can't get anyone to come in with businesses without it. Eric suggested that he would make some phone calls around. Mayor Wilson stated that if we had businesses that they would pay for it. Eric stated that all of us would pay for it, but the Mayor said that they would pay for the bulk of it. Mayor Wilson stated that if we had businesses come in then it wouldn't be so expensive. Mayor Wilson stated that USDA funded Garland and they received 60% of the money from them. Mayor Wilson asked Eric to look into just the businesses for now.

Economic Development Grant

Mayor Wilson stated that we can't do this until we find out more about the sewer. There is a lot of grant money to recruit and retain business in rural areas. But Mayor Wilson can't go for it until we have a sewer plant. So for now we will hold off.

Committees for Events

Mayor Wilson asked how has that been taken care of in the past? Scott O'Hare stated that in the past we have done it. 5 or 6 people and their wives and we have had some help from other family members. Scott O'Hare stated that he was the one that asked for this to be put on the agenda this month. Scott thinks that it would be nice to get the townspeople more involved in the town activities. Then just having the town the event. Everyone shows up and has a good time. Then everyone on the council is left to clean up the mess. Scott suggested that we have committees for Easter, the 4th of July, and Christmas. If we can't get a committee for the event then we don't have the event. Scott stated that the 4th of July was really hard. Mayor Wilson agreed that the town doesn't have to put on all of the events. Mayor Wilson agreed that we should approve it and help with funds. Scott was thinking that if we could have a town council member with 4 people that live within the city limits and 2 in the outer skirts, to form a committee.

03/09/2022

On the 4th of July you need a bigger committee. Some to put up and some to take down. Scott would really like the people in the town to come out and help with the events. Mayor Wilson asked who was going to be over Easter this year? Rod McGary will be over Easter this year. Garett Wirick will be for Christmas. Scott suggested that 4th of July everyone on the town council would work on that. Scott suggested about 12 people help on the 4th of July. Scott will talk with Rod about some Easter stuff that he has. Scott suggested that on the fireworks that we get with Jeremy Wilcock we can get more fireworks for the same price that we paid from the Firework company in Twin Falls. Scott suggested that we paid them in cash. Stacey stated that we weren't doing cash. We will have to figure something else out. Stacey stated that there has always been a problem with cash.

Easter in the Park

Mayor Wilson asked when Easter is this year. Easter is on the 17th on Sunday, but they usually have the Easter Egg Hunt on the Saturday before. This year it will be on the 16th of April this year. Scott asked Rod about what time he would like to have the Easter Egg Hunt, Scott said that they usually had it at 10:00 a.m. Rod asked how much the budget would be, and Stacey said that she would ask Tammie and let him know.

Opening and Closing of Meetings and Fraud Risk Assessment

Mayor Wilson asked the council members if they had done this. Scott O'Hare, Rod McGary, and Mayor Wilson had done there. Garett and John are still working on them.

Change the Time of Town Council from 7:00 p.m. to 6:00 p.m.

03/09/2022

Mayor Wilson stated that we have Town Council at 6:00 p.m. instead of 7:00 p.m. making council an hour earlier. Rod McGary stated that he was good either way. Scott stated that one of the concerns was the Public Hearing that we usually have at 6:00 p.m. before the council. Scott stated that we really don't have very many public hearings so can we put the public hearing before the town council.

Scott O'Hare made a motion that we have Town Council at 6:00 p.m. instead of 7:00 p.m. and if we have a Public Hearing it will be first at 6:00 p.m. and Town Council will be at 7:00 p.m. John Levenduski 2nd. All Council members that were present voted Yes.

Mayor Wilson stated that we will have Town Council next month at 6:00 p.m. Tim Heyder stated that Public Meetings are usually for 15 minutes, and just because you made your motion you're going to have a 45-minute wait. Tim Heyder suggested that we have a public hearing at 6:00 p.m. with the town council following right after it is over. Scott asked if we could amend the motion that was just made? Tim Heyder said yes. **Scott O'Hare amended the motion.**

Scott O'Hare made a motion that town council meetings will start at 6:00 p.m. unless we have an public hearing then town council will follow directly after the hearing stops. Rod McGary 2nd. All Council members present voted. Yes

Downtown Beautification

Mayor Wilson stated that Simon from Ocean Star had offered to buy some plants to beautify downtown Snowville. Mayor asked if that is something that can still happen? Do we know? Mayor Wilson would love to get some plants out and have some of the trees trimmed. The Fire Department sign you can't see with the tree that is in the way. Mayor Wilson stated that we planted trees in a really weird place. Stacey stated but they are growing. Mayor Wilson likes to get some donations to beautify our downtown. Scott stated that he was reading somewhere that a town in Utah received a grant to beautify their downtown area. Mayor Wilson is going to look into it. All the council members that were there agreed it would be nice to beautify downtown Snowville. Jed Pugsley stated that Sinclair has a trash can on one of the end pumps and it is always full and then blows over to his property, or over to UDOT, or along the fence

03/09/2022

between Flying J. Mayor Wilson stated that she would talk to the owner. Tim Heyder suggested that the Mayor get Dean Hunt to come and trim the trees around town. He has done a great job in the past. Scott also said that he did a good job when we had the storm come through and we had him come and cut some trees that were broken at the park. Rod Arbon stated that it would be great to have the pine tree that is in front of the town hall trimmed also. When he pushes snow, the tree hits the mirrors on his tractor. Mayor is going to try to get some money for this.

New Website for the Town

Mayor Wilson stated that we are going to talk about a website. She said if you have ever looked at Tremonton website it is a .org. It tells you about their town and you can pay your bill. It has all of their meetings online. Mayor talked to the I gov website. They have government contracts, they are actually located here in Utah. She talked to them and they would charge us \$119 a month. Mayor Wilson would like to bring Snowville into the 21 century. People would be able to pay their water bills online. Scott asked if this was the other website that had been talking about. Stacey said No, that one was from Rural Water that we had already paid money towards. Mayor stated that you couldn't pay your water bill. Stacey stated that Cole was supposed to have sent an email but she couldn't find it. Scott asked if it had been followed through and Stacey said no it had not. Mayor stated that the last time the website had been updated was 2019, Stacey stated that no one has had the time to do it. Mayor Wilson said that they will maintain the website and everything. Mayor Wilson will bring the papers to the next council because there is a lot of stuff that they do. Rod Arbon stated that he was in a meeting with the Box Elder Tourism group, to help beautify the downtown. Stacey stated that she thinks that id where we got the rock from over on the corner. Scott stated that he would look into it. Rod stated that he couldn't remember what town received it but they received a pretty good chunk of change. To help beautify their town.

Dog Licensing for the Town

Mayor Wilson asked Stacey to talk about this, Stacey stated that she and Tammie have put the Dog Licensing in the water bills, which will be held on April 9th at the Fire Station from 10:30 a.m. to 11:30 a.m. The vet was going to be there to give rabies shots for the dogs, the cost is

03/09/2022

\$15.00 for the shots and \$5.00 to license your dog for the town. Rabies will be good for every 2 years. Every dog in Snowville city limits has to have a rabies shot for the ordinance that has been passed. Jed asked if he needs to do anything to the Fire station for the clinic? Stacey said that AJ usually will put out the Snowplow if it is raining or cold. Mayor Wilson asked if they got a tag or something, Scott said yes a metal tag to put on their collar. Mayor Wilson asked what happens if they don't get their dogs licensed? Mayor Wilson asked how do you know which dogs need to be vaccinated or just licensed? Stacey stated that Tammie and I have really good recorders of all the dogs in town and we know which ones need what. We send the townpeople a paper telling them that our reports say that you have so many dogs if you don't please let us know so we can update them.

Old and New Business

Mayor Wilson met with the Box Elder County Prosecutor, his name is Blair T. Wardle, we talked about writing tickets for the townpeople if they weren't in compliance. The prosecution attorney will charge the town \$1200.00 a year which is \$100.00 a month. He has tickets that are already made of violations that someone might be violating and we just hand them out and he will take care of the rest. Mayor Wilson gave the council papers from Blair that explain everything that he will do for the town. Mayor said that the violations can be up to \$750.00. Part of the money will go to the court and part will come back to the town. It will be a percentage of the fine. Scott O'Hare asked what the percentage would be? Mayor stated that it just depends on what the violation is, we will have to work it out with the court. Mayor stated he will prosecute people that live within city limits only if we have a contract with them, because of our ordinances. Mayor stated that she has to sign the contract with them, so the council members took the papers home to bring back for the next council to make a decision on. Mayor stated that we will not have to have someone go take classes on how to give out citations, all we will have to do is send out the letters to the people in violation. Tim Heyder stated that this will be a lot cheaper and a lot easier for the council. Scott asked, is this going to be the same judge that we were going to have in the past? Mayor stated yes Tremonton and Brigham have the same judge. Jed stated that we should have him come to the town council next month so we could ask questions. Mayor said that she will try to get a hold of him from next month. Mayor stated that she had talked about the hair dryers for the Bear River Valley Hospital, donating them she talked to Shannon at the hospital. It would be so nice to have them, they have a maintenance man that would install them, if we decided to do that. The cost of the dryers are \$36.00 a piece. Scott O'Hare asked how many rooms? Mayor said 13 rooms. Mayor stated that these are the kind of dryers that mount on the wall. Scott asked if Shannon

03/09/2022

had approved the dryers? Rod McGary asked if we had the funds to do it? Tammie wasn't at the meeting with the computer so we will look into it next month. Scott said that it will be \$468 for 13 rooms. Mayor asked John Levenduski if he had time to talk to the animal control officer in Tremonton. John stated that he had. John stated that this will be on hold and the animal control officer from Tremonton will have to come out to town council. Stacey stated that she will need to know when he will be coming out so she can put in on the agenda. John says that he would. Scott stated that there is a trailer house parked on the side of the road. He wants to know if it is a fire hazard? It is parked really close to the fire hydrant that is there also. Jed said that we will have to look at our town ordinances, Jed thinking that if it is within 20 feet of the fire hydrant. Scott said that the fire truck can get to the hydrant, he is concerned about the house. Rod Arbon asked, is it on the town's right of way or their personal right of way? Scott stated that it was on personal but in front of the house. Mike Morgan stated that it is a rental property. Scott stated that he is very concerned that if they have a fire that the fire trucks and fire freighters won't be able to help them, because there is so much stuff in the way. Jed and Scott asked if we have the ordinances in digital form? Stacey stated yes and she will email them a copy of the town's ordinances. Jed stated that if you build in the county that if you don't have access of 500 feet to a fire hydrant that you will have to have a sprayer system in the structure. They won't issue a county permit. Jed stated that a sprayer system is about \$60,000 to \$70,000.00, which is very expensive. Mayor stated about the 2023 budget. Stacey stated that Tammie wanted everyone to have a paper with the budget on them, each council member had one, Tammie sent Stacey an email and it said, here the proposed budget, she said that the revenues are expected to be pretty similar so the budget looks pretty much the same as last year. We will have a public hearing next month or in May before the council to adopt it. Mayor stated are we done? Scott stated No, we still have the single wide trailer down the road from 300 North. Scott stated that it just has been through there and is not habitable for someone to live there. Mayor stated that we need to send them a letter. Mike Morgan stated that in the past that there has been a single wide trailer in its place and it was burned down and they somewhat clean it up. Scott stated that now he has put another single wide in there. Tim Heyder stated that you can't put another single wide trailer in its place. When they changed the ordinances they fixed that. Mayor also stated that we have businesses that don't have business licenses. Scott asked who? Mayor stated the salvage yard. Stacey stated that they have never received one. Mayor stated that there will be a letter sent. Jed stated that certification will be coming up. In about 6 to 8 weeks, Jed stated the ISO report, for insurance rates. Scott stated that he has all the plate numbers, VIN numbers for trucks. He will give it to Jed. Scott stated that last year we had the people from Tremonton drive out here to do safety inspections on the fire trucks. Instead of driving each one of the trucks to Tremonton. Scott stated that it costs a little bit more money but it will be worth it. Jed stated that he thought Park Valley was having someone go out there so maybe he can arrange with them to come here before or after they go to Park Valley.

03/09/2022

Rod Arbon stated that he had a comment. Rod said that some of these drainage ditches, at one time it was an irrigation ditch but now it is a drainage ditch. Also the cross road by Will Thomas' the road has a rise in it or a water leak. Scott said to Rod, is it the intersection on 300 North? Rod said yes. There is a big gap in the road. Rod said that it just happened all of the sudden. Scott asked do we take care of that road or doesn't the county? Rod said that the town does. Mayor asked if we have road maintenance? Scott stated maybe we should have the county come and look at it. Tim Heyder told the Mayor that he would give her his number. Rod stated that the ditch is the one over in front of Tim Baldwin's and Vauna Wilcock's house. The runoff water runs out of it. Scott asked is the address 600 North Stone Road? Jed asked about the ditch that runs along his tree line on his property if that was an irrigation ditch or drainage ditch? Rod said both. Jed stated with burning for residential and agriculture. If townpeople want to burn the county will not give them a burn permit. But if you want to burn in the city limits, the town is responsible to issue the burn permits. Jed said that the residential burn will start on the 15th of March and close in May sometime. It all has to be natural. Scott asked do we have to issue those permits? Jed said that he would give those permits if the council wanted to, with a 24 hour notice. Stacey asked Jed to shoot her a text of what he wants in the water bills and she will try to get it there. Kenneth Snow stated that there are a lot of furrow cats, the town of Snowville has a problem. Kenneth stated that he has had to replace power cords and a lot of other stuff because the cats have destroyed it. Scott asked where do you live? Scott stated that he will work on it, with the rescue to see if they can take care of them. With live traps. Scott stated that you can trap the cats and take them to one of the shelters in Tremonton, Brigham or Logan.

Mayor Wilson wanted to add to the Minutes about a sewer study that Eric talked about just for the Businesses. She stated that you can have a sewer study and it will not impact the town.

03/09/2022

Rod McGary made a motion to pay the expenses that included Verizon, Rocky Mountain Power, IDAWY, Stacey Hill and Scott O'Hare John Levenduski 2nd. All that were present voted Yes.

Rod McGary made a motion to Adjourn. Scott O'Hare 2nd. All that were present voted Yes.

2 Hour 17 minutes 10 seconds

Stacey S. Hill, Clerk/Recorder

03/09/2022
