Re: City Council Seat Vacancy

The following is a brief introduction and why I would make a good appointment for the city council member vacancy. I am a current Payson resident for just 18 months after a move here with my wife of 32 years from Kissimmee, Florida. I live in the Maples neighborhood and have contributed to the growth and success of the community almost immediately upon my arrival. I currently serve on the executive board of directors for the Payson Santaquin Area Chamber of Commerce, and support local business growth through my own home-based business.

I love the small town feel and community events and have participated in several of the local happenings. Though I have no previous governmental experience, I bring this council a wealth of experience and understanding of issues that affect residents as I witnessed a small farming community expand to a chaotic town of 75,000 people in a short period of time. My desire is to help this small town of Payson remain a safe, family focused community, while managing the necessary and inevitable growth with wisdom and care.

I have served in my church for over 30 years in many leadership positions and have an incredibly positive attitude with a sustained drive to get things done! I enjoy people and love learning about how things work and sharing my input on how to make things better. Payson is a great town with lots of great people and I would be honored to have the opportunity to work with city leaders and the residents to keep this town a place everyone can enjoy and call home.

It would be a privilege to be considered for this position and I look forward to the opportunity to discuss further at your earliest convenience.

(James) Jim Rowland

Payson, UT 84651
