- (i) literal enforcement of the ordinance would cause an unreasonable hardship for the applicant that is not necessary to carry out the general purpose of the land use ordinances;
- (ii) there are special circumstances attached to the property that do not generally apply to other properties in the same zone;
- (iii) granting the variance is essential to the enjoyment of a substantial property right possessed by other property in the same zone;
- (iv) the variance will not substantially affect the general plan and will not be contrary to the public interest;
- (v) the spirit of the land use ordinance is observed and substantial justice done.

No evidence has been provided to meet these criteria. The variance cannot be approved as requested. The Applicant has been encouraged to work with city staff to come to another solution to the issues raised with the proposed accessory structure.
